IMPLANTS FROM START TO FINISH AT AAID ANNUAL MEETING

A AID’s 55th Annual Meeting gives you the information you need to expand your implant practice and enhance your implant knowledge from the beginning of the process to the end. The meeting will be held in Chicago, October 25 through 29, 2006.

The meeting kicks off with 13 different presentations on the latest approaches to implant dentistry. The extremely popular “New Tools, Techniques and Technologies” will be held on Wednesday, October 25. At the end of the day, take the opportunity to unwind and relax with colleagues at the welcome reception.

On Thursday, October 26, a full day of marketing including lectures

on how to identify prospective implant patients to helping them to agree to treatment will be offered. Leading and successful marketing experts for the dental world included

AAID has information about potential relationship between drugs for osteoporosis and osteonecrosis in the mouth

Recent reports in the scientific literature have indicated a significant risk for the development of osteonecrosis (disease/destruction of bone in the mouth) in patients taking bisphosphonate medications for the treatment of various cancers, osteoporosis, and other bone metabolic diseases. The complication is seen most often when the more potent forms of the medication were used intravenously or with prolonged and/or high doses given of oral medications. The concern for many patients considering dental implants or other elective oral surgical procedures is the degree of risk/benefit in taking oral bisphosphonates, such as Fosamax® (alendronate), Actonel® (risedronate) or Boniva® (ibandronate).

The Academy has created a Bisphosphonates related consent form and other resources for members of the Academy.

Visit the Members Only Section of the AAID Web site at www.aaid.com to access these valuable resources. If you need help with your user ID or password, contact the Headquarters Office by phone at 877-335-2243 or by e-mail at info@aaid.com.

PRESIDENT'S REPORT

By Kim A. Gowey, DDS

Comprehensive. Synonyms include: complete, all-inclusive, wide-ranging, ample, in-depth, advanced

Using those descriptors, AAID is clearly providing comprehensive education in implant dentistry.

Take for example this year's annual meeting scientific program. It certainly fits the definition of comprehensive. The Main Podium Programs cover the topic of implant dentistry from identifying the patient to performing the makeover to meeting the patient's expectations. The three and one half days includes a full day of "New Tools, Techniques and Technologies," sessions on marketing, hard and soft tissue management and gaining predictable results. These are wide-ranging, all-inclusive and very much cutting edge. If you want more information about the 2006 Annual Meeting or to register, visit www.aaid.com/annualmeeting.html.

The Annual Meeting allows for attendees to address topics in greater depth as well. The eight half-day limited attendance programs cover implant dentistry from the basic to the most complex of treatment options.

The recently concluded Bone Grafting Course is one example of how the Academy gave attendees in-depth and hands-on experience with this vital area of implant dentistry. This course combines lectures and

laboratory sessions. The lectures focus on head and neck anatomy, including the tempromandibular joint; chin, ramus and subantral grafts; soft tissue management around implants and grafts; platelet-rich plasma; venipuncture techniques; bone graft material classifications and perioperative pharmacology. Clearly a complete and all-inclusive look at the subject. Participants regularly claim this is one of the best courses they have ever attended. Plan ahead to participate in the June 22-23, 2007 course.

Through the AAID endorsed MaxiCourses®, the Academy offers dentists ample and widespread coverage of implant dentistry. The courses provide over 300 hours of lecture, laboratory sessions, live surgical demonstrations and home/office assignments. The U.S. based MaxiCourses® are presented in 10 parts, once a month, over a 10-month period. The objectives of the MaxiCourses® are indicative of how comprehensive this AAID offering is:

- Discuss the basic sciences as they relate to implant dentistry
- Formulate a comprehensive approach to diagnosis and treatment planning related to implant dentistry
- Explain the specialty areas of dentistry and how they relate to implant dentistry
- Assess the many implant systems and rate their advantages and disadvantages
- Use enhanced knowledge of implant dentistry to take the American Academy of Implant Dentistry Associate Fellow Membership Exam
- Recognize implant procedures

through observation of live surgical and prosthetic demonstrations on patients

However, the single most telling piece of evidence showing how comprehensive the MaxiCourses® are is the fact that they go beyond the "how" of implant dentistry and educate participants in determining the "why" of the treatment and procedures. To find out more information about a MaxiCourse® or to enroll, visit www.aaid.com/education_upcoming.html.

At the top of the agenda for the Board of Trustees and staff of the Academy is to make certain that the AAID continues to be the primary source for comprehensive education on implant dentistry. If you have a topic or course you would like to see the Academy develop, let us know.

