

The Adhesive and Sealant Council's (ASC) Adhesive & Sealant Hall of Fame honoring North American adhesive and sealant industry "giants."

HOW TO NOMINATE

Nominations need to be submitted to ASC by June 1st. Anyone can nominate an individual for consideration. Nominations can be emailed to ASC's President, Bill Allmond, at Bill.Allmond@ascouncil.org. Nominations should be in writing (no more than 700 words in length) and are required to be co-signed by two people in addition to the nominator who can attest to the achievements and contributions of the nominee.

Criteria

Nominees can be individuals still living (currently working or retired) or deceased.

Nominees are individuals who, through their career in the industry, made:

- impactful contributions to our industry,
- achievements that have advanced the betterment of the adhesive and sealant industry,
- positive and lasting impact to the business and to ASC.

They must work or have worked at an adhesive or sealant manufacturer or supplier company(ies) (*see definitions [here](#)*) in North America, during which time their contributions and achievements were made.

HALL OF FAME SELECTION

One to three recipients are honored each year.

Soon after the June 1 deadline, a task force of the ASC Board of Directors will review and discuss each qualified nomination. They will then recommend between one to three

nominees to the ASC Board of Directors, which will then vote on the recommended nominees.

HALL OF FAME INDUCTION

Once the Board has voted, ASC staff will contact the approved nominees and provide instructions on participating in the induction ceremony. If an inductee is unable to attend or is deceased, family members or friends are welcome to be present.

The induction ceremony takes place each fall (usually October) at the ASC Executive Leadership Conference during the Chair's Reception and Dinner. The ASC Board Chair presides over the ceremony. Inductees are announced and asked to give 5-10 minutes of remarks to all in attendance. Finally, they are presented with a special plaque in honor of their special recognition.

A press release announcing the inductions is sent to the membership and interested parties, and the names of the honorees are listed on the Adhesive & Sealant Hall of Fame webpage on ASC's website.

******As a special benefit, all inductees are given complimentary registration to all future ASC Executive Leadership Conferences.***

Hall of Fame inductees should notify ASC in advance to be registered.
