

PUBLISHED BY THE AMERICAN ACADEMY OF IMPLANT DENTISTRY

BRIEFS FILED IN CALIFORNIA APPEAL

The briefing phase of the appeal by the Dental Board of the State of California is over and dates for oral arguments will be set by the 9th Circuit U.S. Court of Appeals.

The Dental Board is appealing a United States District Court ruling in favor of the AAID and the ABOI/ID that held a California law that restricted advertising credentials issued from a bona fide organization as unconstitutional. That lower court decision was the second time the federal courts in California had ruled in AAID's favor.

"The AAID is the only organization that issues credentials in implant dentistry that has stood up and fought restrictions on the advertising of those credentials," said Frank Recker, legal counsel for the Academy. "These credentials have been scrutinized in litigation and never even remotely been challenged as to their credibility. No other implant organization has exposed itself or its credentials to such public or judicial scrutiny," he added.

The law in question allows dentists to advertise credentials if granted by an ADA-recognized specialty organization or an organization that requires completion of "a formal, fulltime advanced education program that is affiliated with or sponsored by a university based dental school and is beyond the dental degree at a graduate or post-graduate level" prior to granting of the credential.

The AAID successfully argued at the lower court level that such a requirement is an unconstitutional violation of "commercial free speech." The AAID pointed out that the "formal, full-time advanced education program" requirement is arbitrary and holds the Academy to a higher standard than the ADA-recognized specialty programs, which can be part time.

The Dental Board contends that prohibiting advertising of credentials

misleads the public based on two surveys conducted by the California Dental Association. The trial court had rejected both surveys as irrelevant, inadmissible and incompetent. The AAID argues that there is nothing new that would make the surveys relevant, admissible or competent and urged the Court of Appeals to also reject them.

PRESIDENT'S REPORT

By Kim A. Gowey, DDS

This has been an exciting and rewarding year for AAID and for me personally as president of the Academy.

We set out with four major goals:

1. Expand AAID's influence outside the United States
2. Spread the name and message of AAID through the media
3. Make the annual meeting a welcoming experience for all members – general and credentialed
4. Continue the trend of increasing membership in the Academy

Several significant steps have been taken to expand AAID's influence outside the U.S.

AAID's first international outreach to Europe attracted members from the U.S. who joined others from the Irish Dental Association at the inaugural scientific meeting on implant issues. Those in attendance discussed such issues as:

- The New Dilemma – Model Based or Computer-Based Implant Dentistry
 - The Relative Merits of the use of Membranes or Grafts in Implant Dentistry
 - Facial Tissue Engineering. The use of standard & custom made endosseous implants.
 - Nerve Transpositioning versus Distraction Osteogenesis
- The Western District in coopera-

tion with the Central District held their annual meeting titled "Relax and Relate to Esthetic Implant Dentistry" at the Sheraton Bougainvillea's resort in Puerto Vallarta Mexico on March 30 – April 1, 2006. The meeting attracted over 500 dentists from across the United States and Mexico. This district meeting surpassed all previous meetings in the history of the Western District as measured by number of registrants, gross revenue, sponsorship income and net profit. As **Dr. Jaime Lozada** reported, "our colleagues south of the border are extremely hungry for implant education and future AAID sponsored events can be extremely successful in Mexico."

The Board of Trustees entered into a mutually beneficial arrangement with the German Association of Implant Dentistry (DZGI) that will give AAID members access to activities and membership in the German Association. DZGI is over 30 years old and has nearly 3,000 members from Germany and 35 other countries.

Members of the DZGI will have reciprocal access to AAID member benefits and membership. AAID members who join the DGZI will have access to Implantologie Journal, the DGZI members' journal – the leading German journal for implantologists in independent practice. As a result of the agreement between AAID and DGZI, members may also avail themselves of Implants, The International Magazine of Oral Implantology (IMOI) free of charge.

The two organizations will exchange speakers at each other's annual meetings. An application

form that AAID members may use to take advantage of the discount negotiated by AAID can be found on the AAID Web site at www.aaid.com.

The Academy added to the already successful India MaxiCourse® with one in Jordan. The 1st Annual Jordan MaxiCourse® attracted over 90 students. The course was led by **Dr. Jihad Abdallah** with the assistance of **Dr. Shankar Iyer**, who is also the director of the India MaxiCourse®.

The Academy has enjoyed some early success from its new emphasis on public relations. We do not plan to rest on our laurels; we have increased the budget and retained the services of a PR firm to further disseminate AAID's message across the country to our target markets.

Among some of our successes include significant articles in the Los Angeles Times and the Cincinnati Enquirer that prominently included AAID as a primary source of qualified implant dentists. As president of AAID, I was quoted extensively in a lengthy article on implant dentistry in *Inside Dentistry*. The Academy has also been mentioned as a resource in the *Washingtonian* magazine, the leading publication for affluent residents of the District of Columbia and surrounding area.

Under the leadership of the PR Committee, I believe that we will all be pleased with the quantity and quality of Academy mentions in the media over the next several months. We are targeting such national publications as *Redbook*, *AARP The Magazine*, *Prevention*, *Ladies Home Journal*, *More, Town & Country*, *Women's Day* among others. In addi-

tion, we will make AAID spokespeople – all of whom have participated in an AAID media training session – available to TV and radio outlets including those in large metropolitan markets as well as national programs.

