85th Annual Conference

Schedule at a Glance

Sunday, April 8, 2018

12:00 PM - 5:00 PM Early Registration Grand Ballroom Foyer

12:00 PM - 5:00 PM Networking Lounge Grand Ballroom Foyer

Sub-Specialty Pre-Course in FPM/RS

Broadway/Carnegie

1:00 PM **What's New in the World of Bacteriuria?**

Todd Moyerbrailean, DO

1:50 PM **Obliterative Procedures for Pelvic Organ Prolapse Le Fort Partial Colpocleisis**

Gustav K. Barkett, DO

2:40 PM-3:00 PM **Break**

3:00 PM **Universal Cystoscopy: What is the Evidence?**

Todd Moyerbrailean, DO

3:50 PM **Vaginal Morcellation: Getting to the REAL Minimally Invasive Hysterectomy**

Patrick Woodman, DO

4:40 PM-5:00 PM **Panel: Question and Answer Session**

OMM Pre-Course

2:00 PM- 5:00 PM **Anita Showalter, DO**

Hamilton Indian River

Monday, April 9, 2018

6:30 AM - 5:15 PM Registration Grand Ballroom Foyer

6:30 AM - 7:30 AM Breakfast Central Park Complex

7:30 AM - 5:15 PM General Session Grand Ballroom

7:30 AM **Presidential Welcome**

7:45 AM **Managing Physician Burnout: The Science & Art of Mindfulness, Empathy & Compassion**

Distinguished Fellows Honorary Lecture

Mark Levine, MD

8:30 AM **Endometrial Cancer**

James K. Aikins, MD

9:15 AM **Health Disparities and Poor Birth Outcomes: The March of Dimes Health Disparities Resource Guide**

Terri Major-Kincaide, MD

10:00 AM **Exhibit Break**

Central Park Complex

Monday, April 9, 2018.....continued

- 10:45 AM **Global Healthcare**
James Aikins, MD
- 11:30 AM **State of The Art Perinatal/Neonatal Palliative Care for Patients with Lethal Anomalies and at the Limits of Viability: Counseling, Management, Education and Outcomes**
Terri Major-Kincaide, MD
- 12:15 PM -1:30 PM **Lunch with Exhibits** Central Park Complex
- 1:30 PM **Council on Patient Safety in Women's Health Care**
William Bradford, DO
- 1:52 PM **Severe Hypertension in Pregnancy Patient Safety Bundle**
Eric Carlson, DO
- 2:15 PM **Understanding the Patient Journey Through Pre-Eclampsia**
Eleni Tsigas
- 3:00-3:45 PM **Exhibit Break** Central Park Complex
- 3:45 PM **Shoulder Dystocia Management....Helping People Out**
Eric Carlson, DO
- 4:30 PM **A New Practice Paradigm to Combat Physician Burnout**
Deborah Herchelroath, DO

Meetings, Events and Symposium... see pages 10 & 11

Tuesday, April 10, 2018

- 6:30 AM - 3:45 PM Registration Grand Ballroom Foyer
- 6:30 AM-7:30 AM Breakfast Central Park Complex
- 7:30 AM - 3:45 PM General Session Grand Ballroom Foyer
- 7:30 AM **Transcendental Meditation in OBGYN Care:
Improving Patient Outcomes & Enhancing Provider Resiliency**
Past President's Honorary Lecture
Stuart Rothenberg, MD
- 8:15 AM **"Stump the Professors" Urogyn Edition**
Patrick Woodman, DO, Micheal Coyle, DO and Jason Meade, DO
- 9:00 AM **Olympic Athletam Feminam:
The Identity, Culture and Medical Approach**
Rebeccah Rodriquez Regner, DO
- 9:45-10:15 AM **Exhibit Break** Central Park Complex

Tuesday, April 10, 2018.....continued

- 10:15 AM **Hybrid Fractional Laser Treatment of Genitourinary Syndrome of Menopause**
Michael J. Coyle, DO
- 11:00 AM **Training the Next Generation of Osteopathic Physicians**
Anita Showalter, DO
- 11:45 AM-12:45 PM **ACOGG Membership Luncheon** Central Park
(Dues must be current to participate)
- 12:45 PM **Aeromedical Concerns**
John Richard Ludtke, MD
- 1:30 PM **Collegiate, Elite and Professional Female Athlete Health, Medical Care to The Retired Athlete**
Rebecca Rodriguez Regner, DO
- 2:15 PM **Beyond Birth Control: Non-contraceptive Uses of Hormonal Contraception**
Michele Tartaglia, DO
- 3:00 PM **Top 10 techniques for OMM Integration In An OB/GYN Practice**
Millicent Channell, DO

Meetings, Events and Symposium... see pages 10 & 11

Wednesday, April 11, 2018

- 6:30 AM-5:00 PM Registration Grand Ballroom Foyer
- 6:30 AM-7:00 AM Breakfast Grand Ballroom Foyer
- 7:00 AM - 4:15 PM General Session Grand Ballroom
- 7:00 AM **AOF Presentation**
- 7:15 AM **Single Accreditation Update**
William S. Mayo, DO
President-Elect, AOA
- 7:45 AM **Confronting Maternal Mortality**
Lisa M. Hollier, MD, MPH
President-Elect, ACOG
- 8:15 AM **Physician Heal Thyself: A Guide to Better Patient Care Through Self Care**
MEFACOGG Distinguished Lecture
Tiffany Lowe-Payne, DO

