

Legislative Report - July 2016

Thank you to the NHMS Legislative Committee and the physicians who testified and/or contacted legislators over the past six months. In New Hampshire, the efforts of individuals can and do make a difference in the legislative process!

Prior authorization for prescription drugs was a front burner issue this year. **HB 1608**, the bill to require a standard form or electronic option for prescriptions was strongly opposed from January through May by health insurers and PBMs. Individual physician emails to House Commerce Committee legislators and to state senators were a key component in the Medical Society's successful strategy. **HB 1680**, the bill to renew the suspension of prescription drug prior authorizations for Medicaid patients with certain mental health conditions was extended for another twelve months. **SB 532**, the bill to clarify prior authorization requirements for substance use services was enacted after careful negotiations and heartfelt debate. Unfortunately, **SB 434**, the bill to mandate that prescription prior authorizations be valid for 12 months (instead of three months) did not pass and was sent to interim study.

Prescription **opioids** dominated a good part of the legislative session as well as the administrative rules process. Passage of **SB 576** in January addressed opioid prescribing, use of the NH Prescription Drug Monitoring Program (PDMP) and CME requirements for prescribers with DEA numbers. The enactment of **HB 1423** in June included the creation of a policy group to make recommendations for opioid prescription limits for acute pain and changed the exceptions for querying the NHPDMP. See the NHMS or Board of Medicine websites for specifics.

This will be my last legislative report, as I plan to retire in mid-September. Many thanks to all the physicians and their office staffers who helped provide me with testimony and critical information to support or oppose legislation over the past 29 years.
