

PUBLISHED BY THE AMERICAN ACADEMY OF IMPLANT DENTISTRY

AN OASIS IN THE DESERT

Discover the desert you never knew in Scottsdale, Arizona. From sun-filled days to starlit evenings, there is something for everyone. World-class dining, trendy shopping, exhilarating adventure and spectacular golf courses await. The real attraction this October will be the AAID 54th Annual Meeting at the Westin Kierland Resort and Spa. This meeting has something valuable for everyone in the dental implant arena.

AAID meetings are known for presenting the top experts from throughout the world. This year is no exception. Such notables as Phillip Boyne, DMD; Sasha Jovanovic, DDS,

MS; Craig M. Misch, DDS, MDS; **Joel L. Rosenlicht, DMD; O. Hilt Tatum, Jr., DDS;** and Pascal Valentini, DDS are just a few of the dozens of presenters you can learn from at the 54th Annual Meeting.

Earn up to 24 hours of CE in a variety of offerings. From the Main Podium Program to the 20 Lunch and Learn as well as the Abstract Sessions and the Limited Attendance Programs, you will have many excellent, timely and practical programs from which to choose. An Allied Dental Staff program that covers all areas of the dentists' practice will reinvigorate staff and will be very beneficial for the dentists' practice. See pages 4 through 7 for more details on all the education programs that await you.

While known for the education, the AAID Annual Meeting is also a place to network and socialize. Greet old friends and make new ones at the Welcome Reception on Thursday,

ADMISSIONS AND CREDENTIALS BOARD

A & C Board Holds 2005 Oral/Case Examinations: The Admissions and Credentials Board met in Chicago April 28 - May 1, 2005, for its annual business meeting and to consider applications. This year, the Board considered 70 applications: 51 for Associate Fellowship by examination, three for Associate Fellowship by Credentials, one for reinstatement of Associate Fellowship, one for Fellowship by examination, one for reinstatement of Fellowship and 13 for Fellowship by Credentials.

In addition to the candidates listed in the April issue of AAID-NEWS, this year's Associate Fellow candidates also included:

Oliver Henry Savajol, Loma Linda, CA

Dharmesh Parbhoo, Woodstock, GA
Kuo-Yang Liao, Loma Linda, CA

Also considered for Fellowship by Credentials was Mark Lin, North York, ON, Canada

The A & C Board's report about its meeting/examination and recommendations for election of new Associate Fellows and Fellows were considered by the Board of Trustees at its June 11 meeting. Recommended for election were 45 of the Associate Fellow candidates and 13 of the applicants for Fellowship. The new credentialed members will be inducted during the 2005 Annual Meeting and recognized at the President's Celebration.

Changes Effective with the 2007 Examinations: Beginning with the 2007 oral/case examinations, all cases submitted for the Associate Fellow and Fellow examinations must have been in function

for at least one year by the examination date. The Board reinstated this requirement since at least one year is needed to evaluate the implant treatment.

Beginning with the 2007 examinations, the Board will also offer candidates the option to submit their cases in digitized form. Guidelines for digitized case reports are currently in development and are expected to be available for distribution in late 2005.

Learn about the Examination Process at the 2005 Annual Meeting: If you have questions about the requirements for Associate Fellow and Fellow membership, the examination process or how to prepare your case reports, plan to attend one or more of the three sessions that the Board will hold during the 2005 Annual Meeting.

During the Lunch and Learn session on Friday, October 21, **Emile Martin, DDS**, chairman of the A & C Board, and Joyce Sigmon, staff liaison, will explain the examination requirements and process. To participate in this session, pre-registration is required.

Some of this year's successful candidates will display their case reports in the Exhibit Hall at the following times:

Thursday, October 20, during Welcome Reception, 5:00 – 6:30 p.m.

Friday, October 21, during Table Clinics, 10:00 – 11:00 a.m.

In addition to seeing how these candidates applied the guidelines for case report preparation, these informal sessions also provide an excellent opportunity to talk with

them about their examination experience. Board members and staff will also be available to answer questions.

Begin the Process to Become a Credentialed Member:

General members are urged to take the first step toward Associate Fellow by signing up for the written part of the two-part membership examination. The written examination will be given four more times this year, each in a different location:

August 5, Chicago, Illinois

October 23, Scottsdale, Arizona, in conjunction with the 2005

Annual Meeting

November 18, Atlanta, Georgia.

December 11, Chennai, India

Applications and fees are due in the Headquarters Office at least 30 days before each examination, except for the examination in Chennai, which has an application deadline of September 23. For an application, visit the AAID website – www.aid-implant.org – or contact Joyce Sigmon in the Headquarters Office.

