## Turn Key Project Grants

The goal of this basic program is to make it easier for nonprofits to complete small projects – usually with one trade - by offering cash grants to help get them done quickly.

For example - our first Turn Key project grant was provided to a nonprofit needing a simple flooring replacement in two of its apartments for formerly homeless women.

## Classic Renovation Projects

Our standard mid-level projects are more comprehensive than Turn Key. For a classic project, we typically engage a builder and subcontractors to secure in-kind discounts of labor and materials. Two examples of classic projects include an accessible kitchen renovation at a group home and a complete HVAC system overhaul for energy-efficiency - all completed at a discounted project cost.

## Marquee Projects

Our top level marquee projects have more visibility, a longer timeframe, and are much more complex. Often there is much predevelopment work and multiple stakeholders.

For large-scale projects, we work to leverage every dollar and resource, utilizing a project manager to help coordinate our outreach efforts as well as manage and supervise the construction process.