The AAID message will emphasize that implants are the most effective way to replace missing teeth. “Implants are successful and intended to be permanent tooth replacements.” We will also explain how to find an experienced implant dentist through the AAID.

Those who plan to attend the 55th Annual Meeting October 25 – 29 in Chicago will agree that we have met our third goal – making the annual meeting a welcoming experience for general and credentialed members alike.

The meeting offers many opportunities for camaraderie and to share information with your colleagues. This is what makes our Academy special.

We have added a new reception on Wednesday evening. This provides all with a way to reacquaint with old friends and make new ones after a day of learning about new tools, techniques and technologies. Several opportunities are available each and every day for members to interact with each other and with the world-class group of presenters we have gathered together in Chicago.

All members are welcome to attend the AAID annual business meeting. For those interested in becoming credentialed members, we offer a number of venues to learn more so you can obtain an insider’s look at the examination process.

Speaking of membership, the Academy has passed the 3,000 member threshold for the first time in its 50-plus year history. In fact, at the time you read this article, membership exceeds 3,100 members. This marks an increase of 13 percent

in membership – the sixth year in a row that the number of members in the Academy has increased.

The membership effort is evidence that we are succeeding in the pursuit of our other goals. For example, more countries are represented today in the membership of the AAID than last year. Members come from 59 countries as opposed to 54 countries last year. The number of international members has increased as well from 366 in 2005 to 408 this year.

I am pleased to have had the opportunity to serve as president of the Academy this year and look forward to the continued growth of the AAID as a presence in the U.S. and abroad. My thanks to all of you for the opportunity to serve.

CALL FOR PAPERS

JOURNAL OF ORAL IMPLANTOLOGY

Dear Fellow Members:

The Journal’s Editorial Board and AAID’s Publications Committee appreciate your loyalty and involvement with the JOI. In order to make sure it is more an integral part of your interests and practices in Oral Implantology, you are encouraged to become active in seeing it grow in stature and size. Every one of you has an article on your desk or in your mind that is waiting to be submitted. As your Editors, we are requesting that you put our suggestions into a pragmatic result:

- compose an article on a technique or some clinical hints or guidelines
- a case report or series of related case reports, some successes or (yes!) even failures that might enlighten your colleagues
- literature reviews on a subject of interest to you,

practice management, employee relationships, or any other subjects of pertinence from which your peers might profit

Please do not concern yourself with writing styles or format. We will offer significant levels of assistance to put your contributions into publishable form. Simply send three copies of your submission to Ethel Bruck, Assistant to the Editor in Chief; 232 Kelly Blvd.; Staten Island, NY 10314. Fax: 718-983-1157. E-mail: ebaebl@aol.com

For more information and guidelines, visit the AAID web site at www.aaid.com.

A. Norman Cranin, DDS
Editor-in-Chief

**By Secretary,
Dr. Joel A.
Rosenlicht**

BOARD REPORT

June 2, 2006

President **Kim Gowey** presided over the June 2, 2006 meeting of the Board of Trustees.

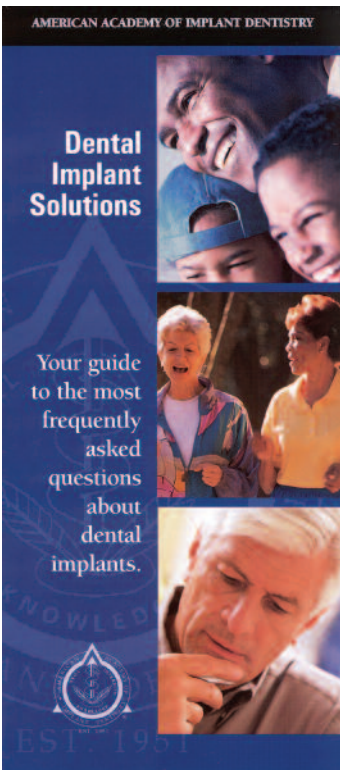

District representatives reviewed activities in and financial information for each district. The Western District noted that it conducted a successful meeting in Puerto Vallarta and that it would donate \$5,000 to the Research Foundation in memory of **Dr. Paul Johnson** and \$5,000 to the Central District in recognition of

the success of the recent joint meeting and the work of the Central District officers, especially, **Dr. David Gimer**. Representatives of the Northeast District noted that they would not conduct a meeting in 2007; rather, they would encourage their members to participate in a meeting being held in India.

Dr. Gowey noted that he will ask the Annual Meeting Planning Committee to assume responsibility for district meeting oversight. In this way, the Academy can monitor speaker selection, exhibitor involvement, corporate sponsorship and attendance. The Education Committee will continue to evaluate program content to allow the districts to use the Academy's CE process.

The Board considered informational reports on the Legal Advisory Service, the pro bono telephone assistance provided by Dr. Recker's office to credentialed members, and the Risk Management/Malpractice Database. In addition, Dr. Recker presented information on a consent form for patients taking oral bisphosphonate drugs such as Fosamax® that will be posted on the Members Only Section of the AAID web site.

