Society of Breast Imaging/American College of Radiology Breast Imaging Symposium

Register online today! www.bit.ly/RegisterSBI2017

The largest breast imaging conference in the world offers something for everyone. Enhance your skills through engaging plenary sessions and focused workshops with leading experts. Discover new and original research from around the world presented in scientific sessions and e-posters. Technologists and Members-in-Training, attend sessions designed specifically for you. Connect with vendors and stay up-to-date with cutting edge technology in the extensive exhibit hall.

Objectives

- 1 Explain the current science and recommendations regarding use of screening mammography.
- 2 Analyze other imaging methods increasingly used for breast cancer screening, including digital breast tomosynthesis as an alternative to conventional full field digital mammography, plus breast ultrasound, breast MRI and molecular breast imaging as supplements to mammography.
- 3 Discuss the current pathology perspective on the biology of high risk lesions and of breast cancers.
- 4 Describe the current and evolving surgical and systemic treatment strategies for breast cancers.
- 5 Apply knowledge on a wide variety of breast imaging topics. Molecular breast imaging, radioactive seed localization, challenging cases, performance benchmarks, accreditation and economics will be included.

Society of Breast Imaging Business Meeting

The business meeting of the Society will be held on **Friday, April 7, 2017 at 7:40 AM-7:55 AM. This meeting is open to all SBI members and those considering membership.**

Accreditation Statement

This activity has been planned and implemented in accordance with the essential areas and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the American College of Radiology and the Society of Breast Imaging. The American College of Radiology is accredited by the ACCME to provide continuing medical education to physicians.

Credit Designation Statement

The American College of Radiology designates this live activity for a maximum of 22 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ARRT Technologists

The American College of Radiology is approved by the American Registry of Radiologic Technologists (ARRT) as a Recognized Continuing Education Evaluation Mechanism (RCEEM) to sponsor and/or review Continuing Medical Educational programs for Radiologic Technologists and Radiation Therapists.

The American College of Radiology designates this educational activity as meeting the criteria for up to 22 Category A credit hours of the ARRT.

SAM Statement

Qualified on July 7, 2016, this activity meets the American Board of Radiology's criteria for self-assessment (SAM) activity and is designated for up to 12.75 SAM credits toward the ABR Maintenance of Certification program.

NEW in 2017!

Refresher Course Recordings

You spoke, we listened! Since you can't be in six places at once, we are offering access to recordings of all the concurrent afternoon refresher courses. Audio recordings will be synched with presenters' slides so you can easily follow along with the sessions you couldn't attend in person. Attendees who choose this option will receive access in the conference app automatically when the recordings are made available approximately 6-8 weeks after the Symposium.

Simply select the "**Recordings**" option when registering online for the Symposium.

**Additional fee applies; no CME credit for viewing recordings*

Pre-Conference DBT Workshop

April 5, 2017

Earn eight hours of initial training in Digital Breast Tomosynthesis (DBT), including the unique features of the Hologic, GE, and Siemens DBT systems, as required by the FDA. Attendees will have the opportunity to review cases on individual DBT workstations. Expert faculty will be available during the case review time to provide guidance.

Simply select the "**Pre-Conference DBT Workshop**" option when registering online for the Symposium.

**Additional fee applies; limited to 50 attendees*
