July 2004  
PUBLISHED BY THE AMERICAN ACADEMY OF IMPLANT DENTISTRY

## THE MAIN EVENT—SOMETHING FOR EVERYONE

*Statue of Liberty*

*Manhattan*

*Times Square at night*

New York, the city that never sleeps, has something for everyone—live theatre, gourmet restaurants, numerous attractions, to name only a few. But in November 2004 the main event will be the AAID 53<sup>rd</sup> Annual Meeting at the Marriott Marquis! This meeting has something for everyone in the dental implant arena.

**Hilt Tatum, Jr., DDS**, who has not presented at an Academy Annual meeting for many years, will be presenting on the topics of creating space (bone manipulation) and 24 guidelines for successful implant treatment.

“It is truly a pleasure to be presenting for the Academy in New York. It promises to be an extraordinary meeting,” Dr. Tatum said.

**Manual Chanavaz, MD, DDS**, will speak on New Exciting Anatomical Considerations and Successful Bone and Soft Tissue Healing in Implant and Reconstructive Surgery. He will be accompanied by 29 other Lille University (France) faculty and students, many of whom will be presenting table clinics.

“As a professor of oral and maxillofacial implant surgery, I see this meeting as a unique opportunity for all dentists to learn and acquire the most recent information on basic medical and clinical sciences that are so critically important to improving and maturing their clinical skills,” said Dr. Chanavaz.

**Dr. Scott Ganz** will present two main podium and one limited attendance lectures, and **Craig Cooper, DDS**, will present his always sold-out lecture on marketing dental implants at a limited attendance workshop.

“Limited attendance workshops are restricted to a certain number so it is important to register for the meeting immediately and make selections for these events that are available on a first-come, first-served basis,” said General Chairman **Kim Gowey, DDS**.

An Allied Dental Staff program that covers all areas of the dentists’ practice will be inspiring for staff and very beneficial for the dentists’ practice.

“Members received their Preliminary Programs (with registration form) in the mail in June and I urge everyone to register immediately and make their hotel reservations as New York is a busy city,” said President **Fran DuCoin, DMD**. “Last year our hotel sold out in Hollywood and this year New York has many events including the NY Marathon running concurrently with our meeting.”

In addition to the clinical sessions, many special events are being offered including tickets to the Broadway hit play, *The Producers*. These are also available on the registration form on a first-come, first-served basis. (see page 15)

Make a reservation from November 2-7, 2004, at the Marriott Marquis and register for the best implant meeting and the main event in New York in November!

Perhaps the responsibility I have enjoyed most as your President, and before that over the past few years as an Officer, has been the opportunity to represent the Academy in many places and visit with so many fascinating members. Our members are achieving remarkable success in providing dental implant education in both the surgical and restorative phases, which will ultimately help people enjoy the quality of life they deserve. At the same time they are promoting our Academy worldwide.

Where do I start? **Dr. Jamie Lozada's** work at Loma Linda University in California is known throughout the world (and as a friend of mine recently said, that pretty much must mean throughout the known intelligent universe!). I was fortunate to spend a weekend at Loma Linda when the Western District meeting was held there; I wish I had had more time. Wow, two simultaneous live surgeries projected on large screens behind scientific presentations given to a packed room. Dr. Lozada was not only able to keep everything straight, but also make it very informative and interesting. But that was only a weekend. Besides being the AAID Treasurer and chairman of the Education Committee, he is also

Director of Implant Dentistry in the Advanced Education Program at Loma Linda, which is a three-year postgraduate course in the most advanced and sophisticated techniques taught in implant dentistry, and runs the 30<sup>th</sup> Annual Implant Dentistry Study Club (did you catch that, *30th Annual*) at Loma Linda. This is a one-year, nine part, limited admission study club whose members travel far, very far, to attend. Why? Because if you really want to understand the art and science of dental implantology, it just does not get any better. In 2005 the Western District meeting is scheduled to be at Loma Linda again. I will be there. You should try to be there too; it will be worth it.

There are other programs that are at least equal and just as distinguished. Last fall, while visiting my new granddaughter (oh, and my daughter and son-in-law, too) in Paris, I took some time to call on **Dr. Manuel Chanavaz**, Professor and Chairman, Department of Oral and Maxillofacial Surgery, on the first day of classes at Lille University Medical School in France. I was truly awed by what he is doing and the enthusiasm and commitment of his students. His residents literally come from around the world to learn at his side. He also takes the time to travel to their offices to actually observe how they really do what they have learned. How is that for some stress, having your Professor look over your shoulder in your office?

