# Where Innovation Meets Excellence

Mammotome + sirius medical 

## Introducing a new partnership!

This collaboration combines the extensive expertise and commercial capabilities of Mammotome with Sirius Medical's innovation and product knowledge, allowing both organizations to better serve you and your patients.

Stop by the Mammotome booth to experience the Pintuition® System.

## Navigation starts with you

Feel confident with the Pintuition® System

-  Robust marker
-  No signal loss
-  Non-radioactive
-  TargetLOC® alignment

# 40 THEN. 40 NOW.

Welcome to the 2025 SBI Breast Imaging Symposium! The Symposium will provide exceptional education, scientific advances, networking opportunities and practical refreshers our members have come to expect. We will celebrate the **40th anniversary of the founding of SBI** at this meeting. Here is a preview of what to expect:

Thursday's theme is **SBI: 40 Then. 40 Now. And so Much More.** The highlights will include the latest science of screening for all modalities and a practical approach to supplemental screening. The first cryoablation course will be held in the afternoon along with case-based challenges, strategies for risk assessment, advanced MRI protocols and the popular session Common Clinical Conundrums.

Friday's theme is **Breast Health is a Team Sport.** The morning plenary session will cover pathology, reconstructive surgery, radiation and surgical and medical oncology, followed by a mock tumor board. The afternoon session will feature presentations on CEM, the axilla and how to balance volume, quality and access. The President's Dinner on Friday will (be a party to) celebrate 40 years of SBI!

Saturday's theme is **The Future of Breast Radiology is Now.** The day will begin with a debate from two legends of breast radiology that you don't want to miss. The best scientific abstract award winners will be featured in the plenary session. Saturday afternoon features the Trainee Track and the Early

Career Track as well as the BI-RADS 3 Fireside Chat, and 2nd offering of the cryoablation course.

Sunday's theme is **The Rules of Breast Radiology.** The morning will feature the rules as established in the BI-RADS Atlas. Answers to your most vexing questions will be given in the live highlights of everyone's favorite column: Dear Jessica Leung. The morning will conclude with an SBI Family Feud.

The Symposium has something for everyone – trainees and seasoned veterans, basic principles and cutting-edge research, private practice and academics and specialists and generalists. As a bonus, the Symposium is a unique opportunity to network and reconnect with colleagues from around the world. On behalf of the entire 2025 Symposium Committee, thank you for joining us this week.

# JOINT ACCREDITATION STATEMENT

JOINTLY ACCREDITED PROVIDER™  
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, this activity has been planned and implemented by Amedco LLC and the Society of Breast Imaging. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE) and the American Nurses Credentialing Center (ANCC), to provide continuing education for the health care team.

Professions in scope for this activity are listed below.

Amedco Joint Accreditation Provider Number: 4008163

## Physicians

Amedco LLC designates this live activity for a maximum of 21.00 *AMA PRA Category 1 Credits™* for physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## 2025 CREDIT CLAIMING INSTRUCTIONS

Credit claiming will be available the first day of the Symposium. Attendees should claim only the credit commensurate with the extent of their participation in the Symposium; no partial credit will be given. To claim credit for the 2025 SBI Symposium, visit the mobile app or meeting webpage, log in with your attendee credentials and click on the “Claim Credit” tile.

Begin by selecting your credit type (Category 1 for physicians, Category A for technologists and Certificate of Participation for non-CME claimers), then proceed by completing the Overall Course Evaluation and the individual Session Evaluations in order to tally your credit total for your certificate. Your certificate will be available to download or print after you have completed the evaluations. The deadline to claim credit is July 28, 2025.

### HydroMARK™ Plus Breast Biopsy Site Marker

Featuring our exclusive hydrogel technology and two unique marker shapes with Wings that Cling™

#### Designed to:

-  Attach to tissue upon deployment<sup>1</sup>
-  Improve visibility and distinguishability, enabling ease of locating<sup>2,3,4</sup>
-  Alleviate displacement during surgical excision<sup>1</sup>

### Pintuition® System

Designed to provide navigational guidance in an easy-to-use and intuitive system

#### Key Advantages:

-  Simple 14G needle deployment
-  Cost effective, no capital equipment required for radiology
-  Precise navigational guidance with GPSDetect® and TargetLOC®

# SPONSORED LEARNING

Thursday, April 24

## LUNCH & LEARN: SIEMENS HEALTHINEERS

12:15 PM – 1:15 PM | E213/214

**Join Siemens Healthineers for an exclusive Lunch & Learn session on Early Breast Lesion Detection: An Integrated Multi-Modality Approach.**

*Dr. Sean Raj, MD, MBA, FSBI Chief Innovation Officer, SimonMed Imaging Scottsdale, AZ; Dr. Andrea Lamphiear, MD Co-Owner & Founder, Grace Breast Imaging and Spa; Toni Urcadez (MRSO)(MRSC),R.T.(R),(CT),(MR),(M) MR Clinical Product Manager – Women's Health*

Siemens Healthineers offers a comprehensive approach to breast cancer care, covering the entire pathway from screening and diagnosis to treatment and follow-up. Learn how health care providers are using cutting-edge technology to improve outcomes and provide patient-centric care. Gain invaluable insights from a panel of your peers, network with like-minded professionals and explore innovative methods for early breast lesion detection.

## LEARNING LAB: MAMMOTOME

1:30 PM – 2:30 PM, 2:45 PM – 3:45 PM and 4:00 PM – 5:00 PM | E207/208/209

### **Mastering Ultrasound Skills from Biopsy to Localization**

Elevate your biopsy skills to the next level, learning advanced techniques including how to achieve benign lesion removal through vacuum-assisted excision.

