

# MEN'S NATIONAL CHW ALLIANCE

## REPRESENTED STATES

Alabama, Georgia, Michigan, Mississippi, North Carolina, Tennessee and South Carolina

## WHY JOIN THE MNCHWA?

### LEADERSHIP

Be a part of an alliance that seeks to reshape the current models which often leave men, especially men of color, underserved.

### IMPACT

As per estimates, only 11% of CHWs in the U.S. are male. Joining us means being part of the movement to elevate this figure and transform men's health outcomes in underserved communities.

### NETWORKING

Connect with a national network of male CHWs, sharing insights, experiences, and best practices.

## JOINING IS MORE THAN MEMBERSHIP; IT'S A MOVEMENT

Our immediate task is twofold: Increase the number of male CHWs and develop effective models for men engaging men in community health. We believe that with your lived experiences, passion, and skills, we can revolutionize men's health outcomes.

### ABOUT US

Born from a pivotal moment at the 2023 National Association of Community Health Workers (NACHW) Unity Conference in Austin, Texas, the Men's National CHW Alliance (MNCHWA) emerged from the passionate call to improve men's health outcomes. Sparked by a challenge to increase male CHWs, our alliance now represents several states and is growing rapidly.

### OUR VISION

Envisioning a world where men are empowered through the Men's National CHW Alliance to drive equitable health outreach in the Community.

### OUR MISSION

Our mission is to empower men with the knowledge, resources, and support they need to lead the charge in community health, nurturing resilience, understanding, and holistic wellness in all communities we serve. Through education, advocacy, and collaboration, we strive to make this vision a reality, ensuring lasting positive health outcomes.

The Men's National CHW Alliance operates independently and is not an initiative of the National Association of Community Health Workers (NACHW).