9:00 AM **The Next Level: Finding Significance in a World of Success**

Barbara Hawkes Honorary Lecture

Saundra Wall Williams, EdD

9:45 AM-10:30 AM **Break**

10:30 AM-12:00 PM **Awards Ceremony & Presentation of New Fellows**

12:00 PM-1:00 PM **Lunch on your own or non-CME Lunch Symposium**

Ultrasound Refresher:

Grand Ballroom

1:00 PM **First Trimester Scans**

Lori A. Crites-Perez, RN, RDMS

2:00 PM **Second Trimester Scans**

Ronald J. Librizzi, DO

3:00 - 3:15 PM **Break**

3:15 PM **Third Trimester Scans**

John Ross, DO

4:15 PM **Panel Ultrasound Q&A**

Lori Crites-Perez, RN

Ronald Librizzi, DO

John Ross, DO

Meetings, Events and Symposium... see pages 10 & 11

Thursday, April 12, 2018

7:30 AM - 4:00 PM	Registration	Grand Ballroom Foyer
7:30 AM - 8:00 AM	Breakfast	Grand Ballroom Foyer
8:00 AM - 3:15 PM	General Session	Grand Ballroom
8:00 AM	Prenatal Genetic Screening and Diagnosis: An Update Shania Seibles, DO	
8:40 AM	Logistics of Medical Relief Operations David Adelstein, DO	
9:30 AM	Non-Surgical Management of Urinary Incontinence Jason Meade, DO	
10:15 AM-10:30 AM	BREAK	
10:30 AM	Legal Pearls for The Obstetrician- Gynecologist Shania Seibles, DO	
11:15 AM	Diversify Your D.O. Degree: 5 Practice Models Every Osteopathic Physician Should Know Draion Burch, DO	
12:00 PM -1:00 PM	Lunch on your own or non-CME Lunch Symposium	
1:00 PM	Board Exam Pitfalls, Techniques and Top Questions Dianne Evans, DO	
1:45 PM	"T-Talk"- Transgender Health Draion Burch, DO	
2:30 PM	Fertility Options and Care in the Transgender Patient Jennifer Nichols, DO	

Meetings, Events and Symposium... see pages 10 & 11

6:30 AM-11:45 AM	Registration	Grand Ballroom Foyer
6:30 AM - 7:00 AM	Breakfast	Grand Ballroom Foyer
7:00 AM -12:15 PM	General Session	Grand Ballroom

Florida State License Requirements

- 7:00 AM **“Doctor...Tie Your Shoes Before You Trip!”
Prevention of Medical Errors**
Arnold Mackles, MD, MBA, LHRM
- 8:30 AM **Federal & State Laws Relating To
The Prescribing Of Controlled Substances**
Joel Rose, DO
- 9:15-9:30 AM **BREAK**
- 9:30 AM **Professional and Medical Ethics**
Michelle Mendez, DO
- 10:30 AM **Infectious Disease**
Shania Seibles, DO
- 11:30 AM **Florida Laws and Rules**
Joel Rose, DO
- 12:15 PM Adjourn

Meetings, Events and Symposium... see pages 10 & 11

Meetings:

Sunday, April 8, 2018

8:00 AM - 12:00 PM ACOOG Board of Trustees Meeting Vesey
5:00 PM - 7:00 PM Council of Postgraduates Barclay

Monday, April 9, 2018

6:30 AM - 7:30 AM Resident Reporters Orientation Vesey

Tuesday, April 10, 2018

7:00 AM - 8:00 AM Historian & Traditions Membership Promotions Vesey
Committee Meeting

8:30 AM - 11:30 AM MEFACOOG Board of Trustees Meeting Conrad

11:45 AM - 12:45 PM ACOOG Membership Central Park
Luncheon Meeting

Wednesday, April 11, 2018

1:30 PM - 3:00 PM Re-Org Board of Trustees Conrad

Thursday, April 12, 2018

10:30 AM - 12:00 PM CME Committee Conrad

Events:

Sunday, April 8, 2018

12:00 PM - 5:00 PM Networking Lounge

Grand Ballroom Foyer

Tuesday, April 10, 2018

6:00 AM - 6:30 AM Yoga

Central Park Garden

6:00 PM - 7:00 PM New Fellows/Distinguished Fellows Reception

Central Park Gardens

Wednesday, April 11, 2018

7:00 PM - 10:00 PM Presidential Celebration Dinner

Promenade

Thursday, April 12, 2018

7:00 AM - 7:30 AM Yoga

Central Park Garden

Symposium:

Non-CME Lunch Symposium – Complimentary lunch is provided

Sponsored by AbbVie

Central Park Room

Under the Covers: Endometriosis, Dyspareunia, and Sexual Dysfunction

Wednesday April 11, 2018, 12:00pm-1:00pm

Speaker: Mona E. Orady, MD, FACOG,

Director, Robotic Surgery Services, Dignity Health Saint Francis Memorial Hospital,
San Francisco, CA

Sponsored by BTL Aesthetics

Central Park Room

Restoring Feminine Vitality After Aging and Postpartum Changes

Thursday, April 12, 2018, 12:00pm-1:00pm

Speaker: Tricia Mason, RN

Program Chairs

James Lindemulder, DO, FACOOG (Dist)

Dr. Lindemulder is a general OB/GYN currently in private practice in Goshen, Indiana. He has previously worked in academic medicine as a Program Director and faculty teaching residents and medical students as a Clinical Assistant Professor at Michigan State University College of Osteopathic Medicine in the Department of Osteopathic Surgical Specialties. He is a Distinguished Fellow of the American College of Osteopathic Obstetricians and Gynecologists, a member of their CME Committee and the Ad hoc Committee on Osteopathic Manipulation. He is an AOBOG Trustee, serves as the Chair of the Osteopathic Continuous Certification Practice Performance Assessment sub-committee, and an examiner. He enjoys doing medical missions work in various countries, doing home improvement projects, flying airplanes and travel with friends and family; when not in meetings.

