

Technology Conference

2025 Agenda | San Jose, CA

Pre-Conference - Wednesday, October 1st

Time	Event	Location
3:00 pm - 4:00 pm	Technology Committee Meeting	Guadalupe
4:00 pm - 6:00 pm	Check-In sponsored by Niche Technology	Market Street Room
4:00 pm - 6:00 pm	Welcome Reception sponsored by Skydio	Market Street Room

Day 1 - Thursday, October 2nd

Time	Event	Location
7:00 am - 8:00 am	Exhibitor Move-In	San Jose Ballroom
8:00 am - 9:00 am	Check-In and Coffee	Foyer
9:00 am - 9:30 am	Introductions	San Jose Ballroom
9:30 am - 10:30 am	<p>Light & Illusion The Impact of AI on Law Enforcement and Justice <i>Jed Stone, Chief Revenue Officer - Isurred</i></p> <p>AI casts both light and shadow—offering new tools for resilience while creating risks that challenge truth itself. This session will explore the opportunities it provides while taking a serious look at the dangers it presents. What would seem like tomorrow’s sci-fi policing capabilities and problems are actually here today.</p>	San Jose Ballroom
10:30 am - 11:30 am	<p>AI Enhanced Communications: Transforming Public Safety Operations <i>Chief Brian Kalinowski, Captain Richard Small, Dispatch Supervisor Laura Sotelo - Galt Police Department and Brad Flanagan, Prepared911</i></p> <p>As call volumes rise and staffing challenges persist, GPD has leveraged AI to strengthen its communications center. This session outlines the department’s experience implementing Prepared911’s Assistive Call-Taking (ACT) and Automated Non-Emergency Triage (ANET) systems. Attendees will gain insights into how AI-enhanced tools improve response times, reduce dispatcher workload, and support effective triage of non-emergency calls. The presentation will cover lessons learned, cultural shifts within the PSAP, implementation strategy, and community messaging—with real-world examples and policy guidance.</p>	San Jose Ballroom
11:30 am - 1:00 pm	Lunch sponsored by Abel Police and Expo	San Jose Ballroom

1:00 pm - 2:00 pm	<p>Redefining Public Safety: The Role of AI and Emerging Tech in Modern Policing <i>Captain Francisco Franco, Captain Bill Heric, Sergeant Derek Leone - Santa Monica Police Department and Dr. Yuan Li, Professor, Greg Zschaschel, Doctoral Candidate - Saint Mary's College</i></p> <p>As law enforcement agencies navigate the complexities of AI adoption, a structured, research-backed approach can provide guidance for success. This session explores how academic research along data-driven analysis has informed the strategic direction for deployment of AI within policing, culminating in the launch of the Santa Monica Analytical Real-Time Center (SMART Center). Attendees will gain insights into how to align AI with operational goals to implement a prescriptive roadmap for technology integration, how agency leadership can leverage academic frameworks to enhance resource allocation, and how to optimize real-time data synthesis and improve crime response alongside prevention strategies while addressing key organizational challenges in AI deployment.</p>	San Jose Ballroom
2:00 pm - 3:30 pm	<p>Roundtables <i>(3 roundtable sessions, 25 minutes each)</i> AI Policy Technology in Wellness AI in Human Resources Community Outreach Technology Funding & Procurement Real Time Crime Centers</p>	San Jose Ballroom
2:00 pm - 3:00 pm <i>(concurrent with roundtables)</i>	<p>AI 101: A Foundational Guide <i>Dan Healy, Commander, Suisun City Police Department</i></p>	Guadalupe
3:30 pm - 3:45 pm	Break	
3:45 pm - 4:45 pm	<p>Legislative AI Update <i>Jonathan Feldman, Legislative Liason, ARC Strategies</i></p>	San Jose Ballroom
4:45 pm - 5:00 pm	Closing Remarks	San Jose Ballroom

Day 2 - Friday, October 3rd

Time	Event	Location
8:00 am - 9:00 am	Continental Breakfast sponsored by GateKeeper Enterprise	Foyer
9:00 am - 9:15 am	Introductions	San Jose Ballroom
9:15 am - 10:15 am	<p>Expert Panel - The Dark Side of AI: Risk, Resilience, and Real-World Safeguards <i>Donald Hester and Greg Park, Cybersecurity and Infrastructure Security Agency</i> <i>Dan Healy, Suisun City Police Department</i></p> <p>This session brings together experts from the Government AI Coalition, and the Cybersecurity and Infrastructure Security Agency for a dynamic discussion on identifying the foundations of Artificial Intelligence, real-world applications, and the role AI plays in policing.</p>	San Jose Ballroom
10:15 am - 11:15 am	<p>Roundtables <i>(2 roundtable sessions, 25 minutes each)</i></p> <p>AI Policy Technology in Wellness AI Report Writing Community Outreach Technology Funding & Procurement AI in Dispatch</p>	San Jose Ballroom
10:15 am - 11:15 am <i>(concurrent with roundtables)</i>	<p>AI 101: A Foundational Guide <i>Dan Healy, Commander, Suisun City Police Department</i></p>	Guadalupe
11:15 am - 11:30 am	Break	

11:30 am - 12:30 pm	<p>Regional Video Sharing for Situational Awareness <i>Ron Brooks, Brooks Bawden Moore</i> <i>Tom Burgoon, Skyline</i> <i>Michael Baltrotsky, Montgomery County, Maryland Fire & Rescue Service</i></p> <p>This session explores how public safety and law enforcement agencies can implement a scalable, multi-agency video sharing solution to support real-time situational awareness during daily operations, emergency incidents, and major planned events. With California preparing to host global events and facing ongoing challenges like wildfires and civil unrest, the need for regional interoperability has never been greater. Attendees will hear about a successful East Coast model that connects thousands of cameras across hundreds of agencies, and learn key takeaways on system design, coordination, and long-term sustainability. The session will cover critical features, common pitfalls, and strategies for building a secure and effective video sharing framework in California.</p>	San Jose Ballroom
12:30 pm - 1:00 pm	Closing Remarks (You Decide...)	San Jose Ballroom
1:00 pm - 5:00 pm	Exhibitor Move-Out	San Jose Ballroom