Oral/Case Examination Schedule Announced: The Board has set the following schedule for the next three annual oral/case examinations.

May 18 – 21, 2006

May 3 – 6, 2007

April 24 – 27, 2008 (tentative)

Each year, the examinations will be held in Chicago; and the application deadline is February 1.

The 2006 annual oral/case examination is the last one that will be given during the three-year eligibility period of those who passed the written examination in 2003.

PRESIDENT'S REPORT

By Kevin J. O'Grady, DDS

I have had the privilege of attending several district meetings this year; in fact, this has taken me from sea to shining sea. The planning efforts by the District Officers were outstanding and the educational opportunities offered to attendees were excellent.

The Central District held a one-day meeting in February in Chicago that featured **Dr. David Vassos**. He gave an entertaining and educational program on marketing and grafting techniques. **Dr. Jeffery Meister**, the district's President-Elect, and his office staff conducted a well-organized meeting.

The Western District meeting in March was held at Loma Linda University and included live surgeries. LLU offers a great venue for learning and I saw a lot of new faces. In addition, the meeting gave a number of predoctoral and postdoctoral dental students a chance to learn about the Academy. My thanks to **Drs. Jaime Lozada, Michael Nishime, Nicholas Caplanis, Jay Elliott and Duane Starr**, the Western District Officers, for organizing the meeting. I am pleased to report that they are already planning the 2006 district meeting in Puerto Vallarta, Mexico.

On to the East Coast I traveled and New York City, where in April I participated in the Northeast

District's meeting held at the NYU College of Dentistry. An assortment of implant topics were presented, all of which could be used on Monday when the participants returned to their offices. The evening cruise around Manhattan with dinner put an excellent finish on the day. My thanks to **Drs. Shankar Iyer** and **John Minichetti** for managing this meeting. The District's 2006 meeting will be held in Atlantic City.

I hope to attend the Southern District meeting in July to make it a clean sweep of district meetings this year. Where were you during these meetings? Did you attend your district meeting? To make these quality meetings a true success, our members need to "step up to the plate" and show their thanks for the hard work that goes into these meetings by attending. Yes, I know we can usually find an implant meeting to attend just about every month, but why do we have to look for something when we have it right here within our Academy? Watch the newsletter or visit our web site to confirm the dates of our future district meetings – and then attend. It will enhance your implant knowledge and help support your Academy.

I also attended a Leadership Team Forum in Chicago presented by the ADA along with **Dr. Frank LaMar** and our Executive Director. The meeting is designed to bring the volunteer leaders and appointed CEO together to discuss leadership trends. I found the session on preparing a one-page dental society strategic plan particularly applicable as the Academy recently adopted its own strategic plan. Divergence of

thinking within an organization seemed to be a theme throughout this year's Leadership Team Forum. We learned about effective role negotiation and fitting leadership into context.

I am pleased to report that the Academy's committees are working hard on your behalf. The June meeting of the Board of Trustees included a review of their progress reports. Watch future newsletters and web site summaries of these committee's activities.

Final plans are being implemented for the Academy's 2005 Annual Meeting that will be held in Scottsdale, Arizona on October 19 – 23. Make sure you attend!

New this year will be the Research Foundation's Golf Outing set to tee off on October 18. This first-time event should not be missed. Not only is the course magnificent and the camaraderie second to none, but you will be supporting the Research Foundation, a very valuable tool furthering the profession of implant dentistry. For more information and to reserve your spot, look for the soon-to-be-mailed Preliminary Program brochure for the Annual Meeting.

MAIN PODIUM PROGRAMS AT THE 54TH AAID ANNUAL MEETING

WEDNESDAY, OCTOBER 19

NEW TOOLS, TECHNIQUES, TECHNOLOGY

Bernard Touati, DDS, DSO

8:30 AM - 8:55 AM

Prosthetic Strategy for Esthetic Tissue Integration, Discussing a Biological Approach to Limiting Tissue Remodeling.

