

2023 Participation Fees

Participants may join one or two initiatives, or participate across the board, with the ability to delegate different team members to participate in each initiative workstream.

Participation fees underwrite facilitation, research, and administrative costs, and provide scholarship support. Fees are assessed on a sliding scale, depending on organization size and type, and choice of participation options.

2023 fees are prorated since we are launching in Q2. Participation commitment and fees are set one year at a time.

(Participation is on an annual basis. Participants may change their level of involvement on a calendar year basis starting January 2024.)

Organization Type/Size	Full Participant	Supply Chain Renewables	Refrigerants	Data Centers	Measurement
Large Corporate 2023	\$7,500.00	\$2,800.00	\$2,800.00	\$2,800.00	\$1,500.00
