WESTWIN ELEMENTS

BUILDING AMERICA'S ONLY MAJOR CARBONYL REFINERY

Using Patented, Proven, Environmentally Neutral Technology

“The United States’ greatest critical metal vulnerability is not a lack of ore, but rather our inability to refine it.”

-KaLeigh Long

Westwin Elements Offers Nickel & Cobalt:

- Refined in the USA
- Ethically and Environmentally sourced
- With a technological advantage

Carbonyl Refining

- 99.99% refining purity
- No toxic tailings
- Lower energy consumption

Westwin Products

Carbonyl Nickel Powder

99.99%

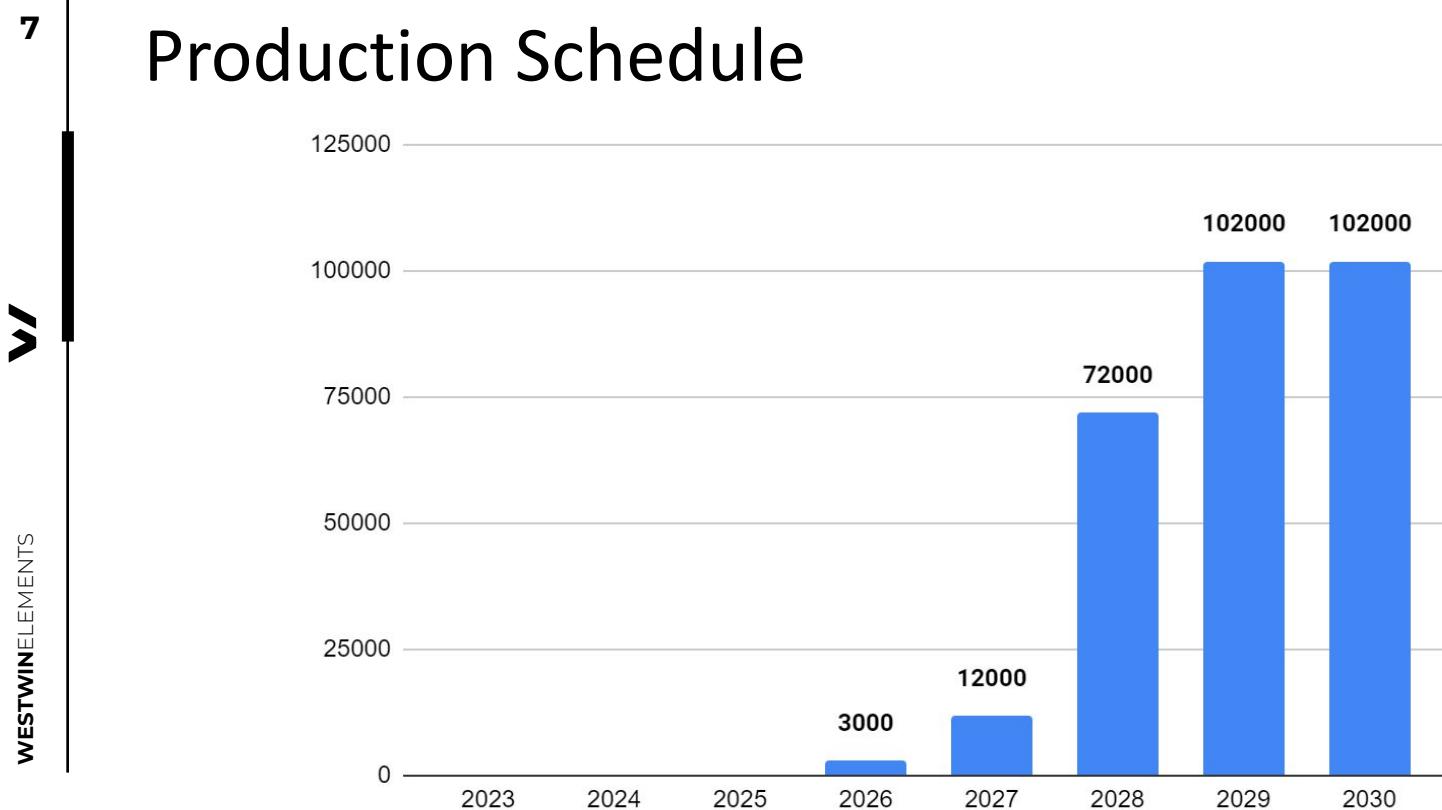

Nickel Sulfate Hexahydrate

~20% Ni basis

NOTE: Samples provided to spec upon request.