Peter Moy, DMD

9:00 AM - 9:25 AM

All-On-4 Solutions with Immediate Function

Hom-Lay Wang, DDS, MDS

9:30 AM - 9:55 AM

Sandwich Bone Augmentation: An Innovative Approach for Predictable Horizontal Bone Regeneration

BREAK

10:00 AM - 10:30 AM

Raymond Yukna, DMD

10:30 AM - 10:55 AM

Bioplant HTR Grafts Facilitate Immediate Dental Implants

Robert Horowitz, DDS

11:00 AM - 11:25 AM

Enhancing Bone and Soft Tissue Augmentation at the Time of Extraction Using Enamel Matrix Proteins

Douglas Deporter, DDS, Ph.D

11:30 AM - 11:55 AM

Restoring the Resorbed Posterior Maxilla without Invasive Sinus Grafting Procedures

LUNCH BREAK

12:00 PM - 1:00 PM

Dennis Smiler, DDS

1:00 PM - 1:25 PM

Balloon Membrane Elevation Surgery

Lee Walker, MD, DDS

1:30 PM - 1:55 PM

Encode™ Restorative System: Impressioning a Healing Abutment to Fabricate a Patient Specific Restoration

Jin Kim, DDS, MPH, MS

2:00 PM - 2:25 PM

Successful Soft & Hard Tissue Regeneration: Is it the Material or the Technique?

David Anson, DDS

2:30 PM - 2:55 PM

Socket Grafting and Immediate Stage-1 Implant Placement with a New Calcium Sulfate-Demineralized Freeze-Dried Bone Putty

BREAK

3:00 PM - 3:30 PM

Jaime Lozada, DDS

3:30 PM - 3:55 PM

Utilizing the Latest Technologies for Bone Grafting

Vincent Morgan, DMD

4:00 PM - 4:25 PM

Implant Design: The Key to Superior Gingival Aesthetics

Harold Alexander, PhD

4:30 PM - 4:55 PM

Calcium Sulfate / PLLA Composites for Bone Regeneration

THURSDAY, OCTOBER 20

PREDICTABLE BONE GRAFTING TECHNIQUES

**Part I - Reconstruction of the
Premaxilla****Philip Boyne, DMD**

8:00 AM - 8:35 AM

Innovation in the Reconstruction of the Deficient Pre and Posterior Maxilla in Preparation for Prosthodontic Reconstruction

Craig Misch, DDS, MDS

8:40 AM - 9:30 AM

Reconstructive Options for the Anterior Maxilla

BREAK

9:30 AM - 10:30 AM

Albino Triaca, MD, DDS

10:30 AM - 10:55 AM

Current Concepts of Preprosthetic Surgery in the Mandible and Maxilla

George Watzek, MD, DDS, PhD

11:00 AM - 11:55 AM

Reconstruction of the Posterior Maxilla

**LUNCH BREAK - District
Caucus Meetings**

12:00 PM - 1:10 PM

**Part II - Reconstruction of the
Posterior Mandible****Joel Rosenlicht, DMD**

1:30 PM - 1:55 PM

Reconstruction of the Premaxilla and Posterior Mandible. What's the Difference?

Michael Pikos, DDS

2:00 PM - 2:25 PM

*The Anthropic Posterior Mandible-Surgical Reconstruction Using Autogenous Mandibular Block Grafts***BREAK**

2:30 PM - 3:30 PM

Sasha Jovanovic, DDS, MS

3:30 PM - 4:05 PM

*5 Elements for Achieving Natural Implant Aesthetics***Myron Nevins, DDS**

4:10 PM - 4:45 PM

*Treatment Alternative for the Atrophic Posterior Mandible***FRIDAY, OCTOBER 21****Part III - Reconstruction of the Posterior Maxilla****O. Hilt Tatum, Jr., DDS**

8:00 AM - 8:35 PM

*The Creation of Stable, Anatomically Correct Implant Sites***Pascal Valentini, DDS**

8:40 AM - 9:15 PM

*Maxillary Sinus Grafting with Xenografts: Long Term Results***BREAK**

9:20 AM - 10:20 AM

Part IV - Distraction & Segmental Osseous Surgery**Cesar Guerrero, DDS**

10:20 AM - 10:55 AM

*New Clinical Options for Severely Atrophic Jaws***Eugene Keller, DDS**

11:00 AM - 11:35 AM

*Endosseous Implant and Autogenous Cortiocancellous Block Bone Graft Reconstruction of Compromised Maxilla Utilizing Onlay, Inlay, or Interpositional (with LeFort I osteotomy) Bone Grafting Techniques***LUNCH BREAK - Lunch and Learn Sessions**

11:40 AM - 1:10 PM

TISSUE ENGINEERING**Part I - Synthetic & Human Growth Factors****Robert Marx, DDS**

1:10 PM - 1:45 PM

*Synthetic and Human Growth Factors***Mohamed Sharawy, PhD**

1:50 PM - 2:25 PM

*Enhancement of Jaw Bone Regeneration Using Local Growth Factors Prior to Insertion of Implants***Joseph Fiorellini, DMD**

