

Participating Doctors Handbook

Transforming Lives

Changing Communities

Thank You for Agreeing to Change a Veteran's Life!

Thank you for volunteering your valuable time and energy to change the life of a veteran in need as an AAID Foundation *Smile, Veteran!*™ Program Participating Doctor. Your efforts will not only restore their smile but also positively impact their family, friends, and community.

Here at the Foundation, we take pride in the work that our members put into the *Smile, Veteran!*™ program. Your case story will be shared with other members to show your dedication as a catalyst of change in this veteran's life.

The *Smile, Veteran!*™ program provides eligible veterans, selected by our Committee, with dental implants at little to no cost. This initiative ensures that veterans who might otherwise lack access to dental restoration receive the care they need for improved health and confidence. Your agreement to offer dental work in your office *pro bono* to the veteran ensures that these individuals receive access to improved dental health and smiles.

By partnering with our sponsors, the *Smile, Veteran!*™ program provides the Participating Doctor with the materials to change each veteran's smile, at *no cost* to the veteran. The Foundation provides each selected veteran participant with implants, abutments, and bone grafting materials for free through our corporate partners. Each Participating Doctor must make orders for necessary materials in the treatment plan by following the steps provided in this handbook. **This ensures there is no cost to the Doctor, the Foundation, or the Veteran for each approved case. Please follow the steps below to place orders for these materials.**

Implants and Abutments

Our corporate sponsor for the *Smile, Veteran!*™ program that

provides implants to each Veteran, for free, is

ZimVie Dental. We do not currently have other partnerships or provide reimbursement for different implants through the program. If you have questions regarding your preferred implant company, please contact the AAID Foundation immediately.

To order implants, complete the [ZimVie implant order form](#) (see Attachment A) and email it to lauren@aaid.com. Our office will handle the rest, ensuring no unnecessary charges. It is imperative that you DO NOT contact a salesperson directly for the order. Our contact at ZimVie Dental will place the order on your behalf. ZimVie will arrange for shipment to your office.

STEPS TO PLACE ORDER FOR IMPLANTS AND/OR IMPLANT-RELATED MATERIALS

1. Complete the [ZimVie implant order form](#) using developed treatment plan.
2. Send completed form to Lauren by email (lauren@aaid.com).
3. Lauren will connect you with our contact at ZimVie Dental for the *Smile, Veteran!*™ program, and the order will be placed on your behalf. *This ensures no unnecessary charges are incurred during the process.*
4. All ordered implants, abutments, and other implant-related items will be shipped to your dental office. *You will not receive a bill from ZimVie Dental if procedure is followed.*

Bone Graft Materials and Plugs

The Foundation has teamed up with Impladent, Ltd. to provide bone graft materials and plugs to eligible Veterans in the *Smile, Veteran!*™ program.

Should you need these materials for your case, simply fill out the order form below and copy Lauren on all emails (lauren@aaid.com).

You can browse Impladent, Ltd.'s website should you need additional materials that are relevant to your case (www.impladentltd.com). Impladent, Ltd. will provide materials including, but not limited to: plugs, strips, OsteoGen particulates, allograft, OsteoFlex Membranes.

STEPS TO PLACE ORDER FOR BONE GRAFT AND/OR PLUGS

1. Complete the [Impladent, Ltd. 2024 order form](#) (see Attachment B) below
2. Send the completed form by email to Lyman at Impladent, Ltd. You can reach Lyman at lyman@impladentltd.com. Be sure to copy Lauren on all correspondences (lauren@aaid.com).
3. Lyman will assist you with the materials order and shipment to your dental office.

Laboratory Services/Prosthesis

Should you need to order crowns, prosthesis, or other laboratory processed materials

for your case, please contact Ms. Lauren Ambrus, Foundation Executive Secretary, at lauren@aaid.com. Starting in 2025, Glidewell Laboratories will be providing laboratory services on a case by case basis. It is imperative that you DO NOT contact a salesperson directly for your order. Lauren will connect you with our *Smile, Veteran!*™ contact at Glidewell, who will assist you in placing the order when ready. As Glidewell completes thousands of cases a day, it is essential that procedure is followed so that no costs are incurred to the doctor or the Foundation for laboratory expenses.

STEPS TO PLACE ORDER FOR LABORATORY SERVICES

1. Send Lauren X-rays and other pertinent order information by email (lauren@aaid.com).
2. Lauren will connect you with our *Smile, Veteran!*™ contact at Glidewell. He will place the order on your behalf. *This ensures no unnecessary charges are incurred during the process. You will not receive a bill from Glidewell for laboratory expenses if procedure is followed.*

Other Questions or Concerns?

Please feel free to contact the AAID Foundation at any time regarding questions or concerns for your patient and their *Smile, Veteran!*™ approved case. We are also happy to facilitate follow up media and marketing as a part of your Veteran patient's participation in our program. You can email AAID Foundation Staff at foundation@aaid.com, or send a message to Lauren at lauren@aaid.com for questions.
