

Expand Your ITEEA Membership!

Add a FREE Council for increased member value and additional opportunities with subsets of ITEEA members with more experiences and needs in common.

CSL provides leadership to technology and engineering education coordinators and administrators, assists in curriculum development, and promotes model programs.

CTETE provides leadership in the areas of research, standards, and professional development for technology teacher educators.

SSC promotes technology and engineering education for the secondary schools and builds a collaborative network of educators dedicated to the advancement of T&E literacy at the secondary level.

ITEEA Elementary STEM Council

ESC promotes technology and engineering education for the elementary schools and builds a collaborative network of educators dedicated to the advancement of T&E literacy at the elementary level.

Technology and Engineering Education Collegiate Association

TEECA consists of undergraduate student organization chapters and individual members. Students join TEECA for networking opportunities, competitive events, job opportunities, and leadership experience.