Encourage a colleague to take advantage of the wealth of knowledge found in the Academy. You can find membership information and an application at www.aaid.com/membership.html. If you're looking for a speaker for your next meeting, please check out the Speakers Guild on our website. We have over 60 credentialed members who have presentations available on a variety of topics!

The word comprehensive is found at the very top of the AAID Web site because the Academy has been advancing the standard of care for comprehensive implant dentistry since 1951. Comprehensive education in implant dentistry is one of the ways the Academy is accomplishing that.

AAID PR EFFORT OFF TO SUCCESSFUL START

Significant articles in the Los Angeles Times and the Cincinnati Enquirer coupled with AAID President **Dr. Kim Gowey** quoted extensively in a lengthy article on implant dentistry in Inside Dentistry mark a very successful start of the Academy's public relations strategy.

Spearheaded by **Dr. Joe Orrico**, Chair of the AAID PR Committee, the Academy has also been mentioned as a resource in the Washingtonian magazine, the leading publication for affluent residents of the District of Columbia and surrounding area.

According to Dr. Gowey, "The goal of our PR efforts is to increase the visibility of AAID credentials to the public, profession and other health care providers." Dr. Orrico agrees, "I would like the AAID to be the premier organization in the eye of the consuming public." The Academy has accomplished a lot when it comes to the dental profession. "We've come a long way with our new logo, the AAID Web site, study clubs, Speakers' Guild, AAID News, the AAID eGram and the Journal of Oral Implantology," Dr. Orrico pointed out.

However, both Dr. Gowey and Dr. Orrico feel that the Academy has been

a well-kept secret when it comes to the public. "What the public doesn't know is that the AAID has as its members some of the most dynamic and progressive people in the field of dentistry. The reason is because we haven't told them," Dr. Orrico said. "We need to expand our efforts to increase public awareness," he added.

The PR Committee's efforts are targeting such national publications as *Redbook*, *AARP The Magazine*, *Prevention*, *Ladies Home Journal*, *More*, *Town & Country*, *Women's Day* among others. In addition, the Committee will target TV and radio outlets including those in large metropolitan markets as well as national programs.

"By the end of my term as chair of the PR committee, I would like to have programs in place that will raise the national awareness of dental implants and increase recognition of implant dentists," Dr. Orrico stated. "I would like to see the Academy positioned as the leader in implant dentistry, recognized for its history, education process and as the authoritative credentialing body," he added. Dr. Gowey echoed this view. "Because there is no recognized specialty in implant dentistry, the

closest thing that the dental profession has is the AAID and ABOI credential. We want the public, profession and other health care professionals to see that these credentials represent a way to differentiate among practitioners. It is more than just a certificate with no value."

The AAID message will emphasize that implants are the most effective way to replace missing teeth. "Implants are successful, painless, and permanent," Dr. Orrico stated. "We will also explain how to find an experienced implant dentist," he added.

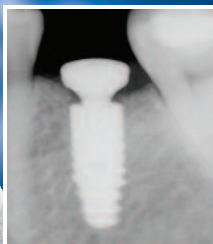

"I am very pleased with the work of Dr. Orrico and the PR Committee. I chose Dr. Orrico to head this effort because he is someone who is very experienced, is an excellent practitioner and represents our Academy very well," Dr. Gowey said.

The Academy just completed an intense spokesperson training session at which more than a dozen members learned techniques for being successful with the media and had the opportunity to practice before the camera.

Be on the lookout for even more positive exposure for the AAID in the local, regional and national media.

Prescribe What Your Patients' Value... Lasting Esthetics!

Annual Meeting continued from page 1

ing Dr. Paul Homoly who will speak on making it easy for the patient to say “yes.”

On Friday, the main podium programs will focus on Hard and Soft Tissue Management and will include such world-renowned experts as Drs. Michael Pikos, O. Hilt Tatum, Jr., Maurice A. Salama and Anthony Sclar.

The Main Podium Programs conclude on Saturday morning with Delivering the Makeover: Gaining Predictable Results. Three one-hour programs will help you make certain that you have met the patient’s expectations.