Production Schedule

Westwin Elements timeline

Founding & JV

Q1 Estimated Full Capitalization

Construction & Training

Q2 Complete Bankable Feasibility Study

Continue construction of main facility

Q2 Groundbreaking on Lawton site

2023

2024

2025

2026

Funding and Groundbreaking

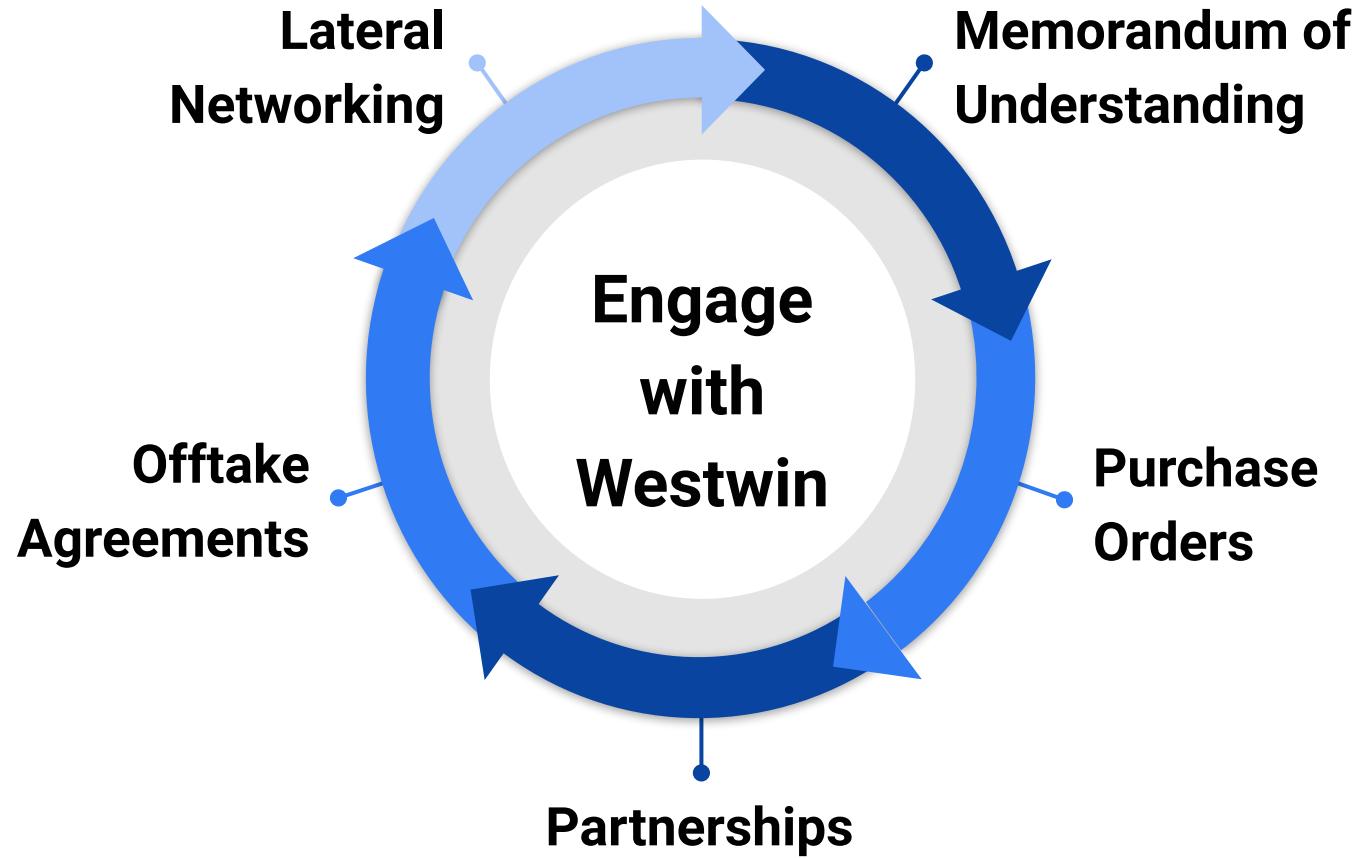

Commission pilot facility

Continue staff technology and safety training

Commission and Production

Q1 Commission Facility

Begin deliveries