While in France, I was also able to visit with the extraordinary **Dr. Hilt Tatum** in his country home in DuVauvray about 90 minutes by fast train outside of Paris. Hilt is one of the most innovative dental implantologists who has ever lived. He conceived and developed the sinus lift augmentation procedure, invented countless implant designs, produced numerous prosthetic innovations and, over the past 30 years, has trained tens of thousands of dentists how to really do implants. That includes many of today's experts. Currently, he directs the Tatum Institute in England, and you think you have a commute! What a pleasure it was to spend time with this gracious man, who is a true gentleman, and his lovely wife. He showed me his latest innovations in a room packed from floor to ceiling with instruments he has developed. He never slows down. The time was too short, but the day will always be remembered.

If you have not yet had the occasion to spend time with these men in their own locale, I'm pleased to inform you that they all will be coming to see you at the 53<sup>rd</sup> Annual Meeting of the AAID in Times Square, New York City, from November 3 to 7, 2004. (See registration form on page 15.) It will be an incredible meeting and the first time these three men have been on a program together.

Sometimes I have the pleasure to

## EDITOR'S COMMENTARY

visit outside of the implant community. Our Academy is currently in the process of developing a strategic alliance with the American Academy of Cosmetic Dentistry. I was fortunate to be invited to attend their 20<sup>th</sup> Annual Meeting in Vancouver. What an extraordinary experience! More than 3000 people registered; more than 1500 were dentists. About 100 scientific sessions were presented over three days to packed rooms filled with exceptional doctors committed to their profession. They reminded me a lot of us. Friendship, mentoring, commitment, credentialing and excitement were all part of their meeting. No wonder they want to align with us. We are a distinguished academy of colleagues who work together, and we are working hard to become the preeminent dental implant academy in the world.

See you in November!

Francis J. DuCoin, DMD

An organization is only as good as its membership and those they place in strategic leadership positions. In this we are very fortunate. There are key individuals in place to guide the AAID long into the future.

This editor is thankful for the opportunity to have served the organization on the A&C Board, having just completed his term. The Board met in Chicago from April 29 through May 1, 2004, to administer the oral examinations for Associate Fellow and Fellow credentials. It consists of 12 members who dedicate their time and are committed to the AAID, helping to ensure success. As I looked around the room, I counted four past presidents of the AAID serving on this board!

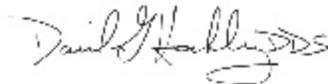

The importance associated with awarding this credential should not be overlooked as the future leadership of the Academy will rest with those who are successful in achieving it. All of your A&C members take this very seriously. Their dedication and commitment through a three-year term of service need to be commended. I

have witnessed firsthand as this board has worked to create an unbiased and fair examination that accurately measures the skill of all applicants. This year **Dr. Beverly Dunn** is the chairman. His work with the test construction committee and professional psychometrician Mary Lunz, PhD, has again taken steps to enhance both the oral and written examination.

We are certainly on the right track for future success. I personally encourage all our members to consider the many benefits associated with a credentialed level of membership in the AAID and challenge all to enhance their education and the level of care provided to your patients.

So, if you are not already a credentialed member of the AAID, I urge you to begin the process to move from general membership in the Academy to Associate Fellowship. Take the written examination, which is the first of the two parts of the examination. If you have already passed the written examination, plan to come to Chicago next year to complete the examination process for Associate Fellowship.

And if you are already an Associate Fellow, make 2005 the year that you take the examination for Fellow membership.

David G. Hochberg, DDS

## ABOI/ID NEWS

On May 3, 2004, after passing rigorous examinations on implant dentistry, **28** new professionals joined **243** other dentists as Diplomates of the American Board of Oral Implantology/Implant Dentistry (ABOI/ID). As such, they have joined the nation's leading experts in implant care.

