

# Safety, Efficiency & Profitability in Battery Repurposing

Member Update Presentation: Session 5 Downstream  
NAATBatt Annual Meeting & Conference  
February 10, 2022

# GBS Unparalleled Support

## 1. Battery Lifecycle Management

- Repair
- Remanufacture
- Repurpose
- Recycle

## 2. Electronics Lifecycle Management

- Validation
- Repair and remanufacture
- Recycle

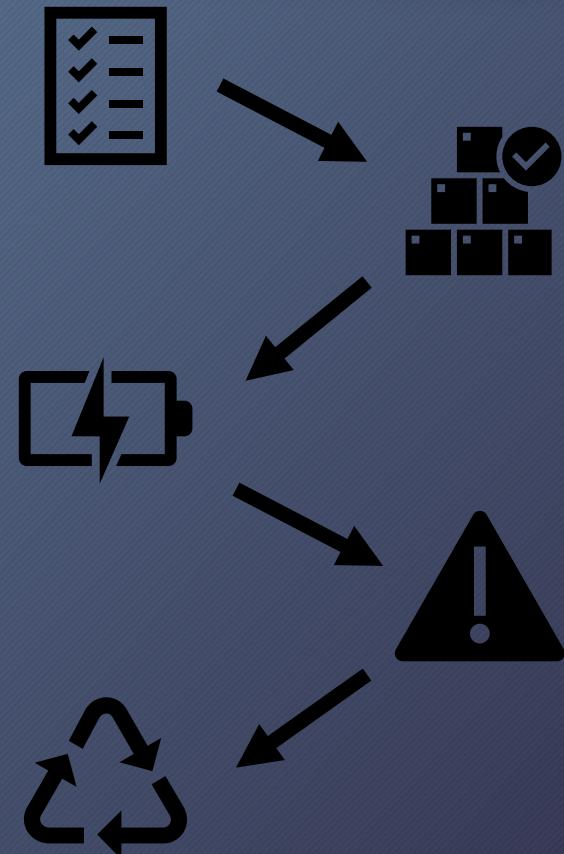

## 3. Innovation Shop

- Consulting
- Wireless power and communication
- ASIC development
- Unique battery IP

# GBS Battery Repurposing

- ✓ Quality Control and Automation
- ✓ Evaluation of Materials
- ✓ Performance Testing
- ✓ Proficiency in Packaging and Shipment
- ✓ Knowledge of Requirements
- ✓ Other Value-added

# GBS Announcing Repurposed ESS Launch

## Portable Home Battery - blipOne

### Power

- Input voltage 120V, frequency 60Hz
- Maximum input current 15A
- Output power 2000W (continuous)
- Output voltage 120V, 60Hz pure sine wave
- 85%+ round trip efficiency
- 4 NEMA 5-15R outlets to power appliances

### Device

- Dimensions: 9x10x29"
- Weight: 70 pounds

### Battery:

- 2200Wh Lithium Iron Phosphate (LFP)
- Typical recharging time of 4 hours - 3000 cycles to 65% capacity
- Communications: WiFi + BLE
- User interface: app for remote control + buttons & LEDs on device
