**Maintenance Connection: Idea Exchange Unplugged**

You won't be put on the spot to speak to the group unless you want to; however, this peer-to-peer discussion is the perfect place to share ideas, hear best practices, and explore solutions! Moderated to provide guidance, there is no restricting agenda; just a room full of property management professionals talking about things related to all the processes and challenges we deal with in our world such as new technology and aging buildings, changes in policies and procedures, resident expectations and even tips and tricks to common repairs. Join us for an energizing session that will be free-flow idea generation at its finest!