Song Ahn, DDS, Houston, TX

Louie Al-Faraje, DDS, San Diego, CA

Norman Barbone, DDS, Mansfield, OH

Paul R. Bernstein, DDS, Brooklyn, NY

William Marion Brown, Jr., DDS, Greensboro, NC

Oscar Dalmao, DDS, Downsview, ON Canada

Joseph Gaeta, Jr., DDS, Port Charlotte, FL

Michael H. Gaytan, DDS, Encino, CA

Steven Holbrook, DMD, Albuquerque, NM

Shankar Iyer, DDS, Elizabeth, NJ

Aleksandar Janic, DMD, Vancouver, BC Canada

Bruce G. Knecht, DMD, Coconut Creek, FL

William K.B. Liang, DMD, Surrey, BC, Canada

Michael Z. McBride, DDS, San Marcos, CA

John A. McCullough, DDS, Niagara Falls, ON, Canada

Patrick F. McEvoy, DDS, Mountain View, CA

Mayur J. Mehta, DDS, Palm Harbor, FL

Adam Ahmed Moneim, DDS, Los Gatos, CA

German L. Murias, DDS, Hialeah, FL

Shirin Rawji, DDS, Orlando, FL

David H. Rhoden III, DDS, Waco, TX

Duane T. Starr, DMD, Portland, OR

Stephen T. Swallow, DDS, Kittery, ME

Douglas Takahashi, DDS, Kamloops, BC, Canada

Robert Thein, DDS, La Crescenta, CA

Vincent Vella, DDS, Rochester, NY

Charles R. Walton, DMD, Mobile, AL

Michael R. Wiland, DDS, New York, NY

To sit for the examination, they were required to practice implant dentistry for at least six years, to provide implant services to more than ten patients, and to otherwise prove their implant expertise. To earn the title of Diplomat, these dentists presented cases for review by an expert panel of implant dentists and passed a series of written and oral examinations sponsored by the American Board of Oral Implantology/Implant Dentistry.

The examination process measured the in-depth knowledge, proficient skills, and abilities required for practitioners to provide comprehensive, safe, and effective oral implant care for the public.

## LUNCH & LEARN OPTIONS FOR THE ANNUAL MEETING--refer to the registration form on page 15

### 1. Nicholas Caplanis, DMD, MS

#### *Implant Site Development - Surgical and Prosthetic Considerations*

Become familiar with surgical & prosthetic techniques to maximize implant site esthetics and discuss performing pre-surgical assessments to maximize implant site esthetics.

### 2. John Giblin, MDS

#### *Minimizing Trauma, Maximizing Aesthetics in Implant Related Restorative Dentistry*

Providing participants with conservative, efficient, measured and comfortable treatment methods for restorative success.

### 3. Mario Groisman, DDS

#### *Implant Esthetics - Biological and Clinical Consideration*

Identify diagnostic keys in predicting peri-implant esthetics and select the proper surgical techniques in esthetic implant therapy.

### 4. Jack T. Krauser, DMD

#### *Go, No Go!*

Several clinical cases that underscore the clinical decisions regarding site development, simultaneous, staged placement and graft materials with strategies and timing for loading.

### 5. Mark H. E. Lin, DDS

#### *Parameters for Success with Anterior Implant Aesthetics*

The parameters to be evaluated prior to the start of any treatment involve proper diagnosis of the treatment site and surrounding anatomical condition.

### 6. Leonard I. Linkow, DDS, DMSc

#### *Treating The Severely Compromised Mandibles*

A three-dimensional presentation of various implant modalities used for the rehabilitation of patients suffering with severely atrophied mandibles.

### 7. Jaime L. Lozada, DDS

#### *How Can I Make Predictable the Placement of Implants in Infected Sites?*

Evaluate effects of periradicular lesions on dental implants as well as the methods for controlling infected sites prior or simultaneous to implant placement.

### 8. Robert J. Miller, DDS

#### *Lasers in Oral Implantology*

### 9. John C. Minichetti, DMD

#### *Indications and Usage of Particulate Mineralized Allograft in Implant Dentistry*

Various bone augmentation materials available to the clinician and a statistical analysis of more than 170 extraction sites and 57 sinus augmentations will be presented.

### 10. Peter M. Scheer, DDS, MS

#### *Single Tooth to Full Arch Reconstruction*

### 11. Victor I. Sendax, DDS

#### *The Mini Dental Implant Concept Updated*

The reality that MDIs, placed in conformity with the patented and FDA-approved insertion and reconstructive protocol, can confirm radiographically and histologically a direct bone to implant interfacial integration for twenty years or more.

