

Koura Introduction at NAATBatt 2022

koura

We are a community of companies bound by a shared purpose

Advance Life Around the World

Operation in
41 countries

Commercial
activities in
more than
110 countries

Focused on delivering outstanding results:

Net Revenues
\$6.4 billion

EBITDA
\$1.3 billion

**Consolidated
Net Income**
\$319 million

We are a leading provider of products and services across multiple sectors

Koura capabilities

Core strengths

- Koura supplies **15-20% of the world's fluorine** from our mine in Las Cuevas
- We have an **industry-leading position in acidspar, metspar, HF and AlF₃**, given upstream integration and scale
- Koura is a worldwide **leader in medical propellants**
- **Leading supplier of refrigerants** to automotive air conditioning and other market sectors

Leveraging strengths to win

World's largest Fluorspar mineral body with decades of proven reserves

Produce a significant volume of world's propellants for metered dose inhalers

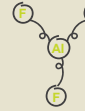

Global scale, fully integrated HF and AlF₃ plant in Matamoros, MX

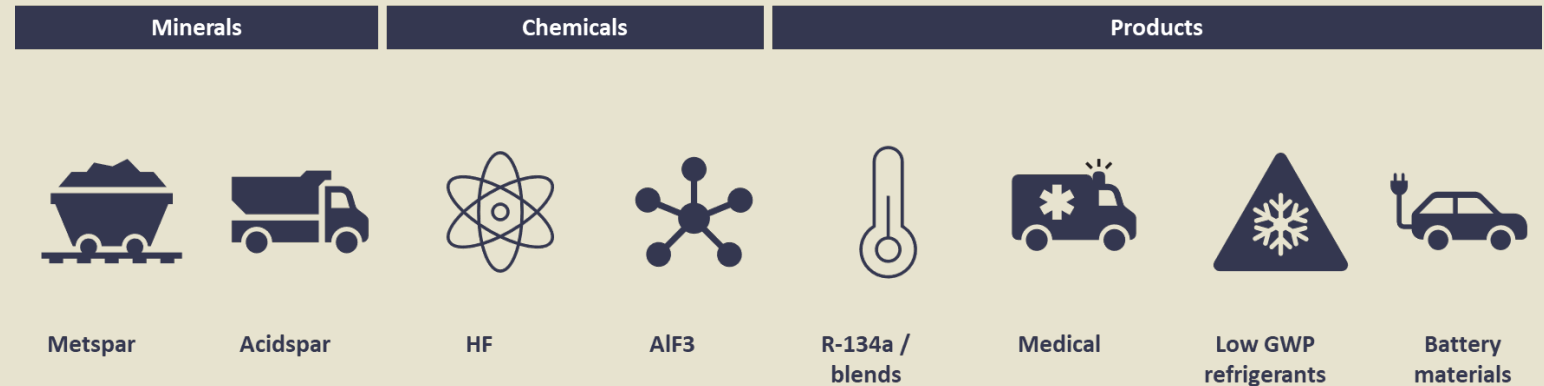

Leading technology for medical, refrigeration and energy storage

Leading HF producer in North America

Supplier of AlF₃ to major aluminum producers

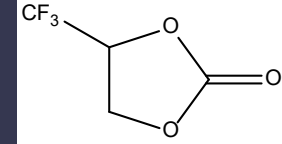

Koura is uniquely suited to supply fluorinated materials to battery industry

Koura has one of the largest global fluorspar reserves

Koura is one of biggest producers of hydrogen fluoride

Developing EU electrolyte salts options

Koura's Koflyte™ additives and solvents, vertical integration

Exploring partnerships, acquiring & developing technology

Orbia Ventures, Koura Lead \$70M Mid-Round Funding Investment in Battery Resources and Engage in New Battery Circularity Initiatives
by Orbia | Oct 11, 2021

Vertically integrated NA electrolyte salts production

Fluorosilane electrolyte materials, electrolyte formulation, battery testing

Exploring new battery technologies & materials, alternative Li sources and breakout solutions

Developing options to recycle Li, F and other materials

Thank you for your time!
