LOCAL RESULTS. STATEWIDE IMPACT.

Michigan Works! is a network of 16 diverse organizations across Michigan, driving job creation, career growth, and talent development through strong statewide partnerships—including:

GOING PRO TALENT FUND

With over 6,000 companies and 175,000 workers benefitting from the program since 2014, the Michigan Works! network uses the Going PRO Talent Fund to ensure Michigan's employers have the talent they need to compete and grow; individuals have the skills they need for in-demand jobs; and support an increase in credentials, certificates and degrees through employer-responsive training.

REGISTERED APPRENTICESHIPS

Through Michigan Works!, employers across the state design and implement USDOL-registered apprenticeship programs tailored to their workforce needs—whether in skilled trades, health care, manufacturing, IT, or emerging industries. These programs help businesses recruit, train, and retain skilled workers while providing participants with nationally recognized credentials and long-term career pathways.

BUSINESS RESOURCE NETWORKS

Assisting local companies to leverage resources to ensure employees' needs are met, resulting in improved workplace engagement.

“When I first considered an apprentice for our winery, I was surprised at how many DOL approved apprenticeships there were related to wineries. However, they were all quite specific and limited in scope, clearly intended for very large wineries. As a small winery we needed an apprentice to be trained to do whatever needs to be done, from vineyard to tasting room. Working with Michigan Works! Southeast, we were able to customize a winemaker apprenticeship specific to small wineries. With the help of Michigan Works! Southeast we are well on our way to having a trained apprentice making valuable contributions to the success and growth of our small business.”