### 12. Dennis G. Smiler, DDS

#### *Decision Tree for Bone Graft Success*

Protocol for bone graft success, evaluation of cortical versus cancellous bone, when to use on-lay, split graft, sandwich, socket graft and sinus.

### 13. Maurice L. Valen

#### *Immediate Implant Splinting Superstructure for Existing Denture: A Five-Year Study*

A universal prefabricated superstructure for immediate implant splinting that eliminates clinical impressions and expensive gold castings, providing therapy for under \$350.00.

### 14. Charles M. Weiss, DDS

#### *A Complete Arch Fixed Prosthesis at One Third the Price*

*On Becoming an Associate Fellow or Fellow*

### 15. Beverly Dunn, DDS, and Joyce Sigmon

#### *On Becoming a Diplomat*

### 16. Robert Buhite, DDS, and Kent Stobaugh, DDS

#### *On Becoming a Diplomat*

## LIMITED ATTENDANCE WORKSHOP OPTIONS

Thursday, November 4, 8:30-10:00 am

### Jerry L. Soderstrom, DDS

#### *Anisotropic Calibration of CT Scanners to 3-D Printers*

This workshop will demonstrate the technique that enables the implantologist to produce 3-D anatomical models.

### William D. Nordquist, DMD

#### *The Custom Endosteal Implant*

The latest techniques for insertion of a custom endosteal implant and classifications for the treatment of the atrophic maxilla with the custom endosteal implant.

Thursday, November 4, 1:30-3:00 pm, 4:00-5:00 pm

### Norman Cranin, DDS, and Barry K. Bartee, DDS, MD

#### *Scientific Writing Workshop*

Dr. Cranin will discuss the various requirements for preparation of a manuscript and the stages of the process. Dr. Bartee will address the preparation of a "clinical case report," describing the components, documentation required and proper photographs.

Friday, November 5, 8:30-10:00 am, 11:00-12:00 pm

### Craig D. Cooper, DDS

#### *Marketing Dental Implants*

Dr. Cooper will demonstrate innovative approaches to patient selection, diagnostics and treatment planning critical to case selection and long-term success.

Friday, November 5, 1:30-3:00 pm, 4:00-5:00 pm

### Jay C. Shartzler, DDS, and Arthur K. Molzan, DDS

#### *Practice Building with Public Seminars*

This demonstration will illustrate how to construct a public seminar program from start to finish. Topics included are marketing and pre-seminar planning. An actual seminar will be presented to dentists interested in putting together a public seminar as part of their marketing program.

Saturday, November 6, 8:30-10:00 am, 11:00-12:00 pm

### Scott Ganz, DMD

#### *Imaging*

This presentation will review and compare various techniques to achieve a higher degree of success with implant reconstruction guided by CT imaging.

## MEMBERSHIP

### NEW MEMBERS

The AAID is pleased to welcome the following new members to the Academy. If you joined the Academy recently and your name does not appear, it will be listed in the next newsletter.

Lan Allen, DMD  
Dov M. Almog, DMD  
Jorge Amorin, DMD  
Jeffery B. Ballard, DMD  
Ayman Balshe, DDS  
Darren P. Barrilleaus, DDS  
Dr. Dario Godinho Batista  
Steve Bolur, DDS  
Thomas B. Bowen, DMD  
Daniel Brunner, MD, DDS  
Frank Caffaratti, DDS  
Jefferson Call, DMD  
J. Marc Carpenter, DDS  
Arun Chamria, BDS  
Dr. Gil Chemouni  
James J. Choi, DDS  
Jin-Won Chung, DDS  
Marla O. Coleman, DDS  
Val Daniyar, DMD  
David Daugherty, DDS  
Keith L. Davis, DMD  
Dr. Jairo Jose De Sousa  
R. Craig Diederich, DDS, MS  
R. Craig Diederich, DDS, MS  
Steve G. Drescher, DDS  
Adrian Dumitrescu, DDS  
Cris Durghineseu, DDS  
Kingsly D. Dweey, DDS  
Ziad El Bteddini, DDS  
Dr. Sacor Elgrably  
John R Erbaugh, DDS  
David F. Ewart, DDS  
C. C. Gaddis, DDS  
Kent Glace, BDS  
Robert D. Glasgow, DMD  
Liviu Gold, DDS  
Larry M. Gray, DDS

Joe F. Griffin, DDS  
Dr. Sean R. Hair  
Ronny Hourani, DDS  
Yuan-Lung Hung, DMD  
Michael Hwahng, DDS

Jean Woods, DDS  
Dr. Axel Wöst  
Gregory Young, DDS

### MEMBER WINS "PRODUCERS" TICKET

Daniel P. Camm, DDS, an Associate Fellow from Brunswick, Ohio, was the lucky winner of a ticket to the Broadway hit, *The Producers*. Dr. Camm's name was randomly drawn from a list of all members who had registered for the 2004 Annual Meeting and made their hotel reservations.