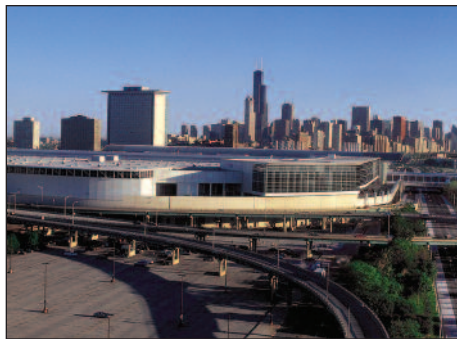

Eight limited attendance programs will also be offered beginning on Thursday morning and concluding Saturday afternoon. Space for only 50 attendees is made available at each of these specialized half-day programs.

A total of 18 lunch and learns will be offered on a first-come, first-served basis on Friday, October 27. Each table is limited to only eight participants so it is important that you register early to reserve your spot.

Allied staff is encouraged to attend the main podium programs on Thursday and Saturday and attend a special day designed just for them on Friday.

More detail on the programs offered throughout the annual meeting can be found elsewhere in this issue of AAID News.

Be certain to make your reservation early at the Sheraton Hotel and Towers to assure a room in the headquarters’ hotel. Register today for the best implant meeting to attend. On-line registration is available at www.aaid.com.

Main Podium Programs at 55th Annual Meeting

Thursday, October 26

8:00 a.m. – Noon

Starting the Makeover: Marketing – Getting the Patient to the Office

- Are There Holes in Your Patient Attraction Bucket?
Robert B. Willis, DDS
- Break Away Thinking – Taking Your Implant Practice to a New Level
David M. Vassos, DDS

- Getting the Patient to the Office
Craig D. Cooper, DDS

Starting the Makeover: Marketing – Getting the Patient into Treatment

1:30 p.m. – 5:30 p.m.

- Tune into WIIFM-Tune Out All Other Stations
Bill Blatchford, DDS
- Patients Buy “Value” Not Implants!
Dick Barnes, DDS
- Making it Easy for Patients to Say “Yes”
Paul Homoly, DDS

Friday, October 27 Performing the Makeover: Hard Tissue Management

8:00 a.m. – Noon

- Digitally Guided Bone Augmentation: A Three Dimensional Synergy of

Allied Staff Programs

[As key members of the dental team, the Main Podium Programs on marketing strategies on Thursday and on Delivering the Implant on Saturday are valuable for the allied staff as well as the dentist. On Friday, October 27, a full day of programming will be presented exclusively for allied staff.]

Friday, October 27, 2006

8:00 am - 10:00 am

Making It Easy for Patients to Say “Yes” – Team Members Workshop
Paul Homoly, DDS, CSP

10:30 am – Noon

Preparing Your Patients for Health: Communication Strategies that Can Achieve an Ultimate Makeover of your Hygiene Department!
Cris Duval, RDH

1:30 pm - 3:30 pm

How to DOUBLE Your Salary While Enjoying More Time Off With Pay
Bill Blatchford, DDS

4:00 pm - 5:30 pm

Latest in Makeup and Skincare for a Natural Makeover
Aimee Lippert, Licensed Cosmetologist, Member IATCE, LCMT

Interactive CT Planning/Soft and Hard Tissue Grafting for Optimal Esthetic Zone Rehabilitation

Michael A. Pikos, DDS

- Safe, Predictable, Economical Bone Restoration
O. Hilt Tatum, Jr., DDS
- 3D Model Based Implant Surgery. Simplification and Precision
Jaime L. Lozada, DDS

Performing the Makeover: Soft Tissue Management

1:30 p.m. – 5:30 p.m.

- Soft Tissue and Bone Augmentation Techniques in the Esthetic Zone
Maurice A. Salama, DMD
- Achieving Natural Soft Tissue Esthetics with Implants: Treatment Planning Considerations, Surgical/Prosthetic Techniques: Simple to Complex Case Scenarios
Anthony Sclar, DDS
- Esthetic Implant Dentistry for Achieving Stable and Long Lasting Results
Sascha Javanovic, DDS, MS

Saturday, October 28

Delivering the Makeover: Gaining Predictable Results

8:00 a.m. – Noon

- Restoration of Oral Function by Osteoplastic Reconstruction of the Alveolus
Kurt Vinzenz, MD
- Meeting 90201 Zip Code Patient Expectations
Jack A. Hahn, DDS
- Fixed Prosthetic Considerations for the Edentulous Maxilla
Carl E. Misch, DDS, MDS

New Tools, Techniques and Technology at 55th Annual Meeting Wednesday, October 25, 2006

8:30 a.m. – 5:00 p.m.

