

WANT TO DIVE EVEN DEEPER INTO OUR PELVIC & ABDOMINAL HEALTH SPECIALTY?

Special Interest Groups (SIG) serve as dynamic sub-communities within the Academy, offering a platform for 4,000+ current members to actively participate in discussions across more specialized areas of interest. Joining a SIG not only allows you to expand your network of peers and potential future mentors but also provides a valuable opportunity to delve deeper into your specialty.

We add new SIGs as significant interests emerge within membership

Special Interest Groups

How do I Join a SIG?

To join a SIG, you must be an Academy of Pelvic Health Physical Therapy member and you would simply opt-in through **Member Engage**, our dedicated online social discussion forum.

How do I get more involved with my SIG?

You can participate by posting discussion topics or engaging with other posts in the SIG's Member Engage group. Each SIG is led by 4 directors who collaborate on programs, webinar events, and digital resources throughout the year. Be on the lookout, as SIG Directors may periodically seek additional volunteers to work on new projects.
