

Public Policy Priorities

The Greater Naples Chamber is committed to cultivating economic opportunity for all by educating, empowering and advocating for our local businesses, while enhancing our quality of life through collaboration, connection and innovation.

Economic Opportunity

We believe a thriving economy is built on innovation, entrepreneurship and a business climate that supports sustainable growth.

Education & Workforce Development

We believe education and workforce development are the foundation of economic opportunities and long-term community prosperity.

Environmental Stewardship

We believe protecting our natural resources is essential to preserving and sustaining our local economy.

Healthcare

We believe that access to affordable, high-quality healthcare is vital to a strong workforce and thriving community.

Infrastructure & Resiliency

We believe modern, resilient infrastructure is the backbone of economic growth, public safety and quality of life.

Tourism

We believe tourism is a cornerstone of our regional economy and a reflection of our community's unique character.

Workforce Housing

We believe access to affordable housing is essential for employers to attract and retain a stable, skilled workforce.
