

**Conference Preregistration is Now Open!**  
**Join Your Colleagues in Memphis**  
**for the Best Food, Music, History,**  
**Networking, and Professional Development!**

## ***Technology and Engineering: The Soul of STEM***

Memphis is the birthplace and soul of rock and roll, and ITEEA is the soul of STEM—together we're bringing an unforgettable Conference experience to hundreds of technology, engineering, and STEM educators like you!

Get up to speed on all things important to educators by benefitting from over 100 Professional Learning Sessions, preconference workshops, EbDLabs, the STEM Showcase, and exhibits. Additionally there are more networking and social events than ever before with a Welcome to Memphis Event to kick off the conference and Educational Field Trips to destinations like the National Civil Rights Museum and the Rock and Roll Museum.

ITEEA's HQ hotel, the Sheraton Memphis Downtown, is just across the street from the brand-new Renaissance Convention Center, where you can take in breathtaking river views between sessions. Memphis is a very easy city to navigate on foot or take the Downtown Memphis Trolley up and down Main Street for just \$1 per ride!

**Preregister now! You don't want to miss this chance to boost your professional development and networking on March 6-9, 2024 with your colleagues in Memphis while saving money! Early-bird rates end on December 1, 2023.**