- Introducing NobelGuide™ - 3D Computerized Implant Guided Surgery and Prosthetics
Jack T. Krauser, DMD
- Pre-operative and Post-operative Prosthetic Aspects for Delivery of NobelGuide™ – 3D Computerized Implant Guided Surgery
Daniel Marinic, DDS
- Integrating Dental Implants into Smile Line Esthetics – New Concepts in Creating the Illusion of Natural Teeth
Gary Morris, DDS
- Grafting Techniques for the Modern Dentist
Karl R. Koerner, DDS, MS
- Immediate Cost-Effective Overdentures
Michael S. Reddy, DMD, DMSc
- Current Concepts in Implant Design, Graft Materials, and

Techniques for the Posterior Maxilla

Arun K. Garg, DMD

- Immediate Placement and Immediate Provisionalization – Innovations to Increase Predictability and Enhance Treatment Outcomes
Jason R. Gillespie, DDS, MS
- i-CAT 3-D Dental Imaging: The New Imaging Revolution Enhancing Treatment Planning
Joel Rosenlicht, DMD
- A Uniquely Processed Allogenic Pericardium Membrane as an Adjunct to Bone Grafting
Paul Petrunaro, DDS, MS
- Stabilization – The Foundation for Long Term Aesthetic Success
Cary Shapoff, DDS and Harold Alexander, PhD
- Socket Grafting: Why Bone and Tissue Preservation are the Keys to Restorative Success
Lou Graham, DDS
- An Implant's Design Dictates its Clinical Capabilities
Vincent Morgan, DMD
- Predictable Esthetics with Anatomic Implants
Homayoun Zadeh, DDS, PhD

8:00 am – Noon

Understanding Difficult Relationships with Patients, Staff and Spouse. What is Your Responsibility and How Can These Relationships Be Improved in our Lives?
Alfred "Duke" Heller, DDS, MS

RESEARCH FOUNDATION NEEDS YOUR HELP TO ADVANCE COMPREHENSIVE IMPLANT DENTISTRY

The American Academy of Implant Dentistry has been advancing the standard of care for comprehensive implant dentistry for over 50 years. The Academy's Research Foundation has been an integral part of achieving that goal since 1981.

Good, Better, Best

The good news is that the Foundation has raised over \$580,000 over the past six years ago. The better news is that 100 percent of all money raised goes to the Research Foundation's Endowment Fund. No other research foundation can make that claim. The best news is that the Foundation has funded over \$150,000 of research in implant dentistry and provided \$100,000 in grants to Loma Linda University Dental School to establish an oral implantology center.

Some of the cutting edge research funded by the Foundation in the past included 3D applications with implant dentistry techniques, the use of computerized imaging solutions, study of implant survival rates and factors associated with implant failure, just to name a few.

More than Research

However, research is only one part of the Foundation's mission. The Foundation also supports continuing education, educational seminars, congresses, and meetings. It also supports studies within established dental schools and hospitals. The Foundation encourages the development and testing of new techniques and procedures in implant dentistry. One of the Foundation's lesser known objectives is to also provide **humanitarian assistance** on a needs basis for those unable to afford implants.

To accomplish all this, the Foundation has set a target of \$1 million as an endowment fund. It is more than halfway towards achieving that goal, and the vast majority of funds – \$420,000 – have come from approximately 1,000 individual members of the AAID. However, over \$350,000 was contributed by only 200 Academy members.

