

On Demand Training Opportunities -- AVAILABLE NOW!

Each training through Essential Access Health includes continuing education credit.

» **[Family Planning Health Worker \(FPHW\) Certification Training – On-Demand](#)**

This comprehensive online course is Essential Access Health's nationally recognized comprehensive contraceptive counseling and education training course for health providers and educators. Participants will complete modules, a post course test and counseling demonstration in order to receive FPHW certification.

» **[Contraception Online Course Series: Best Practices in Providing Contraceptive Care](#)**

This online course includes 5 modules. Each module focuses on specific contraceptive method provision to include LARCs, pill, patch, ring and emergency contraception.

» **[Motivational Interviewing for Quality Family Planning Counseling](#)**

This online course discusses the five principles of quality contraceptive counseling and strategies for incorporating them in patient counseling sessions.

» **[Providing Trauma Informed Care](#)**

This online course explores the scope and impact of trauma, its signs and symptoms, and provides a comprehensive response that fully integrates trauma-informed care for the benefit of all patients.

» **[Intimate Partner Violence – Using CUES in Health Care Settings](#)**

This online course enhances the capacity of providers and members of health teams to address and identify intimate partner violence (IPV), reproductive coercion and human trafficking.
