Our mission is to advance economic prosperity and local ownership through innovative and inclusive initiatives that build our community's wealth and wellbeing.

Our Work

We develop innovative models for sustainable and equitable local economies. We are connected to the local economy and sustainable business organizations throughout the country, granting us access to the best models, case studies and thought leaders.

Our Approach

- ▶ Educating the general public on why it's important to choose local and influencing them to do so.
- ▶ Working with our elected officials, decision-makers and opinion leaders to foster a better environment for creating and sustaining local businesses.
- ▶ Delivering resources, programming, networking, mentorship and more to local businesses of all shapes and sizes.
