

# What is it?

Would you use this?

# Near compliant

Do we use these?

# Fully equipped or Distractions?

# Dock Operations

# Loading Docks

# Warehouse Rack Systems

- Properly anchored
- Load rated
- Aisles are clear and marked

Do we have a problem?

# Material Handling- Rack Storage

Racks must be anchored to the floor.

Arms must be capacity load-rated.

Racks carry heavy loads—up to 6,600 lbs. per pair of arms for HD racks.

Total capacity can run as high as 80,000 lbs. per column.

**Must be rated and secured/  
anchored from falling over**

**Rack arms must be load rated**

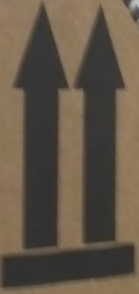

**Note arm Load Capacity Rating & train forklift operators**

**TRANSCHEM**

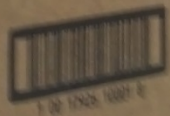

**WARNING**  
DO NOT  
DOUBLE STACK  
PALLETS  
**MUST  
STORE ON  
GROUND  
LEVEL**

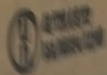

**HYDROCHLORIC ACID (MURIATIC)**  
MAY BE IRRITANT IF SWALLOWED  
CAUSES SEVERE BURNS  
VAPOR IRRITANT

CONTAINS HYDROCHLORIC ACID. KEEP AWAY FROM EYES AND SKIN.  
DO NOT INHALE OR SWALLOW. DO NOT USE OPEN FLAME. IF  
RELEASED ON OTHER HAZARDOUS CHEMICALS, FIRST AID COUNSELING MUST  
BE GIVEN FIRST FOR 15 MINUTES. INITIAL CONTACT WITH QUANTITIES OF ACIDIC  
MATERIALS MAY CAUSE IRRITATION. IF ACIDIC MATERIALS ARE RELEASED ON SKIN,  
WASH IMMEDIATELY WITH WATER FOR 15 MINUTES. USE  
APPROPRIATE MEDICAL ATTENTION. KEEP OUT OF REACH OF CHILDREN.