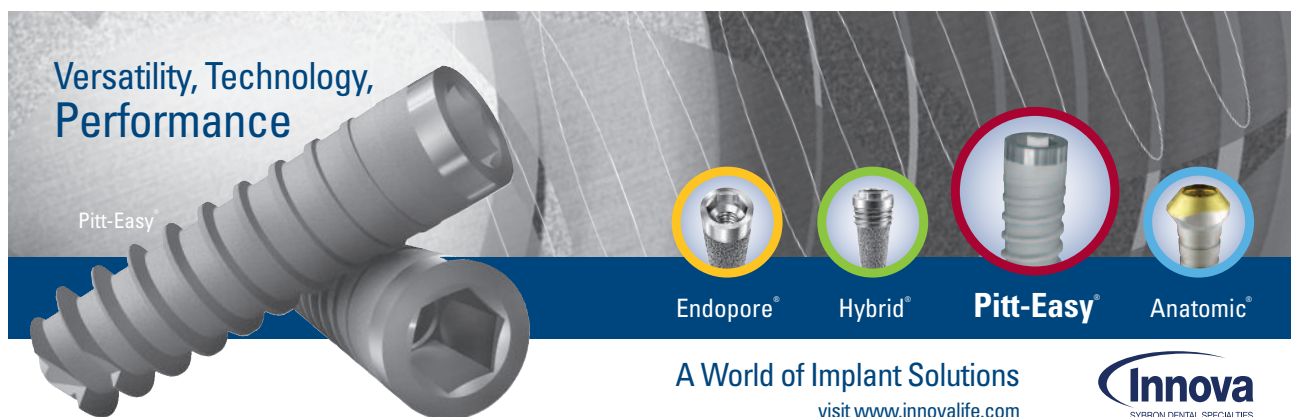

The Foundation intends a broad-based outreach to all members of the AAID to encourage contributions to the excellent work of the Foundation.

How You Can Support

There are several ways to support the AAID Research Foundation. An outright contribution by check or credit card can be made. You can pledge your financial support to the Foundation over a one to five year period. A pledge form can be found on page 9.

Of course, stocks or appreciated equities can be donated and bequests from an estate can be arranged as well. Support the Foundation at the Corporate Auction held at each annual meeting. This can be in the form of bidding on the items available or donating items for bid at the auction.

Help the Research Foundation continue to advance comprehensive implant dentistry by contributing today. Again, 100 percent of your contribution directly goes into the Endowment Fund and only the income of the fund will be used to support research and awards. Contributions are tax deductible as charitable donations. **The AAID Research Foundation is our very own foundation.**

\$1,000,000 RESEARCH FOUNDATION ENDOWMENT FUND PLEDGE

The future of implant dentistry will be built upon the commitments we make today. The Research Foundation's goal is to establish a \$1,000,000 Endowment Fund. The interest from this fund will be used to support implant dentistry research and other eligible programs, while the principal will remain intact.

100% of your contribution will be directly dedicated to the endowment fund

We are asking each AAID Member to pledge \$1,000, which will be matched by corporate grants to reach our goal. Our ultimate goal is to be one of the largest grant making foundations in dentistry.

Yes, I want to contribute to my future and give back a small portion of what implant dentistry has given to me. Enclosed is my tax-deductible contribution to the \$1,000,000 AAID Research Foundation Endowment Fund. I have checked my commitment below.

- \$1,000
- \$500 in 2006 \$500 in 2007
- \$250 per year for four years.

ADMISSIONS AND CREDENTIALS BOARD

A & C Board Holds 2006 Oral/Case Examinations: The Admissions and Credentials Board met in Chicago May 18 – 21 for its annual business meeting and to consider applications for credentialed membership. This year, the Board considered 66 applications: 56 for Associate Fellowship by examination, two for Fellowship by examination, one for reinstatement of Fellowship and seven for Fellowship by credentials.

The A & C Board's report about its meeting/examination and recommendations for election of new Associate Fellows and Fellows was considered by the Board of Trustees at its June 2 meeting. Recommended for election were 49 of the Associate Fellow candidates and all of the applicants for Fellowship. The new credentialed members will be inducted and recognized during the 2006 Annual Meeting.

Eligibility Period for Associate Fellowship Lengthened: The Board increased the eligibility period for completion of the two-part Associate Fellow examination from three to four years. This new four-year eligibility period is effective with those whose eligibility ends in 2006, i.e., their eligibility has been extended to 2007.

This change will allow more candidates to meet the requirement, which is effective in 2007, that all cases must have been in function for at least one year by the examination date.

Examination Cancellation Policy Revised: The oral/case

Emile Martin, DDS, chairman of the A & C Board (left), and Barry Bartee, DDS, MD, confer during preparation for the oral/case examinations.

examinations for Associate Fellowship and Fellowship are scheduled on an appointment basis over a four-day period and candidates are notified of their examination times six to eight weeks in advance. Consequently, candidates can make their travel plans early enough to receive the best-available fares and are required to spend no more than three hours at the examination site in Chicago. The appointment system works well except in the case of cancellations since it is difficult to reschedule candidates who have already made their travel plans.

This year, the number of examinations canceled reached an all-time high of 25 percent of the applicants. In an effort to reverse this trend, the Board adopted the following policy to replace the one that has been in effect since May 1994:

A fee of \$500 will be charged to reschedule an oral - case examination that is canceled 45 days or less before the examination date.

The earlier policy specified a 30-day notice and a rescheduling fee of \$125.