Cecilia W. Banga, DO, FACOOG

Dr. Cecilia Banga is a board certified general OB/GYN in private practice at Greensboro OBGYN Associates in Greensboro, North Carolina. Prior to that, she worked as a hospital employed physician at Wilson Hospital in Sidney, Ohio for 5 years. She completed her medical school education at Oklahoma State University - Center for Health Sciences in Tulsa, Oklahoma. She subsequently graduated from a tracked OB/GYN internship and residency at University of Medicine and Dentistry of New Jersey School of Osteopathic Medicine in Stratford, New Jersey (now ROWAN-SOM). She is a Fellow of the American College of Osteopathic Obstetricians and Gynecologists and a member of CMEC. She also serves on the Surgical Services Education Committee of Cone Health. She has participated in medical mission trips to Ghana, West

Africa. She enjoys mentoring young students, traveling, reading, salsa dancing and intermittent exercise. She is married to Philip and together they have two daughters... and 6 goldfish.

7:45-8:30 AM

**Managing Physician Burnout: The Science & Art of Mindfulness,
Empathy & Compassion**

Distinguished Fellows Honorary Lecture

Mark Levine, MD

Learning Objectives:

1. The difference between empathy and compassion
2. Why empathy can lead to burnout
3. How compassion, for both self and others, transforms personal distress into positive feelings of contribution, fulfillment and connection.

8:30-9:15 AM

Endometrial Cancer

James K. Aikins, MD, FACS, FACOG

Learning Objective:

1. Describe risk factors for endometrial hyperplasia and neoplasia
2. Relevant symptoms and physical examination
3. Outline the cause, diagnosis and management of postmenopausal bleeding and uterine cancer
4. The body is a unit and the person represents a combination of body, mind and spirit. Endometrial cancer is linked with structural hormonal changes in the uterine structure and the reproductive system.

Monday, April 9, 2018

9:15-10:00 AM

Health Disparities & Poor Birth Outcomes: The March of Dimes
Health Disparities
Terri Major-Kincaide, MD

Learning Objectives:

Broad Global Objectives

1. Today in 2018 there continues to be a significant disparity with respect to rates of infant mortality along racial lines.
2. Some of the disparities related to poor birth outcomes has been attributed to stress and racism
3. Poor birth outcomes for AA women persist even with higher SES status

Behavioral Objectives

1. Describe the Social Determinants of Health
2. Identify Multifactorial causes for persistent birth disparities despite economic gains
3. Describe Modern Day Birth Disparities in the context of the Life Course Perspective

Osteopathic Principles and Practice

1. The body is a unit, and the person represents a combination of body, mind, and spirit. Persistent Health Disparities with respect to Poor Birth Outcomes and High rates of Infant mortality illustrate the overall effects on society at large when there are ongoing oppressive factors related to mind body and spirit.
2. Rational improvement of Disparate Poor Birth Outcomes and High Rates of Infant Mortality will involve a multifactorial approach using the Social Determinants of Health and a greater understanding and amelioration of those issues that affect mind, body and spirit prior to pregnancy.

10:45-11:30 AM

Global Healthcare
James K. Aikins, MD, FACS, FACOG

Learning Objectives:

- 1. To understand the link between water, sanitation and health from a global perspective.
- 2. To understand the environmental, social, economic and political factors playing a role in the diseases.
- 3. To understand factors leading to overcrowding and poor housing in low resource communities

Monday, April 9, 2018

11:30-12:15 PM

State of The Art Perinatal/Neonatal Palliative Care for Patients with Lethal Anomalies and at the Limits of Viability: Counseling, Management, Education and Outcomes
Terri Major-Kincaide, MD

Learning Objectives:

Broad Global Objectives

1. A significant portion of infants each year will die from lethal congenital anomalies
2. Patients with pregnancies associated with lethal anomalies warrant Perinatal/Neonatal Palliative care
3. Triggers for Perinatal/Neonatal Palliative Care should be clearly identified, and Referrals implemented to provide comprehensive patient care

Behavioral Objectives

1. Identify automatic triggers for Perinatal/Neonatal Palliative Care
2. Identify common sources of conflict for parents and providers with respect to congenital anomalies
3. Identify top 5 concerns for parents with respect to fetuses with lethal congenital anomalies

Osteopathic Principles and Practice

1. The body is a unit, and the person represents a combination of body, mind, and spirit. Perinatal Palliative Care is comprehensive care that treats the mother and the family through 8 domains including mind, body and spirit. With structural neurochemical changes in the CNS as well as behavioral health changes.
2. Rational treatment of patients with fetuses who have lethal congenital anomalies is based on an understanding of these principles of mind, body and spirit and a referral to appropriate support if possible PRIOR to delivery.

1:30 - 1:52 PM

Council on Patient Safety in Women’s Health Care
William Bradford, DO

Learning Objectives:

- 1. Understanding the Definitions of Hypertension Disorders in Pregnancy (HDP)
- 2. Review best practices for Management of HDP
- 3. Maximizing Outcomes with Shared Decision Making with Patient Input
- 4. When to Escalate Care to Improve a Continuity of Quality

Monday, April 9, 2018

1:52-2:15 PM

Severe Hypertension in Pregnancy Patient Safety Bundle

Eric Carlson, DO

Learning Objectives:

Broad Global Objectives:

1. The maternal mortality rate in the United States is high when compared to other developed countries.
2. A standardized, evidenced-based approach to the management of the most common preventable etiologies for maternal mortality and morbidity can improve outcome.

