

Meet Rich Wyllis

Rich Wyllis is a Community Account Representative with Comcast/Xfinity, where he works closely with property managers, leasing teams, and regional leaders to support communities across Michigan. With a background in board service as President of MTPPA, a local affiliate of the Professional Photographers of America, and over ten years on his neighborhood HOA board, Rich brings strong organizational and people skills along with proven leadership experience.

Rich is running for the PMAM Board of Directors to expand his knowledge of property management, build connections with industry professionals, and explore how partners like Comcast can best support the work of our associations. Coming from outside the direct property management field, he is eager to learn more about the issues facing the industry at the local and state levels and hopes his fresh perspective will bring new ideas and insights to the board.