The Board reviewed the Executive Directors' Annual State of the Academy Report and noted that the Academy has continued to strengthen its financial position, increase its membership and credentialed member numbers and enhances its annual meeting.

The Academy has a very informative and easy-to-understand patient education brochure available for your patients. To order this brochure, send an e-mail to info@aaid-implant.org or use this order form and fax or mail it with payment information. Fax: 312-335-9090

President-elect, **Dr. Frank LaMar** reviewed his Advance Planning Report and noted that he plans to focus the Board's direction on growth of the Academy through the efforts of the Membership and Global Committees.

The ABOI Liaison Committee reported that 40 candidates took the 2006 ABOI/ID examination with 28 of the candidates eligible to become new Diplomates and 25 successfully completing the examination process.

The Board reviewed the information from the Admissions and Credentials Board about candidates who completed the Associate Fellow and Fellow examinations at the 2006 A & C Board meeting. The Board accepted the recommendations of the A & C Board and elected 49 members as Associate Fellows and ten as Fellows. The Board noted there has been an increased number of Associate Fellow and Fellow candidates and to address its increased work load, the A & C Board plans to add an additional day or additional examiners to accommodate as many candidates as possible.

The Board approved the appointment of **Dr. Carol Phillips** to complete the unexpired term of Dr. Johnson on the A & C Board.

The Board reviewed the summary information related to the 2006 Annual Meeting, including registration data, program schedule, sponsorship, and marketing activities. **Dr. Shankar Iyer** reviewed the 2007 Annual Meeting theme and main podium speakers. **Drs. Lozada and Nick Caplanis** reported on the advance planning activities associated with the 2008 annual meeting

and agreed that they would consider nominating a Scientific Chairman.

In response to a request from a dental school in Jordan for the Academy's sponsorship of a course, the Education and Global Committees were requested to establish an overall strategic plan for the Academy's involvement with international education programs. The Board reviewed the draft standards for advanced education programs recently revised by the committee and noted that post-doctoral programs in implant dentistry should be at least 30 months in length. Because some universities prefer to conduct shorter full-time programs, the Board asked that the committee develop similar standards for implant programs that are one-year in length.

The Ethics Committee was requested by the Board to develop guidelines on the use of credentials and to determine what recommendations the Academy should give to its members about the commingling of bona fide credentials with non-bona fide credentials.

The Finance Committee reported on the committee's meeting with the auditor and investment advisor and noted that the Academy was in excellent financial condition and had once again received an unqualified annual audit. During the committee's meeting with the auditor, the auditor confirmed that the firm conducted a very thorough review of the Academy's finances and internal controls and found everything in order and had no recommendations for change. Copies of the 2005 audit and the April 30 financial statements

were reviewed.

Following discussion and based on the committee's recommendation, the Board approved a \$15,000 grant to Loma Linda University for the Academy to be a Gold Sponsor of the 30th Anniversary Meeting of the LLU Implant Program and a \$5,000 scholarship award to a full-time U.S. or Canadian student enrolled in the LLU graduate program and at least this amount to the student in his/her second and third years.

The Board appointed **Dr. Nicholas Caplanis** to serve as chairman of the Global Committee replacing the late Dr. Paul Johnson. An ad hoc International Review Committee will determine the Academy's roles and involvement in a meeting in Mumbai, India in 2007 and to report to the Board for its October meeting and recommend the Academy's future global direction.

The Membership Committee reported that the Academy membership is 12% greater than last year at this time. The Board agreed to provide a 50% dues discount to individuals who are members of the military reserves and have been called to active duty. The Board agreed to provide a dues refund to the family of a deceased member and to approve the Life Member applications of **Drs. Eugene Black, Timmon Dye, and Paul Mentag.**

Informational reports were received from the Honored Fellow Committee, Internet Committee, Nominating Committee, Publications Committee, Public Relations Committee, Performance Review Committee and Study Clubs Committee.

EDITOR'S INTERVIEW WITH PRESIDENT-ELECT

DR. HOCHBERG: Please share with the AAID membership some background about your involvement with the AAID.

DR. LAMAR: I first became introduced to the AAID by **Dr. Robert Buhite** and **Dr. Anthony Strazzeri**, two credentialed members from the Rochester, New York area. I had been involved in implant dentistry, on a smaller scale, since the late 60's. However, I became more involved and interested in implant dentistry about 1978-79, when it appeared that implant dentistry could be more predictable. I felt that I needed implant supports for my prosthetic practice to replace missing teeth primarily in the posterior maxillary and mandibular arches. I wanted to be able to restore a case with fixed prostheses that would not otherwise be possible. The entire scope of implant dentistry has changed tremendously since the 1970's.

DR. HOCHBERG: As you became more involved in offering dental implant procedures to your patients, what educational opportunities were available to you through the AAID?