Behavioral Objectives:

1. Review the most common preventable etiologies of maternal mortality
2. Discuss the function of the Alliance for Innovation on Maternal Health (AIM)
3. Discuss the function of the Council on Patient Safety in Women's Healthcare
4. Review the Patient Safety Bundle on Severe Hypertension in Pregnancy
5. Explain how standardizing the management of patients with severe hypertension in pregnancy can decrease maternal morbidity and mortality

Osteopathic Principles and Practice:

1. Rational treatment is based upon an understanding of these principles: body unity, self-regulation, and the inter-relationship of structure and function.
2. Structure and function are reciprocally inter-related.

2:15-3:00 PM

Understanding the Patient Journey Through Pre-Eclampsia
Eleni Tsigas

Learning Objectives:

1. Understanding the Definitions of Hypertension Disorders in Pregnancy (HDP)
2. Review best practices for Management of HDP
3. Maximizing Outcomes with Shared Decision Making with Patient Input
4. When to Escalate Care to Improve a Continuity of Quality

Monday, April 9, 2018

3:45-4:30 PM

Shoulder Dystocia Management....Helping People Out
Eric Carlson, DO

Learning Objectives:

Broad Global Objectives:

1. Complication from shoulder dystocia is one of the most common reasons for medicolegal litigation in the practice of obstetrics & gynecology.
2. A standardized, evidenced-based approach to the management of shoulder dystocia may help reduce neonatal injury.

Behavioral Objectives:

1. Discuss the medicolegal aspects of shoulder dystocia litigation
2. Discuss neonatal brachial plexus injury
3. Discuss the identification of shoulder dystocia
4. Review the management of shoulder dystocia
5. Discuss the risk factors associated with shoulder dystocia
6. Review the informed consent process for those patients at risk for shoulder dystocia
7. Discuss simulation and drills as a means of improving neonatal outcome

Osteopathic Principles and Practice:

1. Rational treatment is based upon an understanding of these principles: body unity, self-regulation, and the inter-relationship of structure and function.
2. Structure and function are reciprocally inter-related.

4:30-5:15 PM

A New Practice Paradigm to Combat Physician Burnout
Deborah Herchelroath, DO

Learning Objectives:

1. Understand the top reasons for physician burnout.
2. Learn that there are payment options aside from fee for service (accepting payment from a third party payer).
3. Learn about "direct care" as an option for health care.

Tuesday, April 10, 2018

7:30-8:15 AM

Transcendental Meditation in OBGYN Care: Improving Patient Outcomes & Enhancing Provider Resiliency

Past President's Honorary Lecture

Stuart Rothenberg, MD

Learning Objectives:

Broad Global Objectives:

1. Stress negatively impacts normal physiological function, e.g., in pregnancy and delivery
2. Effectivestress-reductionstrategiescanpromoteoverallwellnessandimprovehealthoutcomesinthe OBGYN setting

Behavioral Objectives:

1. Review the peer-reviewed published scientific literature on Transcendental Meditation in healthcare
2. Understand evidence-based applications of TM to OBGYN practice
3. Identify applications of TM practice for improving provider resiliency and preventing burnout

Osteopathic Principles and Practice:

1. The body is a unit, and the person represents a combination of body, mind, and spirit. Transcendental Meditation allows the mind to settle down to its least excited state, a state of "restful alertness," with corresponding physiological changes indicative of neurological integration (EEG coherence, improved cognitive performance) and deep relaxation (reduction of stress markers).
2. The body is capable of self-regulation, self-healing, and health maintenance. Practice of Transcendental Meditation has been documented to improve health outcomes, including reduction in healthcare utilization and costs, across a broad range of chronic health conditions.

8:15-9:00 AM

“Stump the Professors” Urogyn Edition

Patrick Woodman, DO, Micheal Coyle, DO and Jason Meade, DO

Learning Objectives:

1. Discuss the uncommon presentation of the common Urogynecologic disorder
2. Discuss the common presentation of the uncommon Urogynecologic disorder
3. Discuss some of the few “Emergencies” that can strike Urogynecologic patients
4. Know when to refer

Tuesday, April 10, 2018

9:00-9:45 AM

Olympic Athletam Feminam: The Identity, Culture and Medical Approach
Rebecca Rodriguez Regner, DO

Learning Objectives:

1. In any patient and especially our female elite athletes, treat with the three tenants of osteopathic principles: (mind, body and spirit)
2. Identify most female athletes just worry about the now and training to get to the Olympics or elite competition and not about maintenance female health. Education on maintenance of female general health is vital.
3. Learn to implement strategies to educate athletes that the body works as a unit and it takes a strong and complete medical team to take care of their health: primary care physician, sports medicine physician, sports psychologist, sports dietician, coach, parents, athlete

10:15-11:00 AM

Hybrid Fractional Laser Treatment of Genitourinary Syndrome of Menopause
Michael J. Coyle, DO

Learning Objectives:

1. Familiar with Genitourinary syndrome of menopause, what causes GSM, and what are the signs and symptoms.
2. informed of the current treatment options for GSM.
3. Introduced to Hybrid Fractional Laser therapy for the Treatment of GSM

Tuesday, April 10, 2018

11:00 -11:45 AM

Training the Next Generation of Osteopathic Physicians
Anita Showalter, DO

Learning Objectives:

1. Be conversant in training challenges osteopathic medical students
2. Outline ways that osteopathic medical students can assist OB/GYN's in patient care delivery.
3. Summarize benefits to patients when osteopathic medical students are involved in their care.

