

# astrolabe analytics

**accelerating battery innovation**

Robert Masse, CEO  
[robert@astrolabe-analytics.com](mailto:robert@astrolabe-analytics.com)

**Seattle, WA**

# Mission

To accelerate battery innovation

**Electric Cars**

**Electric Planes**

**Grid storage**

# First-order Problem

**+25% of battery R&D time lost to tedious data chores**

# Management Team

**Robert Masse, CEO**

PhD Candidate,  
Materials Science

**Brian Goodall, CPO**

Software developer,  
battery expert

**Dan Ulery, VP Software**

Experienced software  
developer

**Nick Webb, CIO**

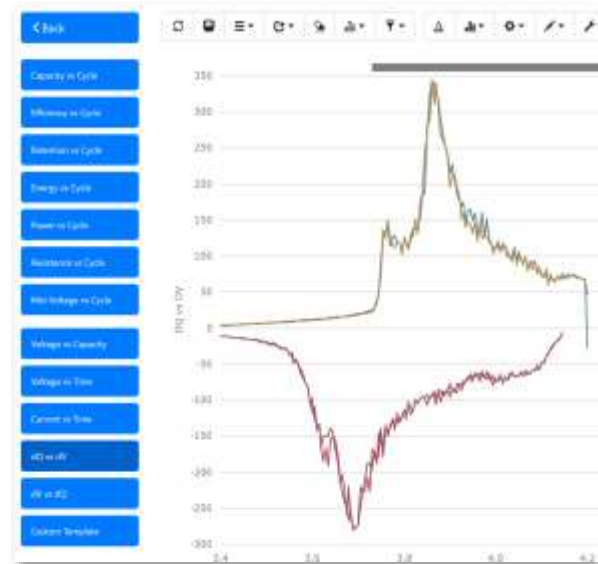

Experienced IT  
business executive

# Astrolabe Analytics battery testing data management

**SBIR • STTR**  
America's Seed Fund

# Phase 1 – Workflow Tools

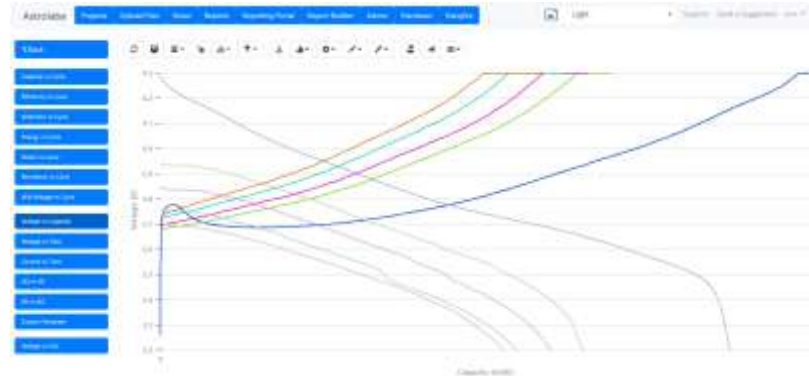

**Routine Analysis**

**Automated data cleaning,  
conversion, and export**

**Metadata management and  
queries**

**Differential capacity**

**Automated processing of  
HPPC, Rate Performance  
Tests**

# Interoperability

**Supported:**

**Arbin**

**Maccor**

**Neware**

**Landt**

**BioLogic**

**Under Development:**

**Admiral Instruments**

# Flexibility

## Cloud

Easiest for  
continuous updates  
and deployments

Lower Total Cost of  
Ownership

## On-Premise

More complicated...

But in our wheelhouse if  
required for data security

[www.redwireservices.com](http://www.redwireservices.com)

# Phase 2 – Advanced Analytics

**Coming Soon!**

**Custom Scripting**

**Python API**

**EIS**

**Integration with other  
processing data streams**

# Early Win

**1st Customer**

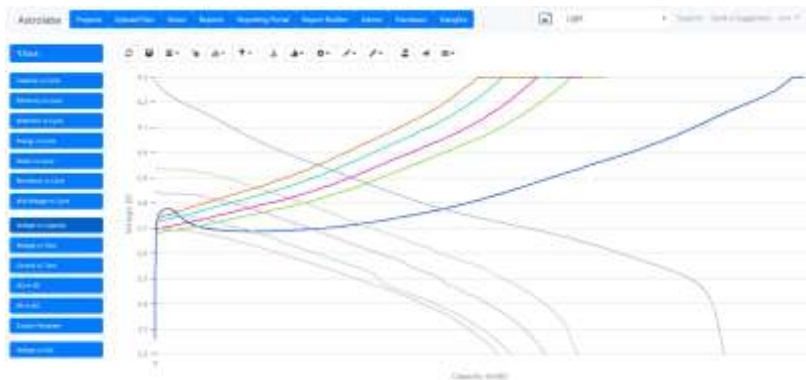

Seattle, WA | Subsidy of BASF  
Carbon materials for energy  
storage applications

**2-3x testing throughput**

**Automated ETL w/  
internal database**

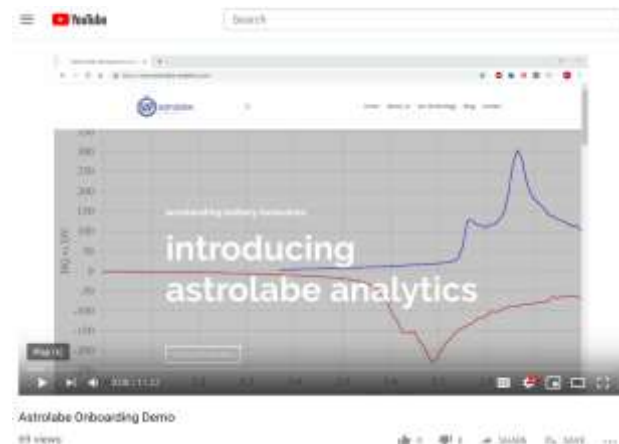

**Automating HPPC, DCA,  
other Pb-acid testing**