2:30 PM - 3:15 PM

*Synthetic and Human Growth Factors***BREAK**

3:10 PM - 4:10 PM

Part II - Gene Therapy**William Giannobile, DDS**

4:10 PM - 4:45 PM

*Novel Approaches to Tissue Engineering Alveolar Bone***John Brunski, PhD**

4:50 PM - 5:25 PM

*Dental Implant Research at the Macro and Molecular Levels***SATURDAY, OCTOBER 22****ESTHETIC STRATEGIES****Part I - Immediate Function & Esthetics****Joseph Kan, DDS, MS**

8:00 AM - 8:35 AM

*Anterior Implant Esthetics: The Ortho-Perio-Restorative Connection***Carl Misch, DDS, MDS**

8:40 AM - 9:15 AM

*Immediate Function & Esthetics in the Maxillary Edentulous Arch***BREAK**

9:20 AM - 10:20 AM

Matteo Chiapasco, MD

10:20 AM - 10:55 AM

*Immediate Loading of Implants in Complex Situations***Part II - Soft Tissue Management****Nicholas Caplanis, DMD, MS**

11:00 AM - 11:35 AM

*The Synergy Between Surgery and Esthetic Implant Dentistry***Edward P. Allen, DDS, PhD**

11:40 AM - 12:15 PM

Improving Soft Tissue Esthetics Around Dental Implants with Acellular Dermal Allografts

THE AAID 54TH ANNUAL MEETING

LUNCH AND LEARN OPTIONS

Friday, October 21, 2005

See registration form on page 23

1. Edward P. Allen, DDS, PhD

Improving Soft Tissue Esthetics Around Dental Implants with Acellular Dermal Allografts

2. John Brunski, PhD

Biomechanics to Help Case Planning With Oral Implants

3. Nicholas Caplanis, DMD, MS

The Synergy Between Surgery and Esthetic Implant Dentistry

4. Norman Cranin, DDS

Soft Tissue Surgery of the Mouth

5. William Giannobile, DDS

Novel Approaches to Tissue Engineer Alveolar Bone

6. Cesar Guerrero, DDS

New Clinical Options for Severely Atrophic Jaws

7. Joseph Kan, DDS, MS

Anterior Implant Esthetics: The Ortho-Perio-Restorative Connection

8. Eugene Keller, DDS

Endosseous Implant and Autogenous Cortiocancellous Block Bone Graft Reconstruction of Compromised Maxilla Utilizing Onlay, Inlay, or Interpositional (with LeFort I osteotomy) Bone Grafting Techniques.

9. Mark Lin, DDS

Achieving Optimum Success with Anterior Implant Aesthetics

10. Robert Marx, DDS

Synthetic and Human Growth Factors

11. Michael Pikos, DDS

The Anthropoc Posterior Mandible-Surgical Reconstruction Using Autogenous Mandibular Block Grafts

12. Steven Pratt, DDS

Using PowerPoint to Aid in Case Presentations

13. Joel Rosenlicht, DMD

Reconstruction of the Premaxilla and Posterior Mandible. What's the Difference?

ABOI/ID NEWS

New Diplomates of the ABOI/ID

On May 3, 2005, after passing rigorous examinations on implant dentistry, the twenty-seven (27) dentists listed below became Diplomates of the American Board of Oral Implantology/Implant Dentistry.

Touradj M. Ameli, DMD, MS,
Boston, MA

**Richard Allan Assing, DDS,
Brandon, FL**

Wesley S. Blakeslee, DDS,
Manasquan, NJ

**Richard Blustein, DDS, MS, St.
Louis, MO**

**Mario M. Cabianca, DMD, Trail,
BC, CANADA**

Gregg R. Codelli, DDS, Atlanta, GA
Jean-Jacques Elbaz, DDS, MS,
Beverly Hills, CA