12:45-1:30 PM

Aeromedical Concerns

John Richard Ludtke, MD

Learning Objectives:

Learning Objectives were not received prior to publication.

Tuesday, April 10, 2018

1:30 - 2:15 PM

**Collegiate, Elite and Professional Female Athlete Health,
Medical Care to The Retired Athlete**
Rebecca Rodriguez Regner, DO

Learning Objectives:

1. ID Evidence based med on tx of female athlete triad and tetrad
2. ID Evidence based medicine tx of recovery time for female athletes with impact sports and concussion. Recognizing female hormones as part of difference in recovery.
3. 3. Education on mental state of retired athlete and approach to restoring abnormal menstrual cycle

2:15 - 3:00 PM

Beyond Birth Control: Non-contraceptive Uses of Hormonal Contraception
Michele Tartaglia, DO

Learning Objectives:

1. Different types and mechanisms of action of the most common methods of hormonal contraception (HC)
2. Use of HC for common conditions that present to FP
3. Use of HC for risk reduction for certain conditions

Tuesday, April 10, 2018

3:00 - 3:45 PM

Top 10 techniques for OMM Integration In an OB/GYN Practice
Millicent Channell, DO

Learning Objectives:

1. Describe and review the evidence for the application of OMM in the care of pregnancy, back pain and pelvic pain
2. Describe 10 high-yield techniques for treating the Ob/Gyn population of patients
3. Learn how to incorporate OMM into the general OB/Gyn practice
4. Learn how to document and bill for OMM.

7:15 - 7:45 AM	Single Accreditation Update William S. Mayo, DO <i>AOA President-elect</i>
----------------	---

Learning Objectives:

Learning Objectives were not received prior to publication.

Wednesday, April 11, 2018

7:45 - 8:15 AM

Confronting Maternal Mortality

Lisa M. Hollier, MD, MPH

ACOG President Elect

Learning Objectives:

At the completion of this session, the participants will be able to:

1. Discuss data collection/ interpret trends in maternal mortality in the US
2. Understand causes and contributing factors
3. Identify solutions to reduce maternal mortality and morbidity

8:15- 9:00 AM

Physician Heal Thyself: A Guide to Better Patient Care Through Self Care

MEFACCOOG Distinguished Lecture

Tiffany Lowe-Payne, DO

Learning Objectives:

1. Define the components of the Quadruple Aim of medicine
2. Appreciate the growing epidemic of physician burnout how it impacts the ability to achieve the Quadruple Aim
3. Recognize the importance of self-care as a key component to providing high quality patient care
4. Identify 5 major components of self care from a whole person approach to assist in managing stress, achieving an optimal state of wellness and increasing job satisfaction

Wednesday, April 11, 2018

9:00- 9:45 AM

The Next Level: Finding Significance in a World of Success

Barbara Hawkes Honorary Lecture

Saundra Wall Williams, EdD

Learning Objectives:

1. Develop strategies to direct their time and talent from success toward significance.
2. Identify the greatest deterrent to reaching the next level of success.
3. Understand how to develop the right team to reach the next level of success.

Wednesday, April 11, 2018

Ultrasound Refresher

2:00 - 3:00 PM | **Second Trimester Scans**
Ronald J. Librizzi, DO

Learning Objectives:

1. Understand the American Institute of ultrasound and medicines criteria for second trimester testing.
2. Be able to recognize the images that are basic minimums for the second trimester ultrasound criteria.
3. Be able to explain to patients and other care providers the implications of each of the criteria and what they mean for patient care.

Thursday, April 12, 2018

8:00-8:45 AM

Prenatal Genetic Screening and Diagnosis: An Update
Shania Seibles, DO

Learning Objectives:

Broad Global Objectives:

1. Maternal serum screening is currently the recommended genetic screening option for low risk women in pregnancy
2. Women in high risk categories should be offered cell free fetal DNA screening and genetic amniocentesis during pregnancy.
3. Cystic fibrosis and spinal muscular atrophy carrier screening should be offered to all pregnant women

Behavioral Objectives:

1. Review the current options for prenatal screening and diagnosis.
2. Discuss current recommendations and options for carrier screening in pregnancy
3. Discussion options for diagnostic testing in pregnancy.

Osteopathic Principles and Practice:

The body is a unit, and the person represents a combination of body, mind, and spirit. Counseling regarding genetic screening and testing options during pregnancy requires an understanding of these principles and an individualized approach to the psychological and social needs of the patient.

8:45-9:30 AM

Logistics of Medical Relief Operations

David Adelstein, DO

Learning Objectives:

1. Become familiar with what a disaster is, and understanding the primary needs and continual needs of communities in a disaster.
2. Understand a physicians role in the needs and logistics of an emergency.
3. Review where to locate help during an emergency.
4. Understand the long term consequences of disaster on the population.

10:30 - 11:15 AM

Legal Pearls for the Obstetrician-Gynecologist
Shania Seibles, DO

Learning Objectives:

Broad Global Objectives:

- 1. The four components of medical liability are duty, breach of duty, causation, and damages.
- 2. The ethical concept of informed consent contains both comprehension and free consent.
- 3. The most common clinical situations that medical malpractice arises from include obstetrical claims from neurologically impaired infant, stillbirth, or neonatal death, abnormal fetal heart tones, operative vaginal delivery, and shoulder dystocia and gynecological claims including surgical in Jury/infection/bleeding, delay or failure to diagnosis cancer, and failed sterilization.

Behavioral Objectives:

- 1. Discuss the basics of medical malpractice.
- 2. Discuss and review informed consent and the importance of adequate documentation.
- 3. Review various circumstances that are unique to the obstetrician-gynecologist that may carry higher risk of medical liability.