"I am excited to have won the Producers ticket and am looking forward to seeing other Academy members at the meeting," said Dr. Camm.

## ADMISSIONS AND CREDENTIALS BOARD

A & C Board Holds 2004 Oral/Case Examinations: The Admissions and Credentials Board met in Chicago April 29 - May 1, 2004, for its annual business meeting and to consider 56 applications: 36 for Associate Fellowship by examination, six for Associate Fellowship by Credentials, one for reinstatement of Associate Fellowship, one for Academic Associate Fellowship, and 12 for Fellowship by Credentials.

*Beverly Dunn, DDS, A & C Board chairman (left), and Roger Plooster, DDS, confer during preparation for the oral/case examinations.*

In addition to the candidates listed in the February issue of AAIDNEWS, this year's Associate Fellow candidates include:

Phillipe Chanavaz, Aubagne, France  
 Gil Chemount, Sarcelles, France  
 Jacob Elgrably, Neuilly Sur Seine, France  
 Najib Ibnoukhatib, Mons Enbardevil, France  
 Rachid Koummal, Brussels, Belgium

Olivier Naze, Paris, France  
 Herbert Salisbury, Niceville, Florida  
 Clifford Starr, Jacksonville, Florida  
 Also considered for Fellowship by Credentials were:

Robert Seckinger, Philadelphia, PA  
 Natalie Wong, Toronto, Ontario, Canada

The A & C Board's report about its meeting, examination and recommendations for election of new Associate Fellows and Fellows were considered by the Board of Trustees at its June 4 - 5 meeting. Recommended for election were 36 of the Associate Fellow candidates and all twelve of the applicants for Fellowship.

Learn about the Examination Process at the 2003 Annual Meeting: If you have questions about the requirements for Associate Fellow and Fellow

*Mary Lunz, PhD, director of Measurement Research Associates, reviews the principles of evaluation with the board members,*

membership, the examination process or how to prepare your case reports, plan to attend one or more of the four sessions that the Board will hold during the 2004 Annual Meeting.

During the Lunch and Learn session on Saturday, November 6, Beverly Dunn, DDS, chairman of the A & C Board, and Joyce Sigmon, staff liaison, will explain the examination requirements and process. To participate in this session, pre-registration is required.

*Jesse Osier, DDS (left) and David Hochberg, DDS (right), interview a candidate during the oral examination.*

Some of this year's successful Associate Fellow candidates will display their case reports near the entrance to the Exhibit Hall at the following times:

- Thursday, November 4, during Table Clinics, 9:30 - 10:30 a.m.
- Thursday, November 4, during Welcome Reception, 5:00 - 6:30 p.m.
- Friday, November 5, during Table Clinics, 10:00 - 11:00 a.m.

In addition to seeing how these candidates interpreted the guidelines for case report preparation, these informal sessions provide an excellent opportunity to talk with them about their examination experience. Board members and staff will also be available to answer questions.

*The Admissions and Credentials Board. From left to right: Arthur Molzan, DDS; Beverly Dunn, DDS, chairman; Emile Martin, DDS; Joseph Orrico, DDS; David Hochberg, DDS; Jesse Osier, DDS; Roger Plooster, DDS; Max Malan, DDS; James Byland, DDS; James Fagan, DMD; and Paul Johnson, DDS. Not present: Burton E. Balkin, DMD.*

Begin the Process to become a Credentialed Member: General members are urged to take the first step toward Associate Fellow by signing up for the written part of the two-part membership examination. The written examination will be given four more times this year, each in a different location:

- August 6, Chicago, Illinois
- October 24, Chennai, India
- November 7, New York City in conjunction with the 2004 Annual Meeting
- November 12, Atlanta, Georgia.