DR. LAMAR: Initially it was very difficult to find good implant related programs to advance your knowledge and skills. When I was introduced to the AAID, I became aware of excellent advanced implant programs. These programs promoted advanced treatment planning instead of supplemental planning. I was introduced to the Harvard MaxiCourse® that I completed in 1988, taking my career to a new level. I took advanced courses at the Medical College of Georgia Maxi-Course Program. I was introduced to advanced thinkers and

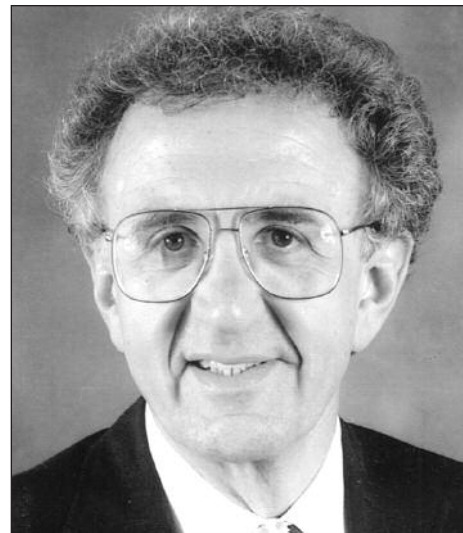

practitioners of implant dentistry, spending time at their offices and mentoring with them. Among those I was privileged to mentor with were **Drs. Leonard Linkow, O.Hilt Tatum, Jr. and Terry Reynolds.**

DR. HOCHBERG: What would you say to the young dentist today regarding the benefits of membership in the AAID?

DR. LAMAR: The benefits of membership to the AAID are multi-faceted. First, there are educational opportunities including the Annual and District meetings, Bone Grafting Course and the MaxiCourses®. I think more importantly, there is a feeling of camaraderie and a mentoring vehicle for the young practitioner. Their membership in the Academy will propel them to the next level of implant treatment. There are things that happen at Academy meetings and programs that create an infectious attitude that becomes prevalent as a member of this Academy. The AAID helps the young member to strive for excellence and guides them to attain levels they couldn't possibly think possible if not a member of the Academy. Credentialing opportunities become a major benefit of membership in the AAID. The practitioner seeking new levels of excellence find it possible, in the Academy. Part of that excellence is the desire to attain credentials. Implant credentials distinguishes our members as spokesmen for implant dentistry locally, nationally and now internationally.

DR. HOCHBERG: Dr. LaMar, tell us a little bit about the Research Foundation and your involvement with it.

DR. LAMAR: The Research Foundation became what it is today

Dr. Lamar

about seven years ago. The goal was to build an endowment fund of \$1 million. The purpose of the Research Foundation is to support grants at various universities to promote graduate research. At present the Research Foundation has over \$600,000 and allocates grants totaling more than \$15,000 a year. As the endowment fund grows, there will be more funds available for Implant research grants. The AAID is the only dental Academy I am aware of that supports research grants.

DR. HOCHBERG: I'm also aware that you have been very involved in the Global Committee. Bring everyone up to date on the status of that Committee and the projects that they are working on?

DR. LAMAR: The Global Committee was formed about eight years ago by the then President, **Dr. Terry Reynolds.** The Global Committee has had three chairmen: **Dr. Charles Weiss**, the late **Dr. Paul Johnson** and I. The current chairman is **Dr. Nick Caplanis.** The Global Committee's challenge was to expand the Academy globally. It has worked to develop relationships, make others

aware of our credentialing process and that the AAID is the premier Implant Academy globally. It has been a slow, tedious process but one that has been exciting and successful. We have a presence now in many countries. There have been AAID sponsored seminars and conferences in Peru, Brazil, Germany, France, and recently in Dublin. We had our first international meeting this year in Dublin, Ireland. There are two MaxiCourses® offered outside the U.S. The one in India is in its third year and has approximately 50 students per year who become advanced trained implant dentists. Another was started this past year in Jordan and has over 90 residents. These students become members of the AAID and hopefully will become credentialed. There is tremendous interest in several other countries for MaxiCourses®. I anticipate the growth of the Academy will continue to bring the affiliations with University based implant organizations and the formation of multiple Global MaxiCourses®. The Academy will grow tremendously in the next ten years because of our global efforts. Five years ago, the Academy had roughly 2200 members. Today, we're up over 3,100 members. Our presence and leadership is recognized around the world.

DR. HOCHBERG: What direction would you like to take the AAID during your term as President?

DR. LAMAR: I would like to see the Academy focused on credentialing and Global membership during the next 12 months. I would like to see AAID credentials become even more respected in dental communities than they are today. Our legal efforts have

The family of President-elect LaMar in Florida: Seated--daughter, Christina Palma, wife-Jo, grandkids- Jenny, Gianna, Frankie. Standing--son, Frank R. LaMar DDS and Frank LaMar, DDS.

helped propel us towards that goal. My goal is to see that the AAID is recognized as the credentialing body and education body for implant dentists throughout the world. The next area of interest is to continue the successful growth of the Academy. I would love to see member growth to 3500 by the end of my tenure. It will take a lot of work by the Membership, Credentialing and Global Committees to make that happen. A good deal of my focus will be to see the endowment fund of the Research Foundation grow to its goal of \$1 million. Hopefully that can be attained during my tenure in 2007.

DR. HOCHBERG: I'm certain the Membership would like to learn more details regarding your involvement, over the years, with the AAID.