Thursday, April 12, 2018

11:15 - 12:00 PM

Diversify Your D.O. Degree: 5 Practice Models Every Osteopathic Physician Should Know
Draion Burch, DO

Learning Objectives:

1. To explore the current practice models for OBGYNs
2. To discuss the advantages and disadvantages of each current practice model
3. To identify how to get started with each current practice mode

1:00 - 1:45 PM

Board Exam Pitfalls, Techniques and Top Questions

Dianne Evans, DO

Learning Objectives:

1. Describe how successfully prepare oral osteopathic/ allopathic Obgyn board exams avoiding pitfalls that promote failure
2. Understand topic required and how orally present information in consist clear way
3. Learn How develop study schedule for success

Thursday, April 12, 2018

1:45 - 2:30 PM

"T-Talk"- Transgender Health
Draion Burch, DO

Learning Objectives:

1. To understand the spectrum of transgender identity
2. To discuss the health care needs of the transgender patient
3. To identify resources D.O.s can use to manage the transgender patient.

2:30 - 3:15 PM

Fertility Options and Care in the Transgender Patient
Jennifer Nichols, DO

Learning Objectives:

1. Become comfortable and educated about a transgender patient's reproductive needs
2. Learn how to best treat as a whole person examining all aspects of care
3. Review fertility preservation options prior to and or after transition
4. Discuss family building options of transgender men related to IVF

Friday, April 13, 2018

Florida State License Requirements

7:00-8:30 AM

"Tie Your Shoes Before Your Trip!" Prevention of Medical Errors
Arnold Mackles, MD MBA, LHRM

Learning Objectives:

1. Describe the process of a root cause analysis.
2. Recognize and prevent common medical, surgical and medication errors.
3. Outline features of the SBAR System for healthcare handoffs.
4. Integrate features of The Joint Commission National Patient Safety Goals into daily practice.

8:30 - 9:15 AM

**Federal And State Laws Relating To The Prescribing
of Controlled Substances**

Joel Rose, DO

Learning Objectives:

1. Review of the applicable federal and state laws and rules
2. Review of the current Florida statistics regarding morbidity and mortality of controlled substance related deaths
3. Pharmacology of opiate drugs
4. Proper prescribing of opiate drugs
5. Review of physician liability for overprescribing controlled substances
6. Diagnosis of opioid addiction and treatment options

Friday, April 13, 2018

9:30-10:30 AM

Professional and Medical Ethics

Michelle Mendez, DO

Learning Objectives:

1. To meet the statutorily required CME for Florida Licensed Osteopathic Physicians by reviewing the ethical practice of medicine from both a legal and professional standpoint.
2. This lecture will incorporate the AOA Statement on Ethics as well as the disciplinary side of ethical practice as exercised by the Florida Board of Osteopathic Medicine.

10:30-11:30 AM

Viral Infections in Pregnancy

Shania Seibles, DO

Learning Objectives:

Broad Global Objectives:

1. Maternal serum screening is currently the recommended genetic screening option for low risk women in pregnancy.
2. Women in high risk categories should be offered cell free fetalDNA screening and genetic amniocentesis during pregnancy.
3. Cystic fibrosis and spinalmuscular atrophy carrier screening should be offered to all pregnant women.

Behavioral Objectives:

1. Review the current options for prenatal screening and diagnosis.
2. Discuss current recommendations and options for carrier screening in pregnancy.
3. Discussion options for diagnostic testing in pregnancy.

Osteopathic Principles and Practice:

The body is a unit, and the person represents a combination of body, mind, and spirit. Counseling regarding genetic screening and testing options during pregnancy requires an understanding of these principles and an individualized approach to the psychological and social needs of the patient..

Friday, April 13, 2018

11:30-12:15 PM

Florida Laws and Rules

Joel Rose, DO

Learning Objectives:

1. Meet the educational requirement for license renewal regarding Florida Laws & Rules

CME CREDIT PROCEDURES

CME Credits:

Members wishing to receive CME credit must attest to the time attended during the conference. The attestation process for ACOOG conferences will be conducted on-line. Please visit the ACOOG CME computer kiosk for assistance or log-in to www.acoog.org from your own computer. CME credit cannot be reported unless an attestation is completed and verified by the ACOOG office.

Non-member attendees will receive a limited access log-in and password to the web site for CME purposes. The attestation page will remain open for 30 days after the conference through **May 13, 2018**. After **April 13, 2018** additional requests for CME will require a written explanation and request for special consideration.

Between 30 and 90 days post-conference, an outcomes measurement assessment will be available for up to 3 additional hours of CME AOA guidelines.

Evaluation Form:

An evaluation of the program and faculty should be completed at the time of CME attestation. Please visit the registration area for assistance.

Grievances:

Any registrant finding evidence that the continuing medical education program presented is inappropriate with regard to facilities, handouts, program content, or observes any unacceptable promotion of a specific product in the same room as the educational activity, whether by company representative or lecturer, may submit a grievance in writing to:

ACOOG
201 Main Street, 6th Floor
Fort Worth, TX 76102

Unresolved issues regarding compliance with guidelines of the AOA Division of CME or ACOOG will require a formal written complaint to:

American Osteopathic Association
Division of Continuing Medical Education
142 East Ontario Street
Chicago, IL 60611

This grievance procedure is published in compliance with the AOA CME Guidelines, which requires such procedure by all sponsors of CME programs.

Don't forget to Attest for CME Credits.....!

New System!

