

NH Physician Leadership Development Program - A Collaboration Between:

Testimonials:

May 2025 Graduate:  
“Participating in the NH Physician Leadership Development Program (2023–2025), organized by the NH Medical Society, the NH Hospital Association, and the UNH Peter T. Paul College of Business, has been an incredibly enriching experience. The faculty brought depth and insight to topics that physicians often navigate—leadership, mentorship, communication, strategy, and healthcare finance—even when we are not in formal leadership roles. The program offered a thoughtful and practical complement to traditional clinical training, helping me better understand how to lead teams, approach systems-level challenges, and contribute more meaningfully to the future of healthcare.

It was a privilege to learn alongside an inspiring group of physician colleagues from across New Hampshire. The diversity of specialties and perspectives made our problem-solving discussions both fascinating and energizing. I left each session with a deeper appreciation for the talent and expertise within our state—and with a renewed sense of purpose and possibility in my own work.”

> **Delia Hendrick, MD**  
Psychiatrist and Medical Director, Westbridge, Manchester, NH

Current Class (2024-26):

So far, I have been incredibly impressed with the quality of the program and its speakers. We are learning about ourselves as leaders, how we interact with others, and how to use that knowledge to inspire meaningful change. The curriculum balances high-level leadership principles with personalized insights, helping each participant grow individually while also understanding broader leadership dynamics.

The immersive structure allows us to engage deeply with well-taught, comprehensive discussions. There is ample time to explore topics in depth, making the learning experience both meaningful and practical. Seeing how my colleagues who completed the program have excelled in their leadership roles was also a key factor in my decision to join.

> **Nancy Husarik, MD**  
Internal Medicine/Pediatrics Specialist  
Elliot Pediatrics & Primary Care, Raymond, NH

May 2025 Graduate:

“I’m proud to have successfully completed the New Hampshire Physician Leadership Development Program through the NH Medical Society and the University of NH. I gained valuable training in healthcare policy, organizational strategy, financial stewardship, and team-based leadership. It was a meaningful opportunity to collaborate with peers across the state and strengthen the skills needed to navigate today’s complex healthcare environment.”

> **Dr. Shawn P Harrington MD, ABPMR**  
Monadnock Orthopaedics and PM&R Depts Medical Director, Medical Director Physical Rehab and Wellness, Medical Review Officer, Occupational Health Medical Director