Applications and fees are due in the Headquarters Office at least 30 days before each examination except for the Chennai examination which has a July 26 deadline. For an application, visit the AAID website – [www.aaid-implant.org/credentials/Associate Fellow](http://www.aaid-implant.org/credentials/AssociateFellow) – or contact Joyce Sigmon in the Headquarters Office.

Oral/Case Examination Schedule Announced: The Board has set the following schedule for the next three annual oral/case examinations.

- April 28 – May 1, 2005
- May 18 – 21, 2006
- May 3 – 6, 2007

Each year, the examinations will be held in Chicago; and the application deadline is February 1.

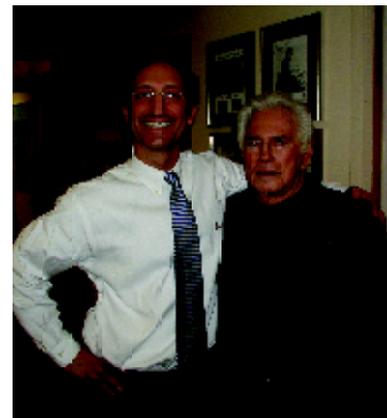

The AAID Study Club Program offers credentialed members AGD and ADA-CERP continuing education credits for their members. A booklet is provided that will help in planning meetings, along with suggested topics, agendas and literature review. The AAID also offers a Speakers' Guild, which provides lecturers for club meetings. Also provided are certificates of participation from the AAID and marketing aids to promote clubs locally.

Those credentialed members who already have study clubs in existence can now affiliate with the AAID. The AAID can help support these groups with speakers, continuing education credits and marketing to increase membership.

For more information or an application, contact John Minichetti, DMD at [DrMinichetti@EnglewoodDental.com](mailto:DrMinichetti@EnglewoodDental.com) or 201-871-3555.

## AAID SPONSORS STUDY CLUBS

**John C. Minichetti, DMD**, president of the Northeast District, as well as chairman of the AAID study club committee, has announced the availability of AAID sponsored study clubs for credentialed members. Members with fellowship or associate fellowship status, are urged to consider starting an AAID Study Club (Mentor2 Program) in their local area. These clubs provide our credentialed members an opportunity to share their expertise in implant dentistry with their peers.

*Dr. Leonard Linkow presented "The History of Dental Implants" to Dr. John Minichetti's Study Club.*

## ADVANCED BONE GRAFTING COURSE

Featuring LIVE Surgery

A unique, comprehensive, evidence-based clinical course emphasizing Autogenous Block Grafting and Sinus Grafting

Presented by: **Dr. Michael A. Pikos**

- October 21-23, 2004
- November 11-13, 2004

*For more information or to register, please contact Donna @ MAP Implant Institute  
2711 Tampa Road • Palm Harbor, FL • 34684 (727) 781-0491 or (727) 786-1631*

**GLOBAL COMMITTEE REPORT**

*Shown are speakers at a recent module of the 300-hour MaxiCourse® held in Chennai, India. From left to right are: Shankar Iyer, D.D.S., Krishnaswamy Jayadevan, B.D.S., Leonard Machi, D.D.S., John Minichetti, D.M.D. and Jerry Soderstrom, D.D.S.*

**AAID MAXI-COURSE IN INDIA EDUCATIONAL TRIUMPH**

The AAID is currently co-sponsoring a 300-hour Global Maxi Course with the Indian Academy of Interdisciplinary Dentistry (IAID) in Chennai, India. Over fifty doctors from all areas of India as well as Jordan, Malaysia and the United Emirates are registered. The course reflects the AAID’s efforts to carry its established curriculum to foreign shores in order to enhance the global quality of practiced implantology. Organized by Charles Weiss, D.D.S. and Shankar Iyer, D.D.S., the program so far has been a tremendous success.

The course offers six five-day modules; with each module containing fifty hours of lectures, live surgical and prosthetic demonstrations on patients, interactive seminars as well as hands-on sessions. The modules will run every other month from November 2003 to October 2004. The course’s objectives

include the preparation of participants for the AAID Associate Fellow/Fellow membership examinations.

Recently at the third module, held in March, case evaluation and treatment planning were examined. Medical evaluation, including the medically compromised patient, was addressed as well as pre and post surgical prosthodontics. Instructors included Shankar Iyer, D.D.S., Leonard Machi, D.D.S., John Minichetti, D.M.D., Krishnaswamy Jayadevan, B.D.S. and Jerry Soderstrom, D.D.S. As well as lecturing, the instructors performed live surgery in the nearby ultra modern dental offices of Vijailakshmi Acharya, M.D.S.

