Digital File Submissions: The preferred method of submitting advertising art electronically is digital ready PDF files.

A digital-ready file means the PDF must be at least version 1.4, with a resolution of 2400 DPI in a CMYK color format. Please use automatic (JPEG) compression with bicubic downsampling of anything above 1800 PPI to 1200 PPI. If you submit a RGB file, the pdf will have to be opened and converted to CMYK, which may cause color changes. Please embed all fonts with no subsets of fonts. If there is black text, please make sure it is 100%K (black) with no cyan, magenta, or yellow. If there are bleeds on your printed piece (required for cover ads; option for full page ads), the PDF must have the bleed included in the size. Bleed is any print that goes off the edge of the page. A minimum of .125" bleed past the page trim size is needed. For example, on an 8.5" x 11" with bleeds, the pdf would be 8.75" x 11.25".

All graphic files should have a resolution of 240 to 350 DPI. Web or screen graphics have a resolution of 72 DPI and are not suitable for high quality printing. Four-color graphics should be CMYK format. Mono color graphics should be grayscale.

Files may be sent by email to advertising@iadd.org. If the file is too large to email (over 2MB), it may be provided through use of a file sharing service like Dropbox, SharePoint, etc.
