

"I'm so in love with Alma, it's not even funny. It's so pretty. It's so easy to use!"

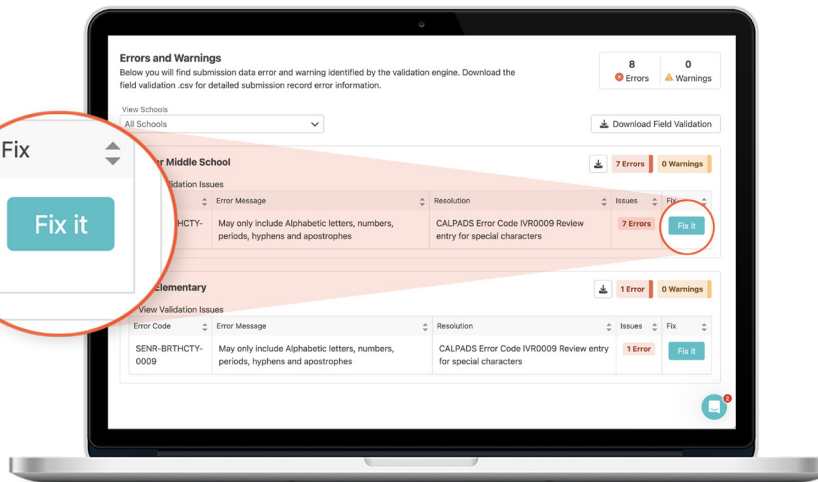

– DATA MANAGEMENT SPECIALIST | SISKIYOU COUNTY OFFICE OF EDUCATION

CALIFORNIA IS CHOOSING ALMA. Find out why.

Alma's California community has grown by 26+ districts, proof that a powerful SIS can still feel human. Districts rely on Alma for intuitive workflows, flexible reporting, stronger family engagement, and support from people who know education data.

And at CALPADS season, Alma really shines.

From student records to statewide data infrastructure, Alma supports education organizations whose data impacts 6M+ students worldwide. That student-to-state breadth comes home to California through tools built for the way your districts actually work.

What if CALPADS had a “fix it” button? WE GOT YOU.

With Alma's Spreadsheet Data Editor, quickly review and correct errors in one familiar view; Alma applies changes across the SIS. No opening records one by one, no duplicate fixes. Just cleaner data and an easier submission.

LET'S DISCOVER WHAT ALMA
WILL DO FOR YOUR DISTRICT.