A & C Board Presentations at the 2006 Annual Meeting: The Board has scheduled three times when members can talk with some of this year's successful candidates and view their case reports in the Exhibit Hall. In addition to seeing how these new credentialed members interpreted the guidelines for case report preparation, these informal sessions provide an excellent opportunity to talk with them about their examination experience. Board members and staff will also be available to answer questions.

Representatives of the A & C Board will also explain the examination requirements and process at the Lunch and Learn session, Friday, October 27, noon – 1:15 p.m.

Begin the Process to become a Credentialed Member: General members are urged to take the first step toward Associate Fellow by signing up for the written part of the two-part membership examination. The written examination will be given six more times this year, each in a different location:

August 4	Chicago, Illinois
October 29	Chicago, Illinois
November 12	Irbid, Jordan
December 1	Atlanta, Georgia
December 8	New Delhi, India
December 10	Chennai, India

Applications and fees are due in the Headquarters Office at least 30 days before each examination in the United States and 90 days in advance for those in Jordan and

India. For an application, visit the Education/Credentials/Associate Fellow section of the AAID Web site – www.aaid.com – or contact Joyce Sigmon in the Headquarters Office.

Oral/Case Examination Schedule Announced: The Board has set the following schedule for the next three annual oral/case examinations.

- May 3 – 6, 2007
- April 24 – 27, 2008
- April 30 – May 3, 2009 (tentative)

Each year, the examinations will be held in Chicago; and the application deadline is February 1.

The 2007 annual oral/case examination is the last one that will be given during the four-year eligibility period of those who passed the written examination in 2003.

The Admissions and Credentials Board and Examiner Consultants: From left to right: Barry Bartee, DDS, MD; Joseph Orrico, DDS; Stephen Johns, DDS; David Hochberg, DDS; Arthur Molzan, DDS; Emile Martin, DDS, chairman; James Byland, DDS; Natalie F. Wong, DDS; Max Malan, DDS; Carol Phillips, DDS; Dennis Flanagan, DDS; Richard J. Mercurio, DDS; James Fagan, DMD; and Roger Plooster, DDS.

A NEW SERVICE FOR OUR MEMBERS: CLASSIFIED ADVERTISING

As a new benefit to AAID members, *AAIDNews* now offers the opportunity to place classified advertisements in our newsletter. For more information, please call the AAID Headquarters Office at (877) 335-2243.

Policy

Classified advertisements in *AAIDNews* are limited to dental matters, such as job opportunities for dental professionals or practice and equipment sales. The AAID has the right to decline placement or edit copy at its discretion. All advertisements must be typed and submitted by mail or e-mail. All advertisements

Issue Closing Dates & Rates

Issue	Closing Date	Rate
January	November 15	\$75.00 per ad
April	February 15	\$75.00 per ad
July	May 15	\$75.00 per ad
October	August 15	\$75.00 per ad

must be 40 words or less and include contact information.

Payment

Payment for classified advertisements must be made in advance. Send typewritten copy and instructions with payment to the Headquarters Office. Make checks

payable to the American Academy of Implant Dentistry.

ABOI/ID NEWS

New Diplomates of the ABOI/ID

On May 4, 2006, after passing both Parts I and II of the ABOI/ID Certification examination, 25 dentists listed below became Diplomates of the American Board of Oral Implantology/ Implant Dentistry.

Jorge Eduardo Arce, DDS, Redondo Beach, CA

Timothy J. Armanini, DDS, Erie, PA

Gabor Balogh, DDS, West Vancouver, BC CANADA

Peter Balogh, DDS, Burnaby, BC CANADA

Richard M. Benninger, DDS, Medina, OH

Jeffrey O. Capes, DMD, MD, St. Simons Island, GA

Lee R Cohen, DDS, MS, MS, Plantation, FL

Christian Edgar Davila, DDS, MS, Tampa, FL

Lewis Dowden, DMD, MBA, Louisville, KY

Sameh Kamal El-Ebrashi, BDS, MS, Portland, OR

Thomas J. Han, DDS, MS, Los Angeles, CA

Edward Richard Hughes, DDS, Sterling, VA

David A. Jarrin, DDS, Moline, IL

Edward L. Jones, DMD, MD, Birmingham, AL

Jin Y. Kim, DDS, MS, MPH, Garden Grove, CA

Michael Thomas Kolodychak, MPH, DMD, Erie, PA

Edward K. Lee, DDS, Scarborough, ON, CANADA

Gary W. Machiko, DMD, Pittsburgh, PA

Wayne A. Patterson, DMD, Scottboro, AL

Christopher C. Rooney, DDS, Leawood, KS

Robert James Ryan, DDS, Mt. Prospect, IL

Shahram Shane Samy, DMD, Eugene, OR

Roderick Stewart, DDS, Markham, ON, CANADA

Michael J. Tobin, DDS, Hamburg, NJ

Michael Y. Yeh, DDS, Federal Way, WA

To sit for the examinations, these dentists were required to practice implant dentistry for at least five