**Jay E. Elliott, DDS, Houston, TX
Leonard Feld, DDS, Maywood, CA**

Robert Anthony Giantomas, DMD,
Toms River, NJ

**Richard V. Grubb, DDS, Havre
de Grace, MD**

**Brian J. Jackson, DDS, Utica, NY
Peter S.Y. Kim, DMD, Burnaby,
BC, CANADA**

**Frank R. Leone, DDS, Armonk,
NY**

**Mark H. E. Lin, DDS, North
York, ON, CANADA**

Victor M. Manon, DDS, Kingwood,
TX

**Vahik Meserkhani, DDS,
Glendale, CA**

**Joe Mike Murphy, DDS, Athens,
TX**

Alan Paradis, DDS, Colleyville, TX
Steven P. Quinn, DDS, Springfield,
MO

**William M. Reuss III, DDS,
Anderson, CA**

Ehab T. Shahid, DMD, Bergenfield, NJ
**Edwin Simpson, DDS, Houston,
TX**

John Sung, DDS, Flushing, NY

Kiyotaka Umezu, DDS, Saitama,
JAPAN

James A. Vito, DMD, Wayne, PA

John C. Watkins, DDS, Lindale, TX

To sit for the examinations, these dentists were required to have graduated from an ADA accredited dental school, to have acquired additional education in implant dentistry, to have practiced implant dentistry for a minimum of five years, to have provided implant services for more than ten patients, and to have otherwise proven their implant expertise. To earn the title of *Diplomate*, these dentists presented cases for review by an expert panel of implant dentists and passed a series of written and oral examinations sponsored by the American Board of Oral Implantology/Implant Dentistry.

The examination process measured the in-depth knowledge, proficient skills, and abilities required for practitioners to provide comprehensive, safe, and effective oral implant care for the public.

Congratulations to these new Diplomates who have now joined the nation's elite group of implant dentists.

INDUSTRY NEWS

Materialise Clinical Services, Inc. has opened another Regional Sales office. The new office is for the mid-west states of Illinois, Ohio, Indiana, Wisconsin and Michigan. The local representative is based in Chicago and handles all software products for SimPlant, including Planner, Master, Pro and the new View module. SimPlant View is the newest edition to the SimPlant line of products. View is a free software for non-licensed customers, which allows visualization of CT studies and treatment plans. SimPlant View can be downloaded from <http://www.simplant.com/> and includes a comprehensive Help section.

COMMITTEE AND DISTRICT NEWS

NORTHEAST DISTRICT MEETING A HUGE SUCCESS

Over 40 doctors attended the AAID Northeast District Annual Meeting held at New York University's College of Dentistry on April 1st and 2nd.

The meeting showcased live surgery performed by **Dr. Trevor Bavar** and an impressive line-up of lecturers. **Dr. Jack Piermatti** spoke on the use of CAD-CAM technology; **Dr. Charles Weiss** on the successful management of an implant practice; **Dr. Richard Elias** on diagnosis and treatment of lingual and inferior alveolar nerve injuries and **Dr. Peter Glavas** on implant overdentures. The latest in bone grafting techniques were presented by **Dr. Joel Rosenlicht** and the newest imaging techniques using CT scanning were presented by **Dr. Robert Miller**. The participants agreed that the entire speaker line-up was excellent.

Over 40 doctors attended the AAID's Northeast district meeting last month in Manhattan. Shown from l to r are: **Dr. Kevin O'Grady**, AAID President; **Dr. Leonard Linkow**; **Dr. Charles Weiss**; **Dr. Kim Gowe**, President-elect; **Dr. Shankar Iyer** and **Dr. John Minichetti**. Drs. Iyer and Minichetti were the meeting co-chairs.

On Friday, a social evening aboard the glass-enclosed Bateaux ship provided all a chance to catch up with their colleagues in a more relaxed setting. Everyone enjoyed an elegant three-course dinner, dancing to the jazz band trio and cabaret singer and the spectacular views of the illuminated Manhattan skyline.

Dr. John Minichetti, co-chair of the 2005 meeting, said, "This was a great opportunity for us to demonstrate the latest surgical and prosthetic techniques in an optimum setting. NYU's amphitheatre combines surgical and lecture hall components; it was an ideal facility for us."

Continued on page 17

NOTES FROM THE EDITOR

Recently, I returned from the A&C Board's examination of candidates for their credentials. **Dr. Emile Martin**, the chairman, provided leadership, which allowed this board to examine a record number of applicants. Four days were required to complete the job at hand. On certain days this entailed a 7:30 a.m. to 6:00 p.m. schedule.

The professional mind-set and responsibility placed with the board members was reflected throughout the process. Our Academy should be very proud of the examination process we offer. Those members who pass should feel a great sense of accomplishment and pride. If you have not yet taken this next step in your professional career, now is the time. Just call AAID headquarters and they will gladly send you an application.

We have recently added two new sections in our newsletter. The first is "Industry News," designed to keep us abreast of new procedures and services that could benefit our members. The second is an area for personal listings. Some examples of the categories are: buying/selling a practice, associate positions available or equipment for sales/purchase. We encourage you to take advantage of these new sections.

