

Is YOUR School a STEM School of Excellence?

STEM is an important force in our economy; anyone and everyone benefits by being familiar with it. Teaching all students to know and do STEM is best delivered when engaging them through technology and engineering and connecting it to science and math.

ITEEA has long been a leader in providing Integrative STEM Education resources to lead our profession and enable all educators to take the initiative in how I-STEM Education is defined and delivered in our school systems.

This leadership is further supported and demonstrated by the schools across our nation and around the world that are effectively bringing critical STEM skills to today's students.

ITEEA's STEM Center for Teaching and Learning™ (STEM CTL) annually recognizes outstanding schools for their commitment to providing a robust Integrative experience through the STEM School of Excellence Recognition Program. This special designation was created to celebrate those schools whose teachers, administrators, and other stakeholders are providing a meaningful STEM education experience for students and to inspire others to learn effective best practices and instructional strategies to enhance their own programs.

Applicants must complete a rigorous application with detailed documentation to demonstrate a strong Integrative STEM program, which is then reviewed by a panel of peers. Following review, schools may be awarded one of the following levels of recognition:

- ITEEA STEM School of Excellence (200+ points)
- ITEEA STEM School of Merit (170-199 points)

STEM Schools of Excellence will be honored at the 2024 ITEEA Annual Conference in Memphis and receive a banner and certificate to display in the school. Apply to be an ITEEA STEM School of Excellence today!

Deadline: Friday,
December 8, 2023

*All K-12 Schools,
Colleges, and
Universities are
eligible to apply!*