John Minichetti said, “This has been a great experience for both the instructors and students. All of the

attendees were so excited to have us here and grateful for what we had to share. It was such a thrill to lecture and perform live surgery for such a receptive group of doctors. We all learned a lot from each other.”

**AAIDNEWS**

Editor **David G. Hochberg, DDS**  
 Managing Editor **Laurie Storen**  
 Executive Director **J. Vincent Shuck**

AAIDNEWS is a quarterly publication of the American Academy of Implant Dentistry. Send all correspondence regarding the newsletter to Laurie Storen, AAID, 211 East Chicago Avenue, Suite 750, Chicago, IL 60611 or e-mail to: [laurie@aaid-implant.org](mailto:laurie@aaid-implant.org).

Please notify AAID and your postmaster of address changes noting old and new addresses and effective date. Allow 6-8 weeks for an address change.

Events offered in this newsletter are by credentialed members. Except for the MaxiCourses® (cosponsored by the Academy) the listing of an event does not imply endorsement by the AAID. The editors reserve the right of refusal and to edit.

## Post Annual Meeting Course: Overview of Implant Surgery and Prosthetics – Live

Sunday, November 7; 8:15 a.m. – 1:00 pm  
 This basic-level participation course for beginning implant dentists includes basic principles about diagnosis, treatment planning, implant surgery and prosthetic fabrication. Patient selection that will allow the clinician to diagnose cases, from simple to complex, is emphasized. Topics such as extraction site preservation (grafting), immediate implant placement and immediate loading are addressed. During the course, the participants will view live implant surgeries and prosthetic abutment bone impressions and take model impressions for abutment transfer.

At the end of the course, the participants will be able to classify implant cases according to their complexity; identify important factors in the diagnosis and treatment planning of implant cases; determine which implant cases can be treated with traditional two-stage surgery and which would benefit from immediate placement or immediate load, and take abutment/prosthetic impressions at the time of implant surgery.

### Course Instructors

**John C. Minichetti, DMD**, a general dentist who has been practicing implant dentistry for 20 years, places and restores more than 250 root form implants annually. He is a Fellow of the AAID and a Diplomate of the ABOI/ID.

**Jack Piermatti, DMD**, has placed and restored thousands of dental implants over the past 20 years and is a Fellow of the AAID and a Diplomate of the ABOI/ID.

The course will be presented at The Center for Implants and Aesthetics in Englewood, NJ, following the annual meeting. Transportation will be provided between the Marriott Marquis Hotel and the center, departing the hotel at 7:30 am. Continuing Education Credit: 4 hours

Limited to 20 dentists. The registration (see page 15) deadline is October 15, 2004.

## FIRST PART OF AAID GLOBAL PROGRAM IN BEIRUT A HUGE SUCCESS

The second part of the Global AAID Education program in Beirut, "Survey of Surgical and Prosthetic Implant Care," took place at Beirut Arab University (BAU) June 16-19, 2004. It concluded the 48 CE credit-hours course co-sponsored by the AAID.

The first part took place March 25-27, 2004. Forty dentists attended, distributed as follows: 16

Jordanian dentists, among them Professor Azmi Darwaza (Dean Faculty of Dentistry- Jordanian University of Science and Technology, JUST); Professor Awni El Kayed (Dean Faculty of Dentistry-Jordanian University, JUST, and Dr. Moath Shaqwara (Board member-Jordanian Dental Association); 15 Lebanese dentists; five Syrian dentists; of the two Saudi Arabian dentists, Dr. Abed Al Jubab, head of Scientific Research Department of King Saudi University; and one dentist from Qatar.

Teaching staff for the course included Professor Ahmad El Mahallay, Head, Surgery Dept., School of Dentistry; Professor Izzat El Sawa, Head, Anatomy Dept. of School of Medicine; Dr. Shereen Azer, Director, Crown and Bridge Dept., School of Dentistry; Dr. Andre Assaf, Dept. of Crown and Bridge, School of Dentistry; and Dr. Jihad Abdallah, Dept. of Oral Surgery, School of Dentistry, all of B.A.U.

