

Todd P. Michaud, President & CEO, HuLoop Automation, Inc.

With a career spanning over 35 years, Todd P. Michaud is a results-driven senior technology executive with a wealth of global leadership experience. Currently at the helm as the CEO of HuLoop Automation, a rapidly growing, venture-backed, AI-based intelligent automation platform, Todd is focused on transforming the future-of-work.

Todd's career journey includes noteworthy positions such as CEO at DemandTec, Chief Business Officer at Hypersonix AI, and Chief Customer Officer at Symphony Retail AI. His impact extends to roles like President at Retalix USA (acquired by NCR Corporation), CEO at Revionics (acquired by Aptos), President/CRO/CMO at IDS, LLC (sold to Retalix). His career launched at IBM Corporation, where over 16 years, he progressively assumed increasingly senior leadership responsibilities.

Todd is a proven Software CEO (3x) and President/CRO (5x) across Venture-backed, Private equity-backed, and Public Companies. His successes include three prior startups, three successful software turnarounds, and three successful exits. Todd's expertise encompasses Enterprise Software, Predictive & Prescriptive Analytics, and AI companies, from pre-revenue to over \$1B+. He is adept at navigating the complexities of launching startups, steering growth-focused companies, and revitalizing mature businesses.
