

Access Champion Award

The Patient Access Collaborative recognizes individual members who have demonstrated excellence in patient access. Do you have a colleague who has **positively impacted patient access** at your health care organization by improving access workflows, breaking down access barriers, or **going above and beyond** their call of duty to ensure patients get access to your ambulatory enterprise? We invite you to nominate a colleague to be recognized as an **Access Champion** by the Patient Access Collaborative.

Criteria

Workflow Improvements

Demonstrated success in streamlining or optimizing patient access processes.

Collaboration and Teamwork

Builds strong partnerships across departments to improve access-related initiatives.

Barrier Reduction

Actively works to eliminate obstacles that hinder patients' access to care.

Positive Impact on Patients

Contributes to measurable improvements in patients' access to care.

Exceptional Commitment

Consistently goes above and beyond their role to ensure patients receive timely access to care.