Visit our web site at <http://www.acoog.org>
- Sign In with your ID and password

Your ID is your AOA number (IF it begins with a zero, do not use the leading zero) and your password is the first letter of your last name in lowercase followed by your AOA number (again, no leading zero).

EXAMPLE Joe Davis

AOA #: 012345

Login: 12345

Password: d12345

- Click on **EDUCATION** on the navigation bar
- Then click on **CME**
- Click on **CME EVENT ATTESTATION**

New system will open

A Royal Treasure	6
<p>A ROYAL TREASURE'S concept was founded over 30 years ago by making available to convention attendees a great opportunity to experience shopping with products that are covered by a full value exchange policy, unconditional guarantee and free insurance against loss or theft. Stop by and take advantage of this unique opportunity while attending the conference, you'll be glad you did.</p>	
AbbVie	20
<p>AbbVie is a global, research-based biopharmaceutical company formed in 2013 following separation from Abbott Laboratories. At AbbVie, we have the expertise of a proven pharmaceutical leader and the focus and passion of an entrepreneur and innovator. As a result, AbbVie is a leading company with the stability, resources, expertise and passion to discover, develop and bring to market groundbreaking science to solve the biggest health problems that face the world today and tomorrow. AbbVie employs approximately 25,000 people worldwide and markets medicines in more than 170 countries</p>	
AMAG Pharmaceuticals	21
<p>AMAG is a biopharmaceutical company focused on bringing therapeutics to market that provide clear benefits and help improve people's lives. Headquartered in Waltham, Massachusetts, we work to develop and deliver important therapeutics, conduct clinical research in areas of unmet need and create education and support programs for the patients and families we serve. Our products support the health of patients in the areas of women's and maternal health, anemia management and cancer supportive care. Through CBR®, we also help families to preserve newborn stem cells, which are used today in transplant medicine for certain cancers and blood, immune and metabolic disorders, and have the potential to play a valuable role in the ongoing development of regenerative medicine.</p>	
AMAG Pharmaceuticals Women's Health Division	28
American Osteopathic Association	13
<p>Serving as the professional family for more than 137,000 osteopathic physicians and medical students, the AOA works to advance the whole-person philosophy and practice of osteopathic medicine.</p>	
America's Ob/Gyn Board Review Course	19
<p>America's OB/GYN Board Review Course specializes in board preparation for your ABOG written, oral and Osteopathic Continuous Certification (OCC) exam. Our board review courses cover 95% of the test topics in just five days. ABC's review course is exam-focused, evidence-based and in accordance with the latest ACOG references. Each day consists of morning didactics followed by written questions boot camp or core topic structured cases led by ABC faculty. We also offer a wide array of products and services, some of which are:</p>	

Company Name	Booth #
<i>America's Ob/Gyn Board Review Course.....continued</i>	
<ul style="list-style-type: none"> • Test Taking Skills Course now available on line. It has been designed to help the written or CREOG candidate identify weaknesses in the processing of written test questions and then teach you a logical and systematic approach to answering questions in a timely fashion. Besides learning the methodology you also have access to numerous exam strategy videos. • Geared toward Oral and OCC exam candidates our ABOG Webinar was designed by and for osteopathic physicians. Since the webinar's debut in 2011, we can proudly claim a 99% pass rate. • ABC's 4th Station consists of timed "visual aids" that simulates the last station of the oral exam. • ABC's Written Questions Manuals are a favorite with OCC and written candidates as they provide approximately 1,000 questions with answers and references. • Ask about our new Written Exam Online Review Course which is a learning pathway designed for OB/GYN residents. Learn on your own anytime & anywhere. 	
We are ...with you every step... in your quest to achieve and maintain your board certification.	
BabyBrace	7
<p>Pregnancy related back pain is very common and can be a debilitating disorder that is difficult to treat.</p> <p>Despite the advances in technology that have improved most treatments in medicine, pregnancy related back pain treatments have not advanced, leaving patients and doctors with few effective options.</p> <p>BabyBrace® is an orthotic brace designed for gestational and post-natal lower back pain.</p> <p>BabyBrace® was designed by an Orthopaedic Surgeon, is FDA Approved, and covered by most insurances.</p> <p>BabyBrace® is easy to use, adjusts to patients of different sizes, stature and body weight, and of course, throughout the changes in pregnancy / post-natal.</p>	
Baptist Physician Enterprises	22
Bio-Oil	23
<p>Dermatologist Recommended for Scars and Stretch Marks. GFK, 2014</p> <p>Bio-Oil® is a specialist skincare product that helps improve the appearance of scars,</p>	

