Average total non-salary annual operating budget for communications and creative departments	\$83,333
Is the head of athletics communications a member of the senior leadership team? "yes"	53.6%

CSC recommends:

- Communications and creative teams should be represented on the athletics department's senior leadership where important decisions about the school's brand are made.
- Ensure you have the number of **full-time staff** with the required skill sets to meet the expectations of coaches and administration. Support with adequate work space and the equipment/technology necessary.
- Proactively enact policies that discourage staff from working more than 40 hours per week. Require all staff take at least one day off per week.
- Invest time and resources into staff professional development and innovation.
- Make efforts to pay staff competitive wages to similar industries outside of sports, depending on experience and value to the department.