## LEARNING LAB: BAYER

1:30 PM – 2:30PM, 2:45 PM – 3:45 PM and 4:00 PM – 5:00 PM | E210/211/212

### **Enhancing your imaging suite with CEM and Empowering your practice with Medrad® Stellant Flex, the first and only contrast injector cleared for contrast-enhanced mammography**

Join this hands-on learning lab while at SBI. During this interactive lab, you'll learn about the key steps to implementing CEM into your radiology practice and enhance your understanding of using a power-injector. This learning lab is sponsored by Bayer in collaboration with Hologic.

## Friday, April 25

### LUNCH & LEARN: MAMMOTOME

12:15 PM – 1:15 PM | E210/211/212

#### **Visibility that Lasts. Precision that Matters.**

*Angelique Floerke, MD*

Discover how advancements in technology are optimizing the pathway from biopsy markers to localization.

### LUNCH & LEARN: HOLOGIC

12:15 PM – 1:15 PM | E213/214

#### **Empowering Mammography with AI: Enhancing Accuracy and Early Detection**

*Ryan Gabriel, MD*

Please join us for an exciting session that focuses on the integration of artificial intelligence into mammography to improve the accuracy of breast cancer screenings and facilitate early detection. This session will cover technological advancements, accuracy improvements, clinical integration, case review and future directions. Join us while we explore the transformative potential of AI in improving outcomes and ultimately enhancing patient care.

### LEARNING LAB: BD

1:30 PM – 2:30 PM and 2:45 PM – 3:45 PM | E207/208/209

#### **A Comprehensive Lineup to Elevate Your Ultrasound-Guided Breast Biopsy Procedures**

Get hands on with BD's state-of-the-art breast biopsy tools: the BD EleVation™ Breast Biopsy System, Marquee™ Disposable Core Biopsy Instrument and UltraCor™ Twirl™ Breast Tissue Marker. Use ultrasound guidance to sample and mark in breast phantoms and check out the two new shapes joining the UltraCor™ Twirl™ Breast Tissue Marker family!

### LUNCH & LEARN: BRACCO DIAGNOSTICS

12:15 PM – 1:15 PM | E213/214

#### **Evolving Strategies in Breast Imaging: Optimizing GBCA Use for Screening & Diagnosis**

*Elizabeth A. Morris, MD, FSBI, Professor & Chair, UCD Department of Radiology, UC Davis Health*

This program will enhance participants' understanding of MRI quality and safety considerations while providing insights into establishing and maintaining a robust screening program. Experts will also discuss experiences with gadolinium-based contrast agents (GBCAs) and new optimizations for breast MRI. Attendees will gain practical knowledge to improve MRI protocols, enhance patient care and stay updated on the latest advancements of low-dose GBCA imaging.

## 2025 SBI GOLD MEDALIST

The SBI Gold Medal recognizes individuals for their outstanding contributions to the field of breast imaging and their distinguished and extraordinary service to the Society of Breast Imaging and other medical societies and organizations.

### Join us in congratulating our 2025 Gold Medalist **Paula Gordon, MD, FSBI!**

Paula Gordon is a clinical professor of radiology at UBC with more than 40 years of experience. She introduced breast ultrasound to Vancouver, pioneering its use for image-guided biopsies and demonstrating its value in detecting cancers missed by mammograms. Her groundbreaking 1995 publication revolutionized screening for women with dense breasts, influencing practices worldwide. She has authored key papers on benign fibroadenomas and interval cancers, shaping diagnostic and quality assurance standards. An Officer of the Order of Canada, she has received numerous honors, including the Order of British Columbia. She volunteers as a medical advisor to Dense Breasts Canada and DenseBreast-info.org and as vice president of the Canucks for Kids Fund.

## 2025 SBI HONORARY FELLOW

Honorary Fellows are individuals who have made outstanding contributions to breast imaging and who are otherwise eligible for membership in the society. They are elected by a majority of the active SBI Fellows and remain dues exempt members for life.

### Join us in congratulating our 2025 Honorary Fellow **JoAnn Pushkin!**

JoAnn Pushkin is the executive director and cofounder of DenseBreast-info, Inc. She discovered the risks of dense breast tissue after a palpable lump went undetected by mammography for years. Her advocacy inspired New York State's landmark Breast Density Inform law and led efforts for federal legislation, including the FDA's Mammography Quality Standards Act amendment. She also spearheads support for the Find It Early Act. In 2015, she cofounded DenseBreast-info.org, now the world's leading educational resource on breast density, with nearly one million visits expected in 2024. The organization sponsors World Dense Breast Day, engaging participants from 104 countries. Ms. Pushkin authors articles, speaks internationally and mentors advocates on this critical issue.

# RESEARCH & EDUCATION FUND

The mission of the SBI Research & Education (R&E) Fund is to support the research and education of breast imaging professionals. SBI wishes to offer travel grants to medical students, residents and fellows who have been selected to present their original scientific work at the SBI Breast Imaging Symposium. Your generous donations will ensure these deserving young professionals — the future of the society — have the access, support and resources they need to excel.

## WHAT YOUR DONATIONS SUPPORT: RESEARCH AWARD WINNERS

Three research prizes are awarded for oral abstracts presented at the annual Symposium: one to a medical student/resident, one to a fellow and one to an international organization, based on scientific merit.

# 2025 ABSTRACT AWARD WINNERS

## How it Works:

Find new career opportunities from leading employers that are eager to hire.

Connect directly with recruiters – easier and more effective than hitting the 'Apply Now' button.

Build your network by continuing your conversations with recruiters weeks (and even months!) after the event is over.

All this and more awaits you at the Career Fair during the 2025 SBI Breast Imaging Symposium