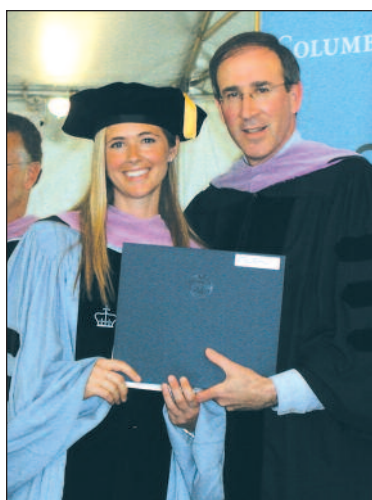

DR. LAMAR: My involvement with the Academy started in 1985 and within a few years I became active with the Northeast District and

served as an officer for several years. I chaired the Northeast District Meeting in Cooperstown, New York, that was extremely successful. I was a Trustee of the AAID for four years representing the Northeast District. I worked with **Dr. Paul Johnson** as program and the general chairman for the 2002 annual meeting which was a record meeting for the Academy. The experience gained by chairing those meetings and varied committees such as the Research Foundation, Insurance and Global Committees has helped me to formulate my thoughts on the direction and growth I would like to see the Academy follow.

DR. HOCHBERG: Thank you very much and on behalf of the membership, we want to extend our congratulations to you. I am certain that we will be in very capable hands over the next year and we look forward to a successful year together. Thank you again.

44 DENTAL SCHOOLS PARTICIPATE IN AAID AWARD PROGRAM

This spring, 44 dental schools in the US and Canada participated in the AAID's award program that recognizes undergraduate dental students for their interest in implant dentistry, both academically and clinically. Each recipient was selected by his or her dental school, using its established procedures for such student awards.

Columbia: Dr. Lindsay Friedman and Dr. Ira Lamster, Dean, School of Dental and Oral Surgery where Dr. Friedman was presented with the 2006 AAID Dental Student award.

The AAID award was also presented by five of the 12 full-time postdoctoral programs on the AAID list of full-time implant dentistry programs that were identified in a 2005 AAID survey.

Both the undergraduate and graduate recipients received an AAID Certificate of Recognition, a year's free membership in the Academy and a complimentary registration at the 2006 AAID Annual Meeting.

This was the second

year that the AAID undergraduate award had been offered to all of the dental schools and the first year for the graduate award. "We are delighted with the level of participation in these AAID award programs, which recognize outstanding students. They represent the future of implant dentistry and we welcome them as members of the AAID," said **Kim A. Gowey, DDS**, president.

SIU: On June 29, 2006 the AAID Graduate Dental Student award was presented at Southern Illinois University at Edwardsville (l to r): Dr. James Lin, Director of SIU-SDM Dental Implant Clinic; Dr. Ann Boyle, Dean of SIU-SDM; Dr. Jorge Amarin, Award recipient; Dr. Bruce Rotter, Associate Dean of SIU-SDM.

Washington: Dr. Adam Cramer was presented with the American Academy of Implant Dentistry Award at the University of Washington's Honors and Awards Assembly on Friday, June 2, 2006 by UW Professor of Oral Pathology, Dr. Dolphine Oda.

Temple: Dr. Luis T. Craig received the 2006 AAID Dental Student award on May 17, 2006 from Dr. Bernard Feinstein, Associate Professor and Chief of the Division of Oral & Maxillofacial Surgery, Department of Oral and Maxillofacial Pathology, Medicine and Surgery.

WVU: Dr. Yousif Bader Al-Mufarrej was presented with the 2006 American Academy of Implant Dentistry Dental Student award on April 21 by Dr. Harold Reed, Associate Clinical Professor in the Department of Periodontics.

A SERVICE FOR OUR MEMBERS: CLASSIFIED ADVERTISING

As a benefit to AAID members, AAIDNews now offers the opportunity to place classified advertisements in our newsletter. For more information, please call the AAID Headquarters Office at (877) 335-2243.

Policy

Classified advertisements in AAIDNews are limited to dental matters, such as job opportunities for dental professionals or practice and equipment sales. The AAID has the right to decline placement or edit copy at its discretion. All advertisements must be typed and submitted by mail or e-mail. All advertisements must be 40 words or less and include contact information.

Payment

Payment for classified advertisements must be made in advance. Send typewritten copy and instructions with payment to the Headquarters Office. Make checks payable to the American Academy of Implant Dentistry.

California Appeal continued from page 1

The AAID argued that providing the public with truthful information about the credentials of general dentists performing implant dentistry is not misleading to the public. To the contrary, because any dentist, regardless of education or experience can perform implant dentistry, giving the public information about those dentists with recognized experience as vouched for by a bona fide credentialing organization, like the Academy, is vital to protect the public's interest.

The AAID and ABOI/ID were supported with *Amicus Curiae* ("Friend of the Court") briefs submitted by two other organizations: Academy of General Dentistry and the American Academy of Cosmetic Dentistry.

"The Academy's effort in the legal arena furthers one of our strategic goals: Communicate the value of the Academy and its credentialing process," commented Dr. Kim Gowey, President of AAID. "A strategy we employ to accomplish that goal is through the courts. AAID has invested over \$1 million over the past five years in this effort. We certainly are putting our money where our mouth is." Dr. Gowey said.

