

## **Back to the Basics: Things you may have forgotten about Apartment Maintenance or wish you could!**

**(75 Minutes) (10/12/23 – 10:15 – 11:30 am) – Chris King-Dye**

**About this Session:** The apartment maintenance business is not what it used to be! New technology, new tools and more electronic equipment has changed the field forever. When it comes to the basics, though, the principles are the same: crisp, clean, and functional properties and service with a smile rule the day! This session will provide a reminder that maintenance is a career to be proud of and the basic skills are still a core requirement!
