

**SUSTAINABLE  
PURCHASING  
LEADERSHIP  
COUNCIL**

## **SPLC MEMBERSHIP BENEFITS**

**The Sustainable Purchasing Leadership Council (SPLC) is a global community of purchasers, suppliers, advocates, and experts committed to driving positive impact through the power of procurement.**

Sustainable procurement is essential for organizations looking to operate responsibly and minimize their impact on the planet and society, while capturing operational efficiencies and reducing supply chain risk to their organizations. However, no one procurement professional, supplier, or advocacy organization can drive industry-wide change alone. Aligning demand across organizations and sectors is the key to driving meaningful market transformation.

SPLC Provides:

- Quick-start guidance and strategy
- Expert-led strategic program coaching and stakeholder engagement
- Peer-to-peer collaboration and support
- Assessment, benchmarking, and performance monitoring
- Innovative solutions and learning opportunities

For ten years, sustainable procurement professionals have collaborated through SPLC to jointly build strategies that work – driving positive social and environmental impacts for their own organizations, in supply chains, across sectors, and in the communities where they operate. You can too.

## Membership Benefits

### **SPLC Navigator<sup>SM</sup>**

SPLC members enjoy free access to this all-in-one platform that provides sustainable procurement measurement, benchmarking, performance tracking, targeted actions, and supporting resources to drive program maturity and positive impact.

### **Strategic Program Development Coaching**

SPLC Coaches conduct virtual meetings with sustainable procurement teams and leaders that result in the creation of focused, strategic, and impactful programs aligned with overarching organizational priorities to ensure success.

### **Peer Learning Circles**

Sector-based small groups that meet monthly to support and learn from one another while addressing common challenges.

### **Learning Hub**

Concise, self-paced sustainable procurement courses that cover various program, issue, and category-level topics. SPLC members receive five accounts and discounted additional seats.

### **Member Community Access**

All employees of member organizations are encouraged to take advantage of all the self-service resources the SPLC Member Community has to offer, including SPLC Sustainable Procurement Guidance, Case Study Library, Discussion Forums, Webinar Recordings, Innovation Sandbox, and more.

### **Action Teams**

Sprint-team style groups that convene for a limited time to develop interim guidance on an emerging topic of concern.

### **Supplier Directory and Marketplace**

SPLC members get access to our supplier network and can capitalize on exclusive offerings in the Supplier Directory and Marketplace, a showcase of all SPLC members categorized as suppliers.

### **Innovation Sandbox**

SPLC supplier members utilize the Innovation Sandbox as a proving ground for their most innovative ideas and solutions.

### **AND MORE!**

**Tap into our mission-driven community to equip your team to achieve positive environmental and social impacts!**
