

Guide to TDM-CP Recertification Credit Opportunities

This guide serves as a centralized reference for individuals seeking to maintain their certification by participating in qualifying activities such as conferences, trainings, professional contributions, and other relevant engagements. Whether you are planning your credit-earning activities for the year or looking to confirm the eligibility of a specific experience, this resource is designed to provide clarity, structure, and support throughout your recertification journey.

It is highly recommended that you regularly log into your Member Compass on the ACT website (www.actweb.org) to view Continuing Education credits awarded to you for many of the ACT hosted professional development opportunities and even some of the leadership opportunities.

All dates must be within your 2-year certification window, for example, if your term started January 1 and your certification period began May 1, please enter May 1 as your term start date (same for end date). For events, publications, awards, and a few other opportunities, the completion date required is the date of the event, publication, award, etc.

If a credit opportunity requires pre-authorization from the Certification Board of Trustees, please send an email to certification@actweb.org prior to submitting your request.

Leadership Credits