We are already approaching mid-year and our annual meeting in Scottsdale is just around the corner. A list of very impressive speakers, plus a resort (with a golf course) is certainly a formula for a successful session. So...go ahead and register now!

David G. Harley DDS

AAID MEMBERS BECOME TV STARS

Dr. Larry Bush, a Southern District Trustee on the AAID Board of Trustees and **Dr. Frank Recker**, AAID Legal Counsel made their television debut on the May 12 season finale of *The Simple Life*. Dr. Bush, his staff and his office in Goodlettsville, Tenn. were selected by the Fox network for Episode 316 in which the reality-based series' stars, Paris Hilton and Nicole Richie work as interns.

Filmed in March 2005, Dr. Bush's operation was selected by producers who wanted a stable dental office that had been in existence for a long time and offered comprehensive

dental services. The fact that Dr. Bush's office is state of the art and his staff is extremely professional also convinced the producers to offer him the opportunity.

The decision to accept was not an easy one for Dr. Bush. In fact, that is how Dr. Recker and his son, Mac, became patients for Paris and Nicole. Dr. Bush called Dr. Recker for legal advice when he was deciding whether to participate in the show. It turned out that ten-year old Mac needed a baby tooth pulled and Dr. Recker opted for a teeth whitening procedure. Two more stars were born.

Dr. Bush agreed to participate but insisted that his office, his practice and the dental profession be portrayed in the most professional light.

The day of filming arrived. At 7 a.m. the office was filled with a 50-person production crew along with Dr. Bush, his son, Allen, also a dentist in the office, their staff and six patients. Of course, befitting their celebrity status, Paris and Nicole arrived fashionably late with their bodyguards at 10:30.

Paris and Nicole assisted with Dr. Recker's teeth whitening and Paris actually "pulled" Mac's tooth, albeit with some significant prep by Dr.

Flexibility and precision for esthetic restorations.

Screw or cement-retained, anterior or posterior, the unique implant-level impression capability of the synOcta® prosthetic system offers you the flexibility, precision and reliability to successfully treat prosthetic cases at all levels of complexity. The synOcta® family of abutments is compatible with all Straumann implants and provides the entire range of options you need for superior long-term esthetic results in every clinical situation.

Straumann synOcta® family Reliable. Simple. Versatile.

www.straumann.com

Bush. Despite receiving low marks on professionalism when graded (F-) and a D on understanding of dental methods, Dr. Bush was very impressed with the hand-eye coordination demonstrated by Paris and Nicole, giving them both an A. Both received a grade of B for their relationship with patients and a C for their problem-solving skills. Overall, Dr. Bush gave them a final grade as dental interns of C-.

Dr. Bush and his dentist son and staff received much higher praise from the producers of *The Simple Life*. According to reports in the press after the show aired, “the producers of the show applauded Dr. Bush’s team effort and reported this had been one of the easiest intern filmings in the show’s three-year history.”

Nicole Richie (left) and Paris Hilton “assist” Dr. Larry Bush on The Simple Life. (Inset) Paris Hilton (left) and Nicole Richie pose with Dr. Larry Bush and his son, Dr. Allen Bush, for the camera after completing their internship.

ADVANCED BONE GRAFTING COURSE

Featuring LIVE Surgery

A unique, comprehensive, evidence-based clinical course emphasizing Autogenous Block Grafting and Sinus Grafting

“Creating Surgical Excellence”®

20-credit hour course

Annual Meeting continued from p.1

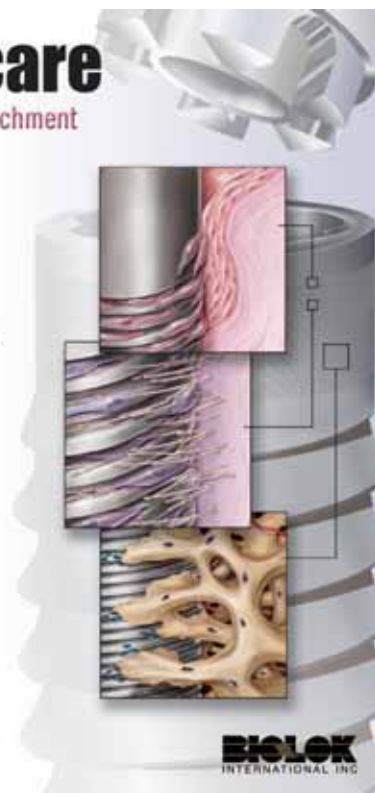

October 20. The grand finale of the annual meeting will be the President's Reception followed by dinner and entertainment. This evening of elegance Southwestern-style will be talked about for years to come.

