

# CONSTRUCTION SPANISH

## OVERVIEW

### WELCOME TO CONSTRUCTION SPANISH

This course includes a workbook, brief daily videos, conversation audio, and a flashcard app.

### DESCRIPTION:

The Construction Spanish program is designed for daily (Monday - Friday) construction-specific Spanish language practice, driven by brief daily videos delivered each morning to you via email.

This daily email serves as a trigger to engage with the daily videos.

The videos are relevant, entertaining, and brief (each is between 4-6 minutes in duration).

### TOPICS COVERED:

- Basics
- Earthwork
- Foundation
- Structural
- Mechanical
- Interior Finishes
- El Próximo Nivel

### LEARNING OBJECTIVES:

Communicate the most important Spanish language terms and phrases related to key construction terms.

Learn conversational techniques to engage Spanish-speakers without fluency.

Understand the structure of cognates (aka Spanish Twins™) in English and Spanish to dramatically increase your active Spanish vocabulary.

Learn and retain high-frequency terms used in spoken conversations on projects.