years, to provide implant services to more than ten patients, and to otherwise prove their implant expertise. To earn the title of *Diplomate*, they presented ten cases for review by an expert panel of implant dentists and passed a series of written and oral examinations sponsored by the American Board of Oral Implantology/Implant Dentistry.

The examination process measured the in-depth knowledge, proficient skills, and abilities required for practitioners to provide comprehensive, safe, and effective oral implant care for the public.

The ABOI/ID was founded in 1969 and conducts examinations to determine the qualifications and competence of dentists who voluntarily apply to the Board for certification. The Board is sponsored by the American Academy of Implant Dentistry. Dentists interested in becoming Diplomates may visit the ABOI/ID web site at www.aboi.org to obtain more information.

Congratulations to these new Diplomates who have now joined the nation's elite group of implant dentists.

PRO BONO LEGAL GUIDANCE

As an added membership benefit for credentialed members, the Academy is offering free legal guidance through the expertise of General Counsel Frank Recker, who will provide generic legal information on the following subjects:

- General risk management issues such as disgruntled patients, terminating patients, informed consent, patient records, non-cooperative patients, refunding fees for services rendered, patient payment/collection issues, patient demands for compensation, and standard of care issues
- State dental board issues such as complaints, contact by investigators, a particular state requirement, and producing patient records

- General business issues such as hiring protocols, dentist employee contracts, independent contractors, terminating employees, restrictive covenants, and employee handbooks

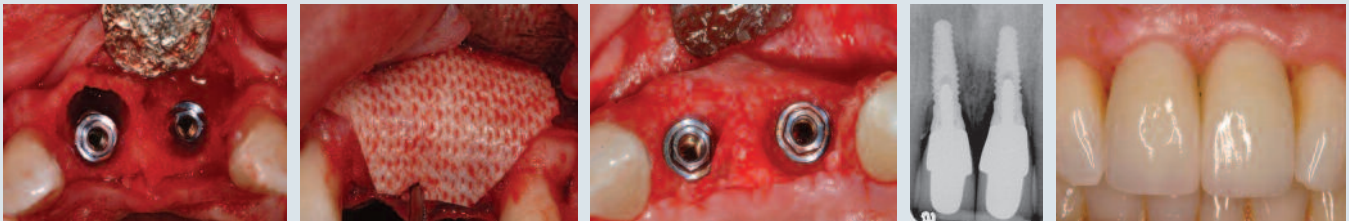

The service is limited to a maximum of one-hour per month for any credentialed member. Responses are general and do not constitute specific legal advice. For more information about the program and to access helpful legal forms, consult the Members' Only section of the Academy's Web site at www.aaid.com or call Dr. Recker's office at 800-AAID-LAW (224-3529) or 239-642-4704 or email him at recker@ddslaw.com.

Sonick Seminars

Providing comprehensive hands-on learning for integrating successful implant placement into the dental practice

- **All-inclusive 2-Day Program**
Two nights hotel
All meals
All materials
- **Live Surgeries on Both Days**

COMMITTEE AND DISTRICT NEWS

Western and Central District Meeting very successful

The Western District in cooperation with the Central District held their annual meeting titled “Relax and Relate to Esthetic Implant Dentistry” at the Sheraton Bougainvillea’s resort in Puerto Vallarta Mexico on March 30 – April 1 2006. Dr. Nick Caplanis served as Meeting Chairman and with assistance from the Western and Central district officers, the meeting attracted over 500 dentists from across the United States and Mexico. This district meeting surpassed all previous meetings in the history of the Western District as measured by number of registrants, gross revenue, sponsorship income and net profit.

This was the Western district’s first international meeting supporting the international endeavors of the Academy as initiated and promoted by the Global Committee. “We learned a lot from this international event and we will continue to learn from future interna-

A full house of U.S. and Mexican implant dentists learned about the latest techniques.

