TIPS & TRICKS

- Use the Advanced Editing tool in Volleyball, which will help you more easily edit in-game
- If there are players on your rosters that will not play that season, mark them as inactive so they don't show up
- In baseball and softball, you can click the player's name in the field to make a substitution in addition to changing the lineup
- Don't forget to print your [cheat sheets](#) for each sport
- ALWAYS double check before advancing to a new period or quarter
- If you advance too early, you can go back to a previous version of the game and begin before you advanced the game
- Scroll down to "Changes" to view any and all changes to an event or stats have been made
- Make sure to download the LATEST VERSION of [PrestoSync](#)
 - PrestoSync is free with PrestoStats
- Still best practice to click the Send to NCAA button to ensure stats have synced appropriately to NCAA Manager
- If you are not a PrestoWeb user or simply have another preferred Stat Display solution, use [Stat Partners](#)

HELPFUL RESOURCES

- Access our archive of help article through our [Help Center](#).
- Try Presto Stats! Information to access our [Demo Environment](#).
- Schedule 1:1 training with a Support Representative through our [Office Hours](#).
- Submit all support requests through our [Contact Form](#).
- For all of your game day emergencies, text our helpline [424-4PRESTO \(424-477-3786\)](#).
- Stay up to date with our system performance by subscribing to our [Status.io page](#).
- Need stats for Winter or Spring? Click [HERE](#) to have our team get you set-up.
- Interested in PrestoStats Record Books? [Click Here](#) to get started.
