APTA
Academy of Education™

A Component of the American
Physical Therapy Association

Journal Club

April 12, 2022
6:30-7:30pm EDT

The APTA Academy of Education Journal Club is a complimentary, facilitated webinar-based discussion about a Journal article. You will interact directly with the author and a colleague, with expertise in and other views on the topic, demonstrating how the information could be viewed and used. It is a fun way to move yourself in the direction of life learning and strengthen your evidence-based teaching and future research.

Our first quarterly event will be April 12, 2022 at 6:30 PM (EDT). We will be discussing [Parts 1 and 2: Payment for Clinical Education Experiences](#) from the December Issue of JOPTe. Authors **Tawna Wilkinson** and **Peggy Gleeson** and discussant **Bob Rowe** will join with participants for a discussion on this important topic.

REGISTRATION IS COMPLIMENTARY AND REQUIRED TO ATTEND.
Space is limited, so register today!

How Does Journal Club Work?

The APTA Academy of Education Journal Club is a quarterly, interactive, online forum for physical therapists and physical therapist assistants seeking a colleague-friendly venue for learning about and discussing the practical implications of recent research.

- Held quarterly, online
- Prior to the session, attendees are asked to read a selected article from the *Journal of Physical Therapy Education* that illustrates how the study findings might be applied in teaching and research.
- During the session, the authors will present their study, with an emphasis on the motivation for the study and the application/impact of their findings. The discussant will also participate to discuss the implications of the study findings.
- All Academy of Education members are invited to attend. There is no fee for this event, but registration is required.
