

# **A CONNECTED, INTEGRATED APPROACH FOR LITHIUM ION BATTERY MANUFACTURING**

**JAY NEUTZLER**

TECHNICAL SOLUTIONS CONSULTANT  
HONEYWELL PROCESS SOLUTIONS

**Honeywell**

# HONEYWELL OVERVIEW

NASDAQ: **HON** | ~750 sites | ~99,000 employees | **Charlotte, NC** headquarters | **Fortune 500**

## Aerospace

Our products are used on virtually every commercial and defense aircraft platform worldwide

## Building Technologies

Our products, software, and technologies are in more than 10 million buildings worldwide

## Performance Materials and Technologies

We develop advanced materials, process technologies, automation solutions, and industrial software

## Safety and Productivity Solutions

We improve enterprise performance and worker safety and productivity

## Honeywell Connected Enterprise

We accelerate our customers' digital transformation with software and Industrial Internet of Things (IIoT) solutions via the Enterprise Performance Management offering, Honeywell Forge. HCE's focus is software development, from the gateway to end-user applications, bringing scale and capability across all of Honeywell.

# Shaping the Future Across Industries

# HONEYWELL

## END-TO-END SOLUTION HIGHLIGHTS TO LARGE SCALE LIB PRODUCTION

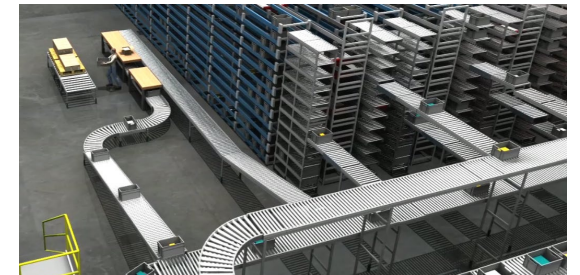

- Orion Operations Center Visualization
- Manufacturing Excellence Platform (MXP) Foundational Infrastructure
- Process Controls like No Other

- Safety: Li-ion Tamer & VESDA
- Intelligrated Material Movement (AS/RS)
- Building, Clean Rooms, & Controls
- Advanced Materials
- Formulated Electrolytes

**LI-ION TAMER®**  
Battery Off-Gas Detection

**Intelligrated**  
**AGV/AMR Automation**

# CONTACT US

**Alec Falzone, PhD**

Growth Initiative Leader - Battery
