

# Electra Battery Materials

TSX-V: ELBM; OTCQX: ELMBF

Building a Battery Materials Park in North America

# Strategic repositioning

## First Cobalt Corp.

### Cobalt company

- Battery grade cobalt sulfate production
- Idaho primary cobalt extraction

**Products:** Cobalt

## Electra Battery Materials Corp.

### Battery materials company

- Battery grade cobalt sulfate production
- Idaho primary cobalt extraction
- Lithium-ion battery recycling
- Battery grade nickel sulfate production
- Battery precursor manufacturing
- International expansion

**Products:** Cobalt, Nickel,  
Lithium, Copper,  
Graphite, Precursors

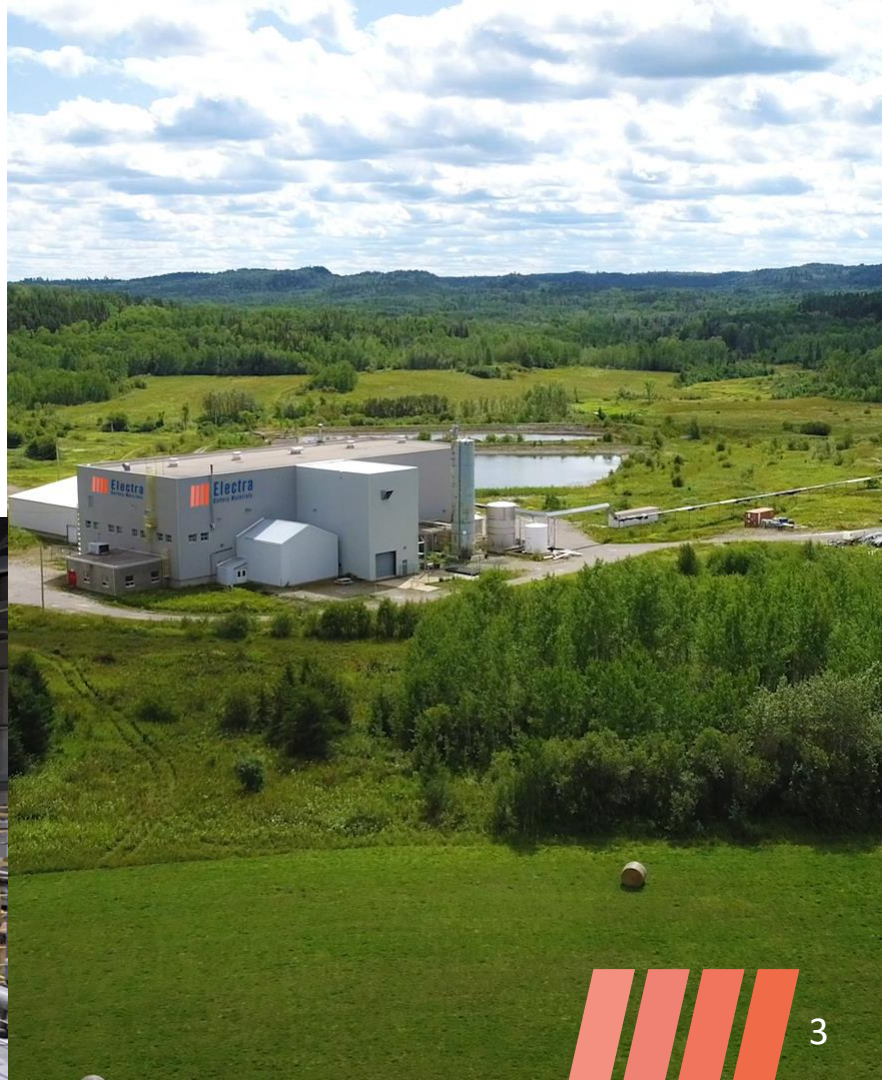

### Rationale

- OEM and cell maker request for an **integrated, localised and environmentally sustainable solution** for critical raw material sourcing in North America
- North American need for **industrial hub** to convert regional nickel resources to battery grade sulfate

**North America's  
integrated, sustainable  
battery materials solution**

# Strategic Asset

- Hydrometallurgical facility with a 10-year operating history
- 51% lower GHGs than Chinese peers
- Only facility of its kind in North America, capable of supplying the electric vehicle market
- First production in December 2022