To reserve your room at the Westin Kierland Resort and Spa, visit www.aaid-implant.org or call 480-624-1202 or 800-WESTIN-1. Register for the best implant meeting at the oasis in the desert by completing the registration form on page 23 or online at www.aaid-implant.org.

The new standard of care

Programmed cellular response for soft and hard tissue attachment on the Laser-Lok® bioaffinity collar.

- The Laser-Lok® 8 micron cell channels stop epithelial cell migration, securing gingival margins and bone heights
- Soft tissue attaches and seals with the Laser-Lok® 8 micron cell channels giving esthetic results (preserving papillae) and protection against peri-implantitis
- The Laser-Lok® 12 micron cell channels direct osteogenic cells to generate strong attachment of organized bone and stabilize crestal bone
- Directional osteoconduction can raise buccal and lingual bone to interproximal bone level

Committee News
continued from page 9

The Northeast District's next annual meeting is scheduled for April 2006 in Atlantic City, New Jersey.

EDUCATION COMMITTEE

AAID Dental Student Award: This spring, 29 dental schools in the U.S. and Canada participated in the AAID's award program that recognizes undergraduate dental students for their interest in implant dentistry, both academically and clinically. Each recipient was selected by his or her dental school, using its established procedures for such student awards.

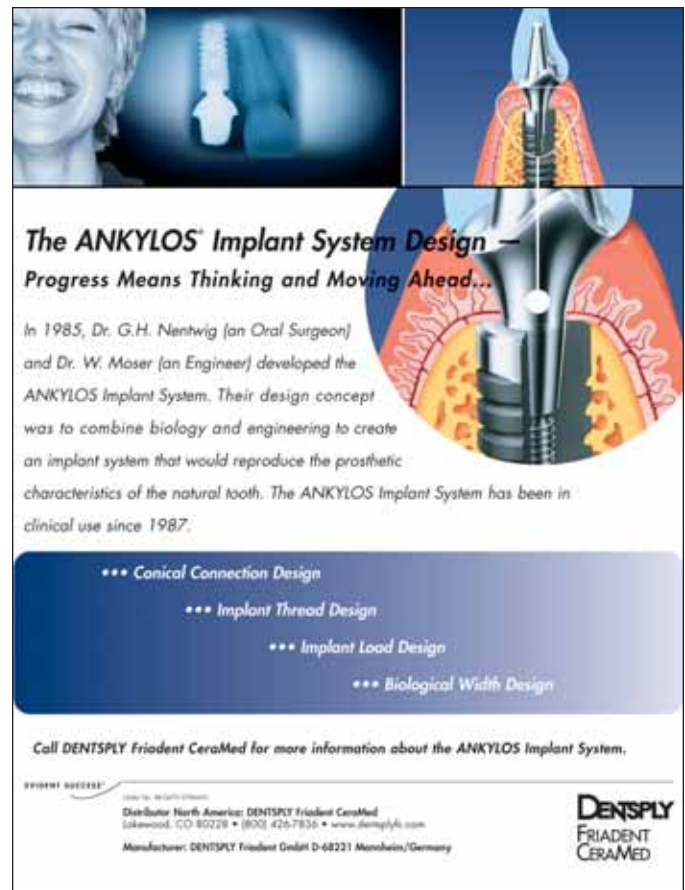

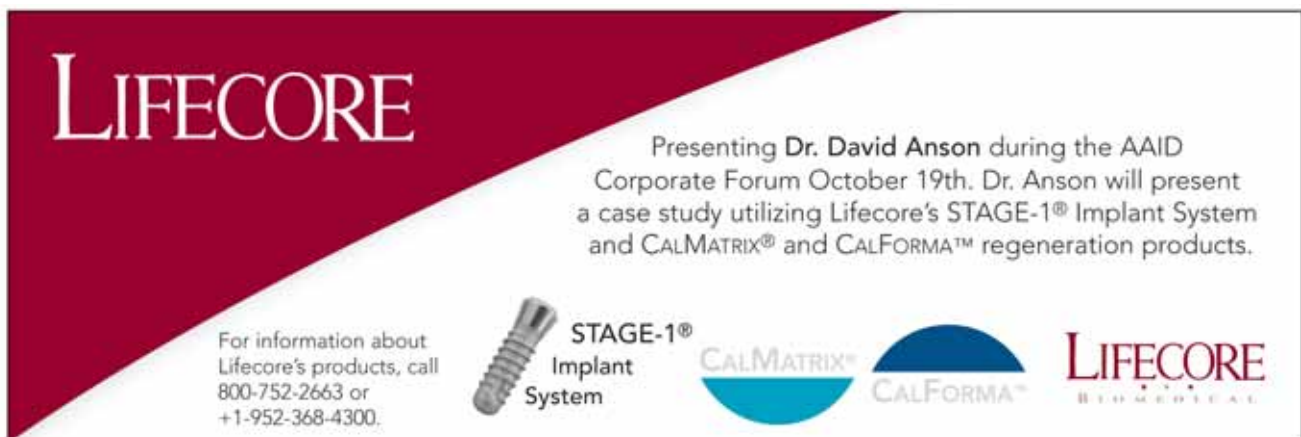

In addition to a Certificate of Recognition, each award recipient received a year's free membership in the AAID and a complimentary registration at the 2005 AAID Annual Meeting, which will be held in Scottsdale, Arizona, October 19 – 23, 2005.

This is the first year that the AAID Award was offered to all of the dental schools in the U.S. and Canada. Last year, in a pilot program, the award was presented in five U.S. dental schools and was expanded upon the Education Committee's recommendation. "We are delighted with the level of participation in the award program that recognizes these outstanding students who represent the future of Implant dentistry and welcome them as members of the AAID," said Kevin J. O'Grady, DDS, president.

Education Committee Sponsors Limited Attendance Workshop at Annual Meeting:

Would you like to know how adults learn and how teaching a course differs from presenting a lecture at a dental meeting? If so, plan to attend "Strategies for Promoting Usable Information to Peers," a limited attendance workshop at the 2005 Annual Meeting that will be presented by Eugene L. Hittleman, EdD, Associate

