

SEPTEMBER 26-27, 2025

TUITION: \$3400 CE: 16 CREDITS

Breakfast/Lunch included

Dental Implant and Surgical Cadaver Program

The primary goal of this two – day program is to assist each participant in achieving a higher level of comfort with modern dental implant practice. The course curriculum includes didactic and hands-on simulation modules including models and cadaver lab exercises

Course Objectives:

- Learn flap designs, bone augmentation, and suture techniques
- Place dental implants in single and multiple sites
- Classify extraction defects and perform graft techniques
- Learn extraction techniques
- Review patient assessment
- Effective treatment of dental implant complications

Dr. Joseph Leonetti has performed dental implant surgery for more than 25 years and participates in continuing education both nationally and internationally. Primary topics of interest include medical evaluation of the dental implant patient, implant surgery, extraction site grafting, sinus augmentation, and management of dental implant complications. Dr. Leonetti is double board certified by both the American Board of Oral and Maxillofacial surgery and the American Board of Oral Implantology. He is Past President of the American Board of Oral Implantology/Implant Dentistry
