## Onshape Certification byDesign: THREE Ways to Become Certified!

ITEEA's STEM Center for Teaching and Learning is proud to announce three ways to become certified in Onshape. Whether you like learning on your own or live online we have a solution for you! These trainings help educators implement Onshape into their classrooms through hands-on experiences. Participants complete the course as students while preparing for the Onshape Certified Associate Exam.

All three training opportunities listed below include three units with five lessons and two challenges. Educators use Onshape and ITEEA's Learning Management System to complete activities and a portfolio to receive a certificate of completion. These training courses are ideal for educators wanting to use Onshape in their classrooms, teach it to students, learn about the Certification Exam, or become Onshape Certified.

**Choose ANY of the Three Options to Move Towards Onshape Certification!**

### ASYNCHRONOUS

*Learn at your own pace!*

Our Asynchronous Training Courses keep you up to date with cutting-edge teaching strategies and innovations. Engage with multimedia resources, participate in online discussions, and apply what you learn directly to your teaching practice. Whether you're looking to enhance your current skills or explore new areas of interest, our courses provide the tools and insights you need to succeed. Embrace the future of professional development with asynchronous learning!