## Advanced Implant Dentistry and Bone Grafting

Making Implant Dentistry Predictable, Profitable, and Enjoyable

- September 9 – 11, 2004
  - November 11 – 13, 2005
  - February 17 – 19, 2005
  - April 7 – 9, 2005
- Learn:  
Primary Impression Techniques  
Newest Advances in Bone Grafting

Live surgery will be observed in over-the-shoulder clinical setting, participants become actively involved in the learning process and further develop their skill in comprehensive treatment planning to improve patient care and practice profitability.

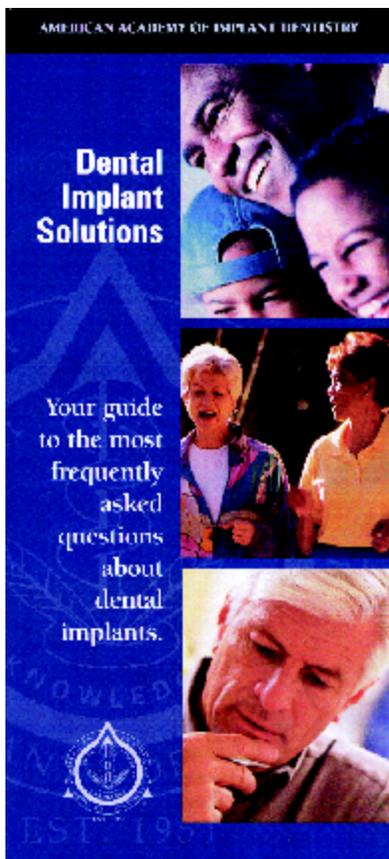

Limited Attendance to register call  
Rosenlicht Oral Surgery Center 860-649-2272 or email Lisa@rosenlicht.com

## 18<sup>TH</sup> ANNUAL SKI SYMPOSIUM

## DISTRICT NEWS

### Southern District News

The Southern District annual meeting was held March 6, 2004, at the Hilton Hawaii Village in Honolulu, Hawaii, in conjunction with the World Congress of Oral Implantology (WCOI6) meeting.

The Southern District had seven speakers presenting on the theme "Pearls of Wisdom from around the World." The District thanks the following individuals for their excellent presentations:

**Richard Borgner, DDS**

*Free Gingival Grafts around Dental Implants*  
Daniel Alniti

*Simplified Creations of Attached Gingiva around Dental Implants*

**Samuel Jirik, DDS**

*Three Appointment CAT Scan Subperiosteal Implant*

**J. Larry Bush, DDS**

*Optimizing Prosthetic Results in Difficult Cases*

**Frank Recker, DDS, JD**

*Effective Marketing of Implant Credentials/Pitfalls*

**Phillipe Boyne, DDS**

*Bone Regeneration around the Ailing Salvageable Implant*

**O. Hilt Tatum, Jr., DDS**

*Bone Manipulation for Optimizing Implant Results*

The District business meeting was held at the conclusion of the lectures. Each officer of the Southern District was present and gave their respective reports. Executive Director Vincent Shuck gave a short "State of the

Academy" report highlighting attendance and financial precedents set at the annual meeting in November 2003. He reported that the 2004 annual meeting in New York is off to an excellent start and encouraged everyone to register and make hotel reservations early.

Frank Recker gave a synopsis of the Academy's legal efforts to protect our credentials. He reported on the added membership benefit to credentialed members of receiving legal guidance-pro bono on many issues that confront us as professionals.

A reception hosted by Rocky Mountain Tissue Bank immediately followed for the Southern District members, attendees and their guests in a beautiful outdoor Hawaiian venue. Everyone who attended complimented the nice touch that the reception added and many stated this was their favorite social event of the meeting. The Southern District wishes to acknowledge and thank Debra Spillman and Rocky Mountain Tissue Bank for sponsoring the reception.

2005 ANNUAL DISTRICT MEETING:

**Dr. Dick Borgner** is working on plans for the 2005 meeting to be held in June or July. The potential for holding a cruise meeting has been suggested and is being explored.

2004 ANNUAL AAID MEETING:

The Southern District looks forward to the National Meeting at the Marriott Marquis Hotel in New York City. I am sure I speak for the Southern District in expressing our excitement about the meeting being in this venue. The Southern District officers will commit in any way to making this year's meeting a success. Do not forget to register and make your hotel reservations early (the meeting room block will soon be sold out).

J. Larry Bush, DDS

President Southern District AAID