A large contingent of exhibitors welcomed over 500 dentists to the meeting.

tional endeavors” commented Dr. Jaime Lozada, the Scientific Chairman as well as one of the meeting’s main podium speakers. He added, “Our colleagues south of the border are extremely hungry for implant education and future AAID sponsored events can be extremely successful in Mexico.”

Given the success, the Western District is already discussing plans for additional meetings in Mexico in the near future.

Dr. Joseph Orrico and his wife Trish enjoy the hospitality available at the meeting.

Ireland Meeting expands AAID global reach

AAID’s first international outreach to Europe attracted over 30 members from the U.S. who joined another 50 from the Irish Dental Association at the inaugural scientific meeting on implant issues.

Spearheaded by Meeting Chair and member of the Global Committee, Dr. John Stowell, those in attendance discussed such issues as:

Dr. Richard Blustein, an AAID member from St. Louis (left) and J. Vincent Shuck, AAID Executive Director, join Dr. John Stowell of England (right) who served as the Meeting Chair and is a member of the Academy’s Global Committee at AAID’s Ireland meeting.

- The New Dilemma – Model Based or Computer-Based Implant Dentistry
- The Relative Merits of the use of Membranes or Grafts in Implant Dentistry
- Facial Tissue Engineering. The use of standard & custom made endosseous Implants.
- Nerve Transpositioning versus Distraction Osteogenesis

with the Academy’s investment advisors and discuss various options for the handling the reserves.

Jordan MaxiCourse® attracts over 90 students

The 1st Annual Jordan MaxiCourse® attracted over 90 students. Led by **Dr. Jihad Abdallah** with the assistance of **Dr. Shankar Iyer**, the course is the second offered by the Academy outside the United States.

Finance Committee meets in Chicago

The AAID Finance Committee met in Chicago on April 21 where they met with the Academy’s auditors to review the 2005 Calendar Year audit. The Committee accepted the report which contained a clean opinion. The Committee also met

The investment advisor (left) explains the 2005 investment report to Finance Committee member Dr. Craig Cooper and Treasurer Beverly Dunn.

Over 90 dentists participated in the First Annual Jordan Maxicourse®.

ADVANCED BONE GRAFTING COURSE

Featuring LIVE Surgery

A unique, comprehensive, evidence-based clinical course emphasizing Autogenous Block Grafting and Sinus Grafting

 **straumann**
simply doing more

Want to make your
practice stand out?

Choose SLActive – The surface with success built in.

Today's patients want fewer appointments and shorter "time-to-teeth." Make Straumann implants with the new SLActive surface your standard of care and watch your referrals grow.

- Provides faster osseointegration, enhancing confidence in every indication
- Achieves secondary stability earlier than SLA®, increasing predictability in stability-critical treatment protocols
- Cuts healing time in half allowing you to treat more patients

To learn more about Straumann's chemically active, hydrophilic surface, call 800/448 8168 and make an appointment with your local Straumann representative.

June 1-3, 2007	Surgical Instruction #5 - Advanced Osseous Grafts

Courses

There is NO implant educational facility anywhere offering this complete range of specialized implant training. Our modular program allows anyone with any time constraints to complete the entire Master's Program according to their schedule. See our website for complete description of specific courses. We challenge you to register for the **Orthopaedic Engineering & Treatment Planning Course** regardless of your implant experience. (See our offer below)

Faculty

Our faculty are specialists and leaders in their fields and have been hand picked to provide you with leading edge procedures in implantology, surgery and practice management skills.

PII courses are designed to benefit the doctor in his/her early learning curve as well as the significantly more experienced clinician.

There is limited attendance for the surgical session.

Location

Vancouver is Canada's Pacific gem: a combination of spectacular natural setting and all the excitement of a culturally diverse world class city. It offers Canada's best climate: a benign mix of mild winters and warm summers moderated by Pacific Ocean currents. Pre and post conference destinations - from cruising through island archipelagos to deep powder skiing, and from wine country tours to authentic wilderness experiences, it's all readily available from your Vancouver base.

Our Guarantee To You!

In order to give doctors an understanding of what implant dentistry is capable of achieving, as well as how to evaluate the quality of the surgical and prosthetic results for their patients, we offer a 3-day **Orthopaedic Engineering & Treatment Planning Course** (Your office team is invited to attend)

If you (the doctor) are not 100% satisfied that you received excellent value - we'll refund 100% of your money! You have absolutely everything to gain, with zero risk.