It is expected that oral argument will take place by Spring 2007. The Academy will continue to keep you posted as this moves closer to a decision by the Court of Appeals.

Courses & Instruction For EVERY Level of Experience

Pacific Implant Institute 2006-2007 Course Dates

Fri, Sat & Sun. (20-credit hours each, 200-credit hours for the total program)

September 22-24, 2006	Orthopaedic Engineering and Treatment Planning
October 20-22, 2006	Implant Prosthetics #1 - Fundamentals of Fixed Prosthetics
November 17-19, 2006	Surgical Instruction #1 - Principles of Surgery & Grafting
December 8-10, 2006	Implant Prosthetics #2 - Advanced & Removable Prosthetics
January 12-14, 2007	Surgical Instruction #2 - Implant Placement Surgery
February 9-11, 2007	Surgical Instruction #3 - Autografts & Phlebotomy
March 2-4, 2007	Applied Head & Neck Anatomy - with Cadaver Dissection
March 30 - April 1, 2007	Implant Practice Management - Full Office Team Recommended
April 27-29, 2007	Surgical Instruction #4 - Maxillary Sinus Grafts
June 1-3, 2007	Surgical Instruction #5 - Advanced Osseous Grafts

Courses

There is NO implant educational facility anywhere offering this complete range of specialized implant training. Our modular program allows anyone with any time constraints to complete the entire Master's Program according to their schedule. See our website for complete description of specific courses. We challenge you to register for the **Orthopaedic Engineering & Treatment Planning Course** regardless of your implant experience. (See our offer below)

Faculty

Our faculty are specialists and leaders in their fields and have been hand picked to provide you with leading edge procedures in implantology, surgery and practice management skills.

PII courses are designed to benefit the doctor in his/her early learning curve as well as the significantly more experienced clinician.

There is limited attendance for the surgical session.

Location

Vancouver is Canada's Pacific gem: a combination of spectacular natural setting and all the excitement of a culturally diverse world class city. It offers Canada's best climate: a benign mix of mild winters and warm summers moderated by Pacific Ocean currents. Pre and post conference destinations - from cruising through island archipelagos to deep powder skiing, and from wine country tours to authentic wilderness experiences, it's all readily available from your Vancouver base.

Our Guarantee To You!

In order to give doctors an understanding of what implant dentistry is capable of achieving, as well as how to evaluate the quality of the surgical and prosthetic results for their patients, we offer a 3-day **Orthopaedic Engineering & Treatment Planning Course** (Your office team is invited to attend)

If you (the doctor) are not 100% satisfied that you received excellent value - we'll refund 100% of your money! You have absolutely everything to gain, with zero risk.

BONE GRAFTING COURSE A SUCCESS

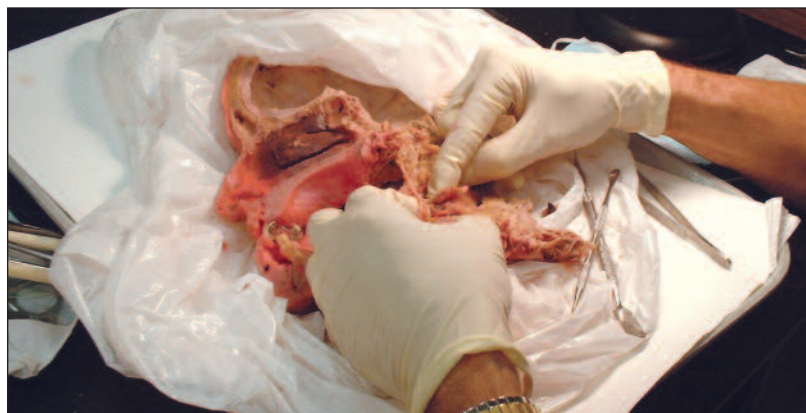

The Academy's Fifth Annual Bone Grafting Course, which was held June 9 – 10 at Wright State University in Dayton, Ohio, was another success. The thirty-two dentists and one allied dental staff member came from 13 states, two Canadian provinces, Bermuda, Japan and the United Kingdom, making this the most geographically diverse group ever. The participants cited hands-on experience with the cadavers, knowledgeable faculty, access to instructors and the learning atmosphere as the things they liked best about the course.

James L. Rutkowski, DMD, Clarion, PA, is the course director. The lecturing faculty also included **Craig D. Cooper, DDS**, Indianapolis, IN; **Lee H. Silverstein, DDS, MS**, Atlanta, GA; and **Barry Loughner, DDS, PhD**, Orlando, FL. Assisting with laboratory instruction this year were **Rick A. Barstow, DDS**, New Concord, OH; **Joseph Bedich, DDS**, Cortland, OH; **James Fennell, DDS**, Norwood, OH; and **Brian J. Jackson, DDS**, Utica, NY. Course sponsors were Dentsply Friadent CeraMed; Implants, Inc.; Innova; and Salvin Dental Specialties, Inc.

Watch upcoming Academy publications for details about next year's course, which is now being planned.

During the laboratory sessions, participants perform procedures demonstrated by the lecturers.

Reviewing anatomical landmarks pertinent to implant placement and bone grafting procedures is an integral part of the course.

Craig Cooper, DDS, provides guidance during a laboratory session.

