Program Information

Jointly Sponsored by:

and

Target Audience

This meeting is designed for anesthesiologists and anesthesia providers and practitioners who specialize in ambulatory or office-based anesthesia.

About This Meeting

The purpose of this annual meeting is to educate and share information that will enable anesthesiology practitioners to provide the highest level of ambulatory anesthesia services and improve patient outcomes.

CME Accreditation

This activity has been planned and implemented in accordance with the essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the American Society of Anesthesiologists and the Society for Ambulatory Anesthesia. The American Society of Anesthesiologists is accredited by the ACCME to provide continuing medical education for physicians.

AMA

The American Society of Anesthesiologists designates this live activity for a maximum of 6.75 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Statement of Need

The SAMBA Mid-Year Meeting provides a forum devoted to ambulatory and office-based anesthesia, offering relevant lectures and discussions, highlights of innovative ambulatory and office-based practices, and networking opportunities with peers and experts in the field.

Needs Assessment

Topics for this meeting were selected by various methods. Suggestions for topics were derived from evaluations of the 2013 and other previous Annual and Mid-Year Meetings, the Annual and Mid-Year Meeting Committees and Board members, reviews of the published literature with the highest impact on the specialty, and by soliciting suggestions from members of SAMBA active in the clinical practice of ambulatory anesthesia. These suggestions were discussed by our authorities in the field of ambulatory anesthesia with educators who attended previous annual, mid-year and board meetings.

Objectives

At the conclusion of this activity the participant should be able to:

1. Develop rational approach to patient selection and preoperative evaluation.
2. Develop strategies to avoid common medicolegal pitfalls in ambulatory surgery.
3. Identify common concerns for ophthalmologic anesthesia and emergencies in an ASC.
4. Describe the role of electronic medical records and electronic implantable devices in ambulatory surgery.

Disclosure Policy

The American Society of Anesthesiologists and the Society for Ambulatory Anesthesia adheres to ACCME Essential Areas, Standards, and Policies regarding industry support of continuing medical education. Disclosure of the planning committee and faculty's commercial relationships will be made known at the activity. Speakers are required to openly disclose any limitations of data and/or any discussion of any off-label, experimental, or investigational uses of drugs or devices in their presentations.

Resolutions of Conflicts of Interests

In accordance with the ACCME Standards for commercial support of CME, the American Society of Anesthesiologists and the Society for Ambulatory Anesthesia will implement mechanisms, prior to the planning and implementations of CME activity, to identify and resolve conflicts of interest for all individuals in a position to control content of this CME activity.

Disclaimer

The information provided at the above CME activities is for continuing medical education purposes only and is not meant to substitute for the independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition.

Special Needs

The Society for Ambulatory Anesthesia fully complies with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any attendee in this educational activity is in need of accommodations, please contact SAMBA at (312) 321-6872.
