

SPEAKER

Dr. Anthony Deliberado, DDS

Dr. Anthony Deliberado, DDS, is a prosthodontist with more than three decades of clinical, academic, and teaching experience in restorative and implant dentistry. He received his Doctor of Dental Surgery degree from The Ohio State University in 1984 and completed advanced specialty training in Fixed, Removable, and Maxillofacial Prosthodontics at the Veterans Administration Medical Center in Wilmington, Delaware.

Dr. Deliberado previously served as Associate Professor and Director of Fixed Prosthodontics at Case Western Reserve University School of Dentistry and also directed the Advanced General Dentistry Residency program. He currently maintains a private prosthodontic practice in Westlake, Ohio, specializing in implant-supported restorations, full-arch rehabilitation, cosmetic dentistry, and complex restorative cases.

An internationally recognized lecturer, Dr. Deliberado presents on full-arch implant restorations, implant-supported overdentures, esthetic-zone implants, digital implant workflows, and comprehensive treatment planning. He is a select speaker for Straumann's Blueprint program and a primary presenter for the TeethToday live surgery course.

COURSE DESCRIPTION

Full-Arch Fixed and Snap-on Removable Locator-Supported Prosthesis

This course presents an overview of fixed and removable full-arch implant prosthetic treatment options, with emphasis on clinical decision-making and restorative protocols. Participants will review patient evaluation, diagnosis, treatment planning, and digital workflow considerations that support predictable outcomes. The course outlines structured clinical approaches for locator-supported removable overdentures and fixed full-arch prostheses, including restorative sequencing, interdisciplinary coordination, and communication with the dental laboratory. Clinical considerations and practical strategies are discussed to support functional, esthetic, and comfortable patient outcomes.

Learning Objectives:

Upon completion of this course, participants will be able to:

1. Describe clinical considerations for evaluating patients for fixed and removable full-arch implant prostheses.
2. Compare treatment planning concepts for locator-supported removable and fixed full-arch restorations.
3. Identify key steps in restorative workflows that support predictable prosthetic outcomes.
4. Recognize the importance of interdisciplinary coordination and effective laboratory communication.
5. Discuss common clinical challenges associated with full-arch implant restorations and approaches to reduce complications.

SCHEDULE

8:00 AM - 8:30 AM	REGISTRATION
8:30 AM - 11:30 AM	MORNING SESSION
11:30 AM - 12:00 PM	BUSINESS MTG
12:00 PM - 1:00 PM	LUNCH
1:00 PM - 4:00 PM	AFTERNOON SESSION
