

National Association of Graphic and
Product Identification Manufacturers

CORPORATE MEMBERSHIP

Who We Are

Since 1951, GPI has served as the leading not-for-profit trade association representing the interests of the engineered graphics and identification industry. From small businesses to large, global enterprises, our members are the industry's thought leaders and decision makers.

What We Do

GPI is dedicated to promoting the engineered graphic and product identification industry and fostering innovation for industry growth.

Through networking events, newsletters, and updates from member companies, we share best practices, discuss industry and market challenges, and form a strong collective of problem-solving industry leaders.

Eligibility

Corporate Membership is available to any person, firm, corporation, company or division engaged in the production of product identification from graphically decorated metal or plastic materials.

Benefits

Corporate Members hold full association voting privileges, and enjoy virtual and in-person professional development and networking events, as well as special member rates for annual meetings and exhibition opportunities.

GPI membership provides valuable support, shared information, and helpful services, including:

- Promotion of member companies, their products, and business news
- Updates on best practices, industry news, statistics and benchmarking data, and changes in industry standards
- Information about new equipment, materials, and processes
- Problem resolution techniques for common business challenges
- Informative meetings, workshops, and webinars
- Opportunities to connect with industry peers and suppliers