Course participants practice drawing blood during the platelet-rich plasma laboratory.

MEMBERSHIP MILESTONES RECOGNIZED

This year, the Academy's membership grew to over 3,100, an all-time high. Contributing greatly to this record number are the over 337 members who reached milestones of continuous membership for 5, 10, 15,

20 and 25 or more years. Their support and loyalty have been major factors in the AAID's success in "advancing the standard of care for implant dentistry since 1951." This recognition of members reaching

these milestones began last year and will be repeated in subsequent years.

This year, 100 Credentialed Members of the AAID and 236 General Members achieved the milestone listed.

Credentialed member, 5 years (Became credentialed in 2001)

ABOI/ID NEWS

The American Board of Oral Implantology/Implant Dentistry (ABOI/ID) invites you to attend some special events that will be convened during the 55th annual meeting of the American Academy of Implant Dentistry (AAID.)

AAID mock board review and mock examination.

This luncheon session, sponsored by the AAID on Wednesday, October 25, 2006 from noon – 1:30 p.m., provides an overview of the ABOI/ID certification examination process and offers participants the opportunity of taking a mock Part I (written) examination of approximately 20 questions. The correct responses to the questions are provided and no test scores are calculated. **Drs. Walter Chitwood** and **Linda Weinfield** will also provide attendees with the opportunity to view a sample standardized case like those that will be administered during the new Part II examination. Dentists interested in becoming Diplomates can purchase tickets for **\$80** (the ticket price includes the cost of the lunch).

New! How to prepare applications for Parts I and II of the certification examination.

This special lecture session, which will be held on **Thursday, October 26, 2006 from 8:00 – 10:00 a.m.**, offers instruction to dentists who are applying for the 2007 ABOI/ID certification examination. **Dr. Natalie Wong**, will offer a step-by-step approach in completing the application for Part I, including guidance on

how to prepare the documentation for the required continuing-education courses. She will also present a section-by-section approach in applying for Part II, and for submitting the ten required case reports. There is no registration fee.

Lunch and learn.

Potential applicants for the ABOI/ID examination can also take part in the lunch and learn program entitled *On Becoming a Diplomate*. During this luncheon, which will be held on Friday, October 27, 2006 from 12:00–1:30 p.m., **Drs. Robert Buhite, James Rutkowski, and Jerry Soderstrom** — members of the Board of Directors — will each present an informal seminar on preparing for and participating in the certification examination. Tickets for **\$80** must be purchased through advance registration.

Annual breakfast.

The ABOI/ID will hold its eleventh annual breakfast for Diplomates and other interested dentists on Friday, October 27, 2006 from 7:00-8:00 a.m. During this event, President Soderstrom will present medallions to the ABOI/ID's new Diplomates, as well as recognize the ABOI/ID's past presidents and currently serving committee members. He will, in addition, present plaques to the immediate past president and to the officers of the Board of Directors. Finally, Dr. Soderstrom will provide an overview for attendees on the activities of the ABOI/ID. The price of the tickets for the breakfast is **\$55**

and, as before, they must be purchased in advance.

Exhibit.

During exhibit hours in the exhibit hall, the ABOI/ID will offer a special exhibit for those interested in certification. During this event, attendees can obtain information on certification and pose questions — one to one — to Board members and ABOI/ID staff. There is no admission fee.

ADMISSIONS AND CREDENTIALS BOARD

Exam Applications Due February 1

Applications to take Fellow examination and the oral/case part of the Associate Fellow exam next year are due in the Headquarters Office February 1. The examinations will be held in Chicago, May 3- 6. The applications and all materials related to the examination process for both examinations are available on the AAID Web site – www.aid.com — in the Education/Credentials section.

The 2007 annual oral/case examination is the last one during the four-year eligibility period of those who passed the written part of the Associate Fellow examination in 2003.

COMMITTEE AND DISTRICT NEWS

Central District activities at AAID Annual Meeting

The Central District will meet during the AAID's 55th annual meeting October 25-29, 2006 in Chicago. During this meeting all district members are asked to attend the District Caucus Lunch on Thursday, October 26th, from noon to 1:30 p.m. At that time we will elect our new officers.

All members are also encouraged to attend an additional district social meeting on Friday October 27th, from 5:30 p.m. to 7:30 p.m. Hors d'oeuvres and drinks will be provided for district members and their guest. This social event will be held in the Chi Bar just off the main lobby of the Sheraton Hotel. An invitation for the social will arrive shortly before the meeting.

The District is currently seeking additional nominations for the office of Secretary/Treasurer. Anyone who would like to nominate a member, is interested in the position, or would like to inquire about any District position should contact President **Jeffrey Meister, DDS** by phone at (219) 924-8766 or email at meisterjt@aol.com immediately.

2007 Western District meeting to feature live surgery

The Western District is planning next year's event entitled "Going Live – Focus on the Sinus." This program will be held in Newport Beach, California in the spring of 2007. The theme of the meeting will revolve around the surgical and prosthetic reconstruction of the posterior maxilla with specific emphasis on the various surgical techniques currently used to augment the pneumatized sinus.

