

Access Innovation Award

The Access Innovation Award honors exemplary innovation by a Patient Access Collaborative member who has significantly advanced patient access. This award celebrates groundbreaking efforts in the field, by recognizing impactful and meaningful contributions to patient access through innovation. Nominations on behalf of an individual or a team are encouraged. Self-nominations are welcomed. Award determinations made by the Patient Access Collaborative Membership & Recognition Committee.

*** Please Note - This award is intended to spotlight an initiative. We encourage you to use another award category if you wish to nominate a person or team.**

Criteria

Innovation and Creativity

Demonstrates original, inventive approaches in patient access; introduces novel solutions that challenge conventional methods and provide measurable improvements.

Impact and Outcomes

Proven positive outcomes on patient access metrics, such as reduced wait times, increased scheduling efficiency, or enhanced patient/family experience.

Sustainability and Scalability

Innovation shows potential for long-term benefits and sustainability within the health system. Solution can be scaled or adapted across different settings or health systems, promoting wider industry impact.

Collaboration and Teamwork

Evidence of collaboration across departments, service lines, or with external partners to achieve innovation in patient access; fosters a culture of teamwork, inclusivity, and communication in the development and implementation of the solution.
