

OPERATIONS

ROUNDTABLE

Launching Fall 2026 Register by **October 15** to reserve your spot!

CONNECT. COLLABORATE. SOLVE CHALLENGES.

Running a successful lumber and building material operation requires more than keeping inventory moving - it takes strong leadership, efficient processes, and the ability to adapt to today's challenges. Join fellow operations leaders for the CSA LBM Operations Roundtable, an interactive discussion designed specifically for operations professionals to share ideas, discuss common challenges, and learn from one another.

WHAT

Peer-to-peer roundtable comprised of 10-12 professionals from multiple LBM companies; 1 in-person 2-day meeting and 2 virtual sessions per year.

WHO

Designed for Operations Managers, Yard Managers, Delivery Managers, Branch Managers, General Managers, and Company Owners looking to improve operations, share best practices, and learn from industry peers.

WHEN

The Operations Roundtable is planned to kick off with a virtual meeting in early November, followed by an in-person gathering in early 2027 as the group grows and collaborates.

COST

The annual fee for the CSA Operations Roundtable is \$850 per company. Additional costs for in-person meetings, including facilities, meals, speakers, and travel, will be shared equally among participating companies. Members are responsible for their own travel expenses, and CSA will work to keep all costs reasonable.

TAKE A SEAT AT THE TABLE. Join the CSA Operations Roundtable!

This isn't another presentation - it's a conversation built around real challenges, shared experiences, and practical solutions. Connect with fellow LBM leaders to discuss what's working, what isn't, and how we can strengthen operations together. Bring your questions. Share your ideas. Learn from peers who understand the unique demands of the lumber and building materials industry.

Help shape the future of LBM operations and be part of this new collaborative peer group.