The program will showcase live surgery performed at Loma Linda University broadcasting simultaneously through the Internet to the meeting. The live surgery format has been extremely successful in the past with previous meetings held at Loma Linda University. The Newport Beach venue will significantly complement the educational experience with world famous shopping at Fashion Island, dining in Newport Harbor, and beautiful California beaches only minutes away.

The Western District is looking forward to another successful meeting next year as they try to build on their success from last year's meeting in Puerto Vallarta Mexico. A live feed of the course will also be available for purchase to be viewed online for study club members who cannot travel to California. Study club coordinators

can contact **Dr. Nick Caplanis**, President of the Western District for more information at ncaplanis@aol.com.

Western Districts contributes to Research Foundation

The Western District made a very generous donation of \$5,000 to the AAID Research Foundation in memory of the late Dr. Paul Johnson, a past president of the Academy.

The Membership Committee met in August at the AAID headquarters. Pictured are from left to right: Seated: Adam Foleck, DMD, Norfolk, VA; Joseph Buttacavoli, DMD, Brick, NJ, chairman. Standing: David Resnick, DDS, Ada, MN; John Hargreaves, DDS, Denver, CO; Olinga Hargreaves, DDS, Denver, CO

Mentoring Program for Associate Fellow Candidates

Have you passed the written part of the Associate Fellow examination but need a nudge to take the oral/case part during your four-year eligibility period? Would you like to talk with someone who can provide practical advice based on his or her own experience? If so, contact Carolina Hernandez in the Headquarters Office to obtain a list of mentors, all of whom successfully completed the Associate Fellow examination this year. The mentor's role is to encourage, support and advise a candidate based on their personal experience, not to prepare materials for submission.

ANNOUNCING THE SONICK SEMINARS EXCITING FALL/SPRING 2006-7 LINE-UP

Each 2-Day Course Offers:

- ✓ LIVE SURGERIES
- ✓ Hands-On Model Clinic
- ✓ ALL-INCLUSIVE TUITION
(Hotel, Meals, Materials, Instruments)
- ✓ State-of-the-Art Teaching Center
- ✓ Complimentary Concierge Service
- ✓ Maximum 20 Practitioners
- ✓ 20 CE Credits
- ✓ Invaluable Learning Experience

Convenient Access

- Less than 1 hour from NYC airports
- 100 yards from MetroNorth Railroad
- 20 minutes from the Port Jefferson Ferry
- Minutes from the beautiful Connecticut shore

Course #1 Integrating Implant Surgery into Your Dental Practice

Sept 7-8, 2006 or Jan 11-12, 2007 or Feb 8-9, 2007

Course #2 Hard & Soft Tissue Regeneration for Ideal Implant Placement

Oct 26-27, 2006 or March 15-16, 2007

Course #3 Implant Treatment in the Esthetic Zone

Nov 9-10, 2006 or April 12-13, 2007

Course #4 Immediate Extraction, Placement and Loading of Dental Implants

May 10-11, 2007

Seminars fill quickly, so click **www.sonickseminars.com**, or call **203.254.2004**
for more information and registration.

MEMBERSHIP

NEW MEMBERS

The AAID is pleased to welcome the following new members to the Academy. If you joined the Academy recently and your name does not appear, it will be listed in the next newsletter. We have changed the way we are presenting the names of new members. The list is organized by state and then alphabetically by last name of the new member. We have also included the city where the member has his or her office. Contact your new colleagues and welcome them to the Academy.

INDUSTRY NEWS

Zimmer Dental Inc., a provider of dental oral rehabilitation products and a subsidiary of Zimmer Holdings, Inc., announces the availability of the new Zimmer® Surgical Motor System. This new system includes new and improved features that deliver the utmost in simplicity of use, reliability and convenience – providing clinicians with confidence and time savings during surgeries. Designed for surgical specialists who perform implantology and maxillofacial surgeries, the Zimmer Surgical Motor System offers programs with 20:1 and 1:1 reduction ratio to facilitate not only implant placement surgeries, but also wisdom

teeth and bone shaping/grafting procedures.

The dental division of the Belgian hi-tech group **Materialise** became a separate company and **Dentsply International** acquired a minority shareholder position in the company. Materialise Dental offers planning and simulation software tools under the SimPlant™ brand. The company also offers a customized drill guide product under the brand name SurgiGuide™, which can be used by implantologists or oral surgeons during the implant procedure to ensure accurate implant placement.

The differences start here...

No other implant combines these unique features

Backed by nearly two decades of proven clinical success, PITT-EASY® implants offer exceptional versatility. The system's multiple diameters, lengths, and wide range of prosthetic options provide optimal solutions and yield optimal results.

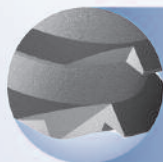

Patented anatomic abutments

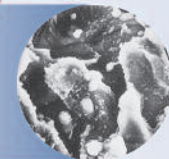

Sharp cutting threads

Apical cutting notch

Deep internal hex

Nano-surface technology

The PITT-EASY® implant combines threaded and tapered designs

...and continue here.

With proven clinical success and unparalleled versatility

PITT-EASY®

Endopore®

Anatomic®

A World of Implant Solutions

Put your practice at the cutting edge of dental implant innovation.
For more information about PITT-EASY visit www.innovalife.com or call 800-898-6261.