Professor, Behavioral Sciences at NYU College of Dentistry. This workshop will provide insight into the basic learning style preferences of adults and how this information enables a speaker to develop a presentation that will appeal to an audience and satisfy the objectives of the presentation. Register for the workshop, using the registration form in the Preliminary Program, which was mailed to the membership in June, or online.

Have you paid your 2005 membership dues?

If not, fax or mail your payment today to assure that you will receive the next issue of *AAIDNEWS!*

Maintaining your membership also saves you \$100 on the AAID's Annual Meeting.

Register today with the form on page 23 or online at www.aid-implant.org!

Comprehensive Training in Implant Dentistry

PII Director
Ronald J. Zokol, DMD

Pacific Implant Institute 2005/06 Course Dates:

Fri, Sat. & Sun. (20-credit hours each, 200-credit hours for the total program.)

September 23-25, 2005	Head & Neck Anatomy (Hands-On Cadaver Dissection)
October 14-16, 2005	Orthopaedic Engineering and Treatment Planning
November 4-6, 2005	Implant Prosthetics #1 (Fixed, Simplified Prosthetics)
December 9-11, 2005	Surgical Training #1 (Xenograft Surgery & Phlebotomy/PRP)
January 20-22, 2006	Implant Prosthetics #2 (Removable, Advanced Prosthetics)
February 24-26, 2006	Surgical Training #2 (Implant Placement Surgery)
March 30-Apr 2, 2006	Surgical Training #3 (Bone Harvesting & Autograft Surgery)
April 28-30, 2006	Implant Practice Management (Full Office Team Participation)
May 26-28, 2006	Surgical Training #4 (Sinus Elevation Graft Surgery)
June 23-25, 2006	Surgical Training #5 (Monocortical Block Graft Surgery)

Surgical instruction is provided in a one-on-one format with an experienced surgeon scrubbed in to guide and assist you in all procedures. This course is designed to benefit the doctor in his/her early learning curve as well as the significantly more experienced clinician.

Limited attendance for the surgical session. Contact Phyllis at the Pacific Implant Institute in Vancouver, Canada for further information. Ph. (800) 668-2280; Fax (604) 322-3045; or e-mail: info@piidentistry.com.

Tapered Screw-Vent[®] and AdVent[®] Implants for single and two stage surgery.

One surgical system places both Tapered Screw-Vent Two Stage and AdVent Single Stage Implants, providing complete surgical versatility and a high level of convenience. Both implants feature Zimmer Dental's patented internal hex with friction-fit connection, to virtually eliminate micromovement—resulting in superior esthetics.

Tapered Screw-Vent

AdVent

Tapered Screw-Vent and AdVent Implants. Two implants. Two solutions. One surgical system. One source: Zimmer Dental. Visit us online at www.zimmerdental.com/MC072.asp or call us toll-free at 800 598 3029 for more information. Please reference code MC072.