Company Name	Booth #
<i>Bio-Oil.....continued</i>	
stretch marks, and uneven skin tone. Its advanced formulation, which contains the breakthrough ingredient PurCellin Oil™, also makes it highly effective for numerous other skin concerns including aging and dehydrated skin.	
BioTE Medical	3
<p>BioTE Medical provides bio-identical hormone replacement pellet therapy to men and women experiencing hormonal imbalance. BioTE Medical is committed to excellence in educating doctors and patients about bio-identical hormone pellet therapy. BioTE Medical is headquartered in Irving, Texas, with thousands of certified medical practitioners providing pellet therapy nationwide. BioTE was founded by physicians and is passionate about teaching how hormone balance can be a catalyst for good health.</p> <p>Visit www.biotemedical.com to learn more.</p>	
BTL	18
<p>Founded in 1993, BTL has grown to become one of the world's major manufacturers of medical and aesthetic equipment. With over 1,350 employees located in more than 53 countries, BTL has revolutionized the way to offer the most advanced non-invasive solutions for body shaping, skin tightening & other medical aesthetic treatments. BTL Aesthetics' brands include BTL Vanquish ME, BTL Exilis ULTRA, and BTL Cellutone. Additional information can be found at http://www.btlaesthetics.com.</p>	
ConvaTec	26
Duchesnay USA	16
<p>Duchesnay USA is a specialty pharmaceutical company with a long-standing commitment to women's health. We have a broad portfolio of products to offer safe and effective therapeutic options that meet the health and quality of life needs of women and their family members at different stages of their lives. To learn more, visit www.DuchesnayUSA.com.</p>	
EHRC Technologies	11
<p>Our company attends medical trade shows and conventions all over the country. We focus on selling an FDA approved medical device that repairs the skin. On the basis of LED Therapy Red light treatment is completely safe and has no reported side effects.</p>	
ellura (by Trophikos)	15
<p>As a medical –grade supplement, ellura offers a proven alternative to low-dose antibiotics for UTI prevention. Only ellura® contains 36 mg PAC (proanthocyanidins) and is proven effective as a non-antibiotic, prophylactic option for women with recurrent UTIs. ellura is taken once daily to prevent recurrent UTIs or patients can choose a convenient 'on-demand' intercourse dosing (4 capsules total for every intimate moment).</p>	

Company Name	Booth #
Ferring Pharmaceuticals	14
Focus Medical	12
GE Healthcare	8
GSquared Medical	25
<p>GSquared Medical specializes in developing intraoperative, post-operative and wound care redundant tissue retractors for high BMI patient positioning to fully expose the procedural or wound site. We are showcasing our newest post-operative device to retract the panniculus after the C-Section or hysterectomy. The Retentus ABBY, is worn for up to 14 days to aid in the healing of the incision—even in the shower—to maintain optimal exposure of the incision or wound. It is adjustable and very gentle on the skin.</p> <p>Compared to traditional methods, versatile Retentus retractors deliver repeatable and predictable retraction of the adipose that is efficient, cost effective and potentially reduces workplace injury and/or muscular strain.</p>	
HemoSure	1
HPSRx Enterprises	24
<p>HPSRx Enterprises Inc. was founded in 1996 with the initiative of supporting Women's Reproductive Healthcare. HPSRx is the U.S distributor for IPAS MVA products and the Caya contraceptive diaphragm. We offer several products, for example Dilapan-S, a cervical dilator and uresta for bladder support. HPSRx provides pharmaceuticals, such as, HyperRho S/D, Misoprostol, Methylergonovine, and more! By providing name-based customer service and price efficient options, our goal remains to be your trusted partner!</p>	
Invitae	27
Minerva Surgical	17
<p>Minerva Endometrial Ablation System delivers the result patients are asking for..Zero Bleeding. Minerva produced 72% of Amenorrhea Rate, twice as high as the nearest competitor. Recent market research suggests that 90% of women interested in an endometrial ablation prefer Amenorrhea vs. a significant reduction in bleeding. MINERVA ES features proprietary Extension Tubes that flow CO2 evenly throughout the entire uterine cavity to detect perforations. Visit www.minervasurgical.com to learn more.</p>	
Philips Ultrasound	9
<p>Philips is a technology company focused on improving people's lives through meaningful innovation across the health continuum, from healthy living and prevention to diagnosis, treatment, and home care. It's a unique perspective empowering us all to create a healthier future.</p>	

Company Name	Booth #
Sciton	2
<p>Sciton is committed to providing the best laser and light technologies to medical professionals who want superior value, performance, and results. Sciton's Women's Health Group was formed to address women's most intimate challenges. The WHG's high-quality medical devices are capable of fractional and full-coverage skin resurfacing, phototherapy, laser vaginal therapy, wrinkle reduction, hair removal, treatment of vascular and pigmented lesions, scar reduction, laser-assisted lipolysis, and acne.</p>	
Thermi, an Almirall Company	10
<p>ThermiVa® is an application that uses controlled radiofrequency energy to gently heat tissue with no downtime. ThermiVa applications are non-invasive, non-ablative, and require no anesthesia; they can be performed in your office at your patients' comfort level. The ThermiVa radiofrequency electrode, designed for use on both internal and external tissues, is disposable, and contoured with a sleek, ergonomic design that is easy-to-use. ThermiVa applications are powered by the versatile ThermiRF and ThermiVa device which have proprietary algorithms that allow physicians to select and control the application temperature, providing continuous RF dosage control.</p>

MEETING ROOMS

Under the Covers: Endometriosis, Dyspareunia, and Sexual Dysfunction

Featuring **Mona E. Orady, MD, FACOG**

Please join us for this lunch symposium at the American College of Osteopathic Obstetricians and Gynecologists (ACOGG) 85th Annual Conference in Orlando, Florida.

Dr. Orady will discuss issues related to endometriosis and sexual dysfunction, including the impact of deep infiltrating endometriosis and dyspareunia on the lives of women, the mechanism of disease, and treatment approaches including advanced minimally invasive gynecologic surgery.

**Central Park,
Waldorf Astoria Orlando
Orlando, Florida**

Wednesday, April 11, 2018

12:00PM-1:00PM

Speaker

Mona E. Orady, MD, FACOG

Director, Robotic Surgery Services
Dignity Health Saint Francis Memorial
Hospital San Francisco, California

Mona E. Orady, MD, FACOG, is Director of Robotic Surgery at Dignity Health Saint Francis Memorial Hospital in San Francisco, California. Her philosophy of care focuses on minimally invasive techniques, and special clinical interests include menstrual disorders, fibroids, endometriosis, pelvic pain, and advanced gynecological surgery. She received her medical degree from the University of Western Ontario, and completed her residency at The Ohio State University Medical Center.
